DELIVERING HIGH-PERFORMANCE ALLOYS FOR THE OIL & GAS MARKET. Oil and gas customers around the world have come to rely on Materion to provide alloy materials that meet the demands of onshore and offshore exploration, drilling, completion and production. Our solutions deliver excellent quality, consistent reliability and unique property combinations to make them the materials of choice for the oil & gas market.

Advanced Materials & Alloys for Oil and Gas Equipment

Advanced Materials for Drilling, Completion and Monitoring. Control and Communication Technologies for Wireline Borehole Probes and Inspection Systems in Hot Geothermal Environments. In geothermal exploration and maintenance, submersible probes are needed for the inspection of, or f.
