The 5th Edition of the book Objective NCERT Xtract -Biology for NEET, Class 11 & 12, AIIMS consists of Quality Selected MCQs as per current NCERT syllabus covering the entire syllabus of 11th and 12th standard. The most highlighting feature of the book is the inclusion of a lot of new questions created exactly on the pattern of NCERT. • This book-cum-Question Bank spans through 38 chapters. • The book provides a detailed 2 page Concept Map for Quick Revision of the chapter. • This is followed by 3 types of objective exercises: 1. Topic-wise Concept Based MCQs 2. NCERT Exemplar & Past NEET & AIIMS Questions 3. 15-20 Challenging Questions in Try If You Can Exercise • Detailed explanations have been provided for all typical MCQs that need conceptual clarity. • The book also includes 5 Mock Tests for Self Assessment. This book assures complete syllabus coverage by means of questions for more or less all significant concepts of Biology. In nutshell this book will act as the BEST PRACTICE & REVISION MATERIAL for all PMT entrance exams. This is the authors true story. A heart warming love story with a very tragic end. The protagonists life doesnt halt. It continues just like her spirit. That doesnt mean an end to the difficulties. How this tiny, emotional girl next door emerges against the evils of society by standing up for herself and millions like her who suffer silently in despair. This is a story of how she dared to be different and did not let circumstances run her over.

**Affirmative Action Matters focuses specifically on affirmative action policies in higher education admission, the sphere that has been the most controversial in many of the nations that have such policies. It brings together distinguished scholars from diverse nations to examine and discuss the historical, political and philosophical contexts of affirmative action and clarify policy developments to further the meaningful equality of educational opportunity. This unique volume includes both well established and emerging policies from the Americas, Europe, Africa, and Asia, policies which developed under a variety of political systems and target a range of underrepresented groups, based on race, ethnicity, gender, class, social background, or region. Accessible and thought provoking case studies of affirmative action demonstrate that such policies are expanding to different countries and target populations. While some countries, such as India, have affirmative action policies that predate those in the United States, affirmative action is a recent development in countries such as Brazil and France. Legal or political pressures to move away from explicitly race-based policies in several countries have complicated affirmative action and make this assessment of international alternatives particularly timely. New or newly modified policies target a variety of disadvantaged groups, based on geography, class, or caste, in addition to race or sex. International scholars in six countries spanning five continents offer insights into their own countries' experiences to examine the implications of policy shifts from race toward other categories of disadvantage, to consider best practices in student admission policies, and to assess the future of affirmative action.**
