ICA3PP is covering the many dimensions of parallel algorithms and architectures, encompassing fundamental theoretical approaches, practical experimental projects, and commercial components and systems. As applications of computing systems have permeated in every aspects of daily life, the power of computing system has become increasingly critical.

Algorithms and Architectures for Parallel Processing ...

The two-volume set LNCS 11944-11945 constitutes the proceedings of the 19th International Conference on Algorithms and Architectures for Parallel Processing, ICA3PP 2019, held in Melbourne, Australia, in December 2019. The 73 full and 29 short papers presented were carefully reviewed and selected from 251 submissions.

Algorithms and Architectures for Parallel Processing eBook ...
Introduction to Parallel Algorithms and Architectures: Arrays
Trees Hypercubes provides an introduction to the expanding
field of parallel algorithms and architectures. This book
focuses on parallel computation involving the most popular
network architectures, namely, arrays, trees, hypercubes, and
some closely related networks. Organized into three chapters,
this book begins with an overview of the simplest architectures
of arrays and trees.
