We revisit Lipset's law, which posits a positive and significant relationship between income and democracy. Using dynamic and heterogeneous panel data estimation techniques, we find a significant and negative relationship between income and democracy: higher/lower incomes per capita hinder/trigger democratization. Decomposing overall income per capita into its resource and non-resource components, we find that the coefficient on the latter is positive and significant while that on the former is significant but negative, indicating that the role of resource income is central to the result.

***Challenging Mathematical Tasks supports the idea that students learn best when they work on problems that they do not yet know how to solve. Peter Sullivan's research shows that many students do not fear challenges in mathematics, but welcome them. And rather than having teachers instruct them, these students prefer to work out solutions for themselves. Challenging Mathematical Tasks: includes activities that allow for sustained thinking, decision-making and risk-taking by the students features a 'Learning Focus', 'Key Mathematical Language', 'Pedagogical Considerations', 'Enabling and Extending Prompts' for each task, plus 'Supplementary Tasks' and 'Possible Solutions' is written by a well-established expert in the field of teaching and learning mathematics follows a set structure to help students approach and work through the tasks. *Onesimus is a slave. Eirene is a rich merchant's daughter. Onesimus longs to gain his freedom and Eirene's love. However, he doesn't realize where true freedom lies. He wants nothing to do with Jesus Christ. His master, Philemon, may follow the teachings of the Christ and his apostle Paul... but Onesimus has other plans.*

*Fears, anxieties, traumas, and physical and emotional shocks imprint on the body and remain dormant in its vast memory store until they are roused by an event or encounter. They may manifest in a different form or place—a fearful incident may transform itself into a stomachache or a headache, or even a chronic disease. Pain creates its own path. In particular, psychological and emotional stresses affect the functioning of the internal organs. In *Understanding the Messages of Your Body*, Dr. Jean-Pierre Barral explains the relationships that exist between internal organs and emotions, to allow us to free ourselves from the effects of present and past tensions and traumas. The book opens with an explanation of the body-mind relationship and goes on to show how physical-emotional therapy works based on examples from Dr. Barral's clinical practice. The second part of the book offers detailed analyses of various "types" of human personality and the physical-emotional complexes and related organ dysfunctions that accompany them. The author offers advice and encouragement to improve physical, psychological, and emotional health, and recommends physical exercises, psychotherapeutic approaches, and dietary plans that can be used by both professional therapists and the average reader.*

***'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.'* - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.**

*For fans of The Orchardist and The Cove and from the author of bestselling In the Fall, an epic historical novel that fearlessly addresses the largest questions of love, justice, and how to live. "Wonderfully entertaining, deeply moving, beautifully written . . . In my estimation, Jeffrey Lent is our most American writer since Mark Twain and one of the two of three best novelists of our time."--Howard Frank Mosher At the close of the Civil War, weary veteran Malcolm Hopeton returns to his home in western New York State to find his wife and hired man missing and his farm in disrepair. A double murder ensues, the repercussions of which ripple through a community with spiritual roots in the Second Great Awakening. Hopeton has gone from the horrors of war to those far worse, and arrayed around him are a host of other people struggling to make sense of his crime. Among them is Enoch Stone, the lawyer for the community, whose spiritual dedication is subverted by his lust for power; August Swartout, whose wife has left earthly time and whose eye is set on eternity; and a boy who must straddle two worlds as he finds his own truth and strength. Always there is love and the memory of love--as haunting as the American Eden that Jeffrey Lent has so exquisitely rendered in this unforgettable novel. A Slant of Light is a novel of earthly pleasure and deep love, of loss and war, of prophets and followers, of theft and revenge, in an American moment where a seemingly golden age has been shattered. This is Jeffrey Lent on his home ground and at the height of his powers.*

"Chicago is a tale of two cities," headlines declare. This narrative has been gaining steam alongside reports of growing economic divisions and diverging outlooks on the future of the city. Yet to keen observers of the Second City, this is nothing new. Those who truly know Chicago know that for decades—even centuries—the city has been defined by duality, possibly since the Great Fire scorched a visible line between the rubble and the saved. For writers like Alex Kotlowitz, the contradictions are what make Chicago. And it is these contradictions that form the heart of *Never a City So Real*. The book is a tour of the people of Chicago, those who have been Kotlowitz's guide into this city's - and by inference, this country's - heart. Chicago, after all, is America's city. Kotlowitz introduces us to the owner of a West Side soul food restaurant who believes in second chances, a steelworker turned history teacher, the "Diego Rivera of the projects," and the lawyers and defendants who populate Chicago's Criminal Courts Building. These empathic, intimate stories chronicle the city's soul, its lifeblood. This new edition features a new afterword from the author, which examines the state of the city today as seen from the double-paned windows of a pawnshop. Ultimately, *Never a City So Real* is a love letter to Chicago, a place that Kotlowitz describes as "a place that can tie me up in knots but a place that has been my muse, my friend, my joy."

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Were Thomas Jefferson alive to read this book, he would recognize every sentence, every elegant turn of phrase, every lofty, beautifully expressed idea. Indeed, every word in the book is his. In an astonishing feat of editing, Eric S. Petersen has culled the entirety of Thomas Jefferson's published works to fashion thirty-four original essays on themes ranging from patriotism and liberty to hope, humility, and gratitude. The result is a lucid, inspiring distillation of the wisdom of one of America's greatest political thinkers. From his personal motto—" Rebellion to tyrants is obedience to God " —to his resounding discourse on " life, liberty and the pursuit of happiness " in the Declaration of Independence, Jefferson defined the essential truth of the American spirit. In the essays that Petersen has crafted from letters, speeches, and public documents, Jefferson's unique moral

philosophy and vision shine through. Among the hundreds of magnificent sentences gathered in this volume, here are Jefferson ' s pronouncements on Gratitude: " I have but one system of ethics for men and for nations— to be grateful, to be faithful to all engagements and under all circumstances, to be open and generous. " Religion: " A concern purely between our God and our consciences. " America ' s national character: " It is part of the American character to consider nothing as desperate; to surmount every difficulty with resolution and contrivance. " Public debt: " We shall all consider ourselves unauthorized to saddle posterity with our debts, and morally bound to pay them ourselves. " War: " I abhor war and view it as the greatest scourge of mankind. " In stately measured cadences, these thirty-four essays provide timeless guidance on leading a spiritually fulfilling life. Light and Liberty is a triumphant work of supreme eloquence, as uplifting today as when Jefferson first set these immortal sentences on paper.

This is an innovative contribution to the philosophy of human rights. Considering both legal and philosophical scholarship, the views here bear an importance on the legitimacy of international politics and international law. As a result of more than 10 years of research, this revised edition engages with current debates through the help of new sections. Pluralistic universalism considers that, while formal filtering criteria constitute unavoidable requirements for the production of potentially valid arguments, the exemplarity of judgmental activity, in its turn, provides a pluralistic and retrospective reinterpretation for the fixity of such criteria. While speech formal standards grounds the thinnest possible presuppositions we can make as humans, the discursive exemplarity of judgments defends a notion of validity which is both contextually dependent and "subjectively universal". According to this approach, human rights principles are embedded within our linguistic argumentative practice. It is precisely from the intersubjective and dialogical relation among speakers that we come to reflect upon those same conditions of validity of our arguments. Once translated into national and regional constitutional norms, the discursive validity of exemplar judgments postulates the philosophical necessity for an ideal of legal-constitutional pluralism, challenging all those attempts trying to frustrate both horizontal (state to state) and vertical (supra-national-state-social) on-going debates on human rights. On the first edition of this book: " Claudio Corradetti ' s book is a thoughtful attempt to find an adequate theoretical foundation for human rights. Its approach is interdisciplinary in nature, drawing on issues in analytical philosophy as well as contemporary political theorists, and the result is a densely argued text aimed at scholars ... " (Andrew Lambert, Metapsychology Online Reviews, Vol. 14 (3), January, 2010)
