

American History Alan Brinkley Study S

*The study of two great demagogues in American history--Huey P. Long, a first-term United States Senator from the red-clay, piney-woods country of nothern Louisiana; and Charles E. Coughlin, a Catholic priest from an industrial suburb near Detroit. Award-winning historian Alan Brinkely describes their modest origins and their parallel rise together in the early years of the Great Depression to become the two most successful leaders of national political dissidence of their era. *Winner of the American Book Award for History**

This concise, trade-like survey text is known for Alan Brinkley's clear narrative voice, impeccable scholarship, and reliability at a low price. New to this edition is increased coverage of the history of science and technology and popular and cultural history. Each chapter now includes a new and pedagogically useful summary conclusion. The annotated lists of Suggested Readings are now found at the end of each chapter to provide a more accessible resource for students. Also, every copy of the book will be shrinkwrapped with a free, handy study reference card!

Known for its balanced voice and approachable scholarship, Alan Brinkley's best-selling The Unfinished Nation offers a concise, yet thorough survey of American History appropriate for students at all levels. The 8th edition features new scholarship and updated discussions, most significantly on the topics of War, American Imperialism, and Globalization. Brinkley's accessible narrative is available as a digital SmartBook™, a personalized eBook that enhances understanding by asking students to demonstrate comprehension as they read. It is also supported by engaging digital tools, such as interactive maps, that encourage critical thinking and retention of key course concepts.

The American Journey

A Life in History

Looseleaf for The Unfinished Nation: A Concise History of the American People

Discusses the impact of Franklin Roosevelt, Robert Penn Warren, T. Harry Williams, Huey Long, Allard Lowenstein, and Oral Roberts upon American political culture

Highly respected for its impeccable scholarship and elegant writing style, Alan Brinkley's American History provides students and instructors with a reliable, comprehensive account of the American past in which no single approach or theme predominates. From its first edition, this text has included a scrupulous account of American political and diplomatic history. Today, the book explores areas of history such as social, cultural, urban, racial and ethnic history, the history of the West and South, environmental history, and American history in a global context. The twelfth edition of this text includes the McGraw-Hill's hit Primary Source Investigator (PSI) cd-rom, with hundreds of sources and a program that walks students through how to write a paper using those sources as evidence.

Collects essays contributed by historians describing thirty-one specific days which altered American history, including the Great Awakening of 1740, the Seneca Falls Convention, and San Francisco's "Human Be-in" gathering.

Holocaust And Genocide Issues In Education

American History

The Pain Of Knowledge

Highly-respected for its impeccable scholarship and elegant writing style, American History: A Survey provides students and instructors with a comprehensive account of the American past in which no single approach or theme predominates. From its first edition, this text has included a scrupulous account of American political and diplomatic history. Today, however, the book explores areas of history such as social, cultural, urban, racial and ethnic history, more history of the West and South, environmental history, and the history of women and gender. In addition, American history has not evolved in a vacuum, but as part of a larger global world. The eleventh edition of this text places American history into that global context, making connections for students who live in an ever-expanding world themselves.

Based on Bentley and Ziegler's best-selling, comprehensive survey program, Traditions & Encounters: A Brief Global History provides a streamlined account of the cultures and interactions that have shaped world history. A focus on the human experience helps frame the broad scope of world history into a clear and concise learning experience for students. Bentley's engaging narrative is available as a digital SmartBook™, a personalized eBook that enhances understanding by asking students to demonstrate comprehension as they read. It is also supported by engaging digital tools, such as interactive maps, that encourage critical thinking and retention of key course concepts.

This book brings together essays on Alan Brinkley's major works and ideas as well as personal reminiscences from leading historians and thinkers beyond the academy. They chronicle the life and thought of a working historian, the development of historical scholarship in our time, and the role that history plays in our public life.

The Brewer Technology and Learning Center presents a directory of Internet resources related to the study and teaching of American history in grades K-12. The directory includes resources featuring online exhibits, colonial records, lesson plans, and more, as well as information on such topics as the Civil War, the Revolutionary War, flappers, the Old West, and Native Americans.

Professor Brinkley looks at the time in American history when the idea of the American dream first emerged -- the Great Depression. To illustrate the variety of ways in which the American people have defined the dream, Brinkley discusses four interpretations of the Great Depression, described as persistence, empathy, rebellion, and community.

The American Century in Europe

The latest iteration of Alan Brinkley's American History, a comprehensive U.S. History program, transforms the learning experience through proven, adaptive technology helping students better grasp the issues of the past while providing instructors greater insight on student performance.

Known for its clear, single voice and balanced scholarship, Brinkley asks students to think historically about the many forces shaping and re-shaping our dynamic history. 0073513296

Inventing the Silent Majority in Western Europe and the United States examines the unprecedented mobilization and transformation of conservative movements on both sides of the Atlantic during a pivotal period in postwar history. Convinced that 'noisy minorities' had seized the agenda, conservatives in Western Europe and the United States began to project themselves under Nixon's popularized label of the 'silent majority'. The years between the early 1960s and the late 1970s witnessed the emergence of countless new political organizations that sought to defend the existing order against a perceived left-wing threat from the resurgence of a new, politically organized Christian right to the beginnings of a radicalized version of neoliberal economic policy. Bringing together new research by leading international scholars, this ground-breaking volume offers a unique framework for studying the phenomenon of conservative mobilization in a comparative and transnational perspective.

Scholarly engagement with the magazine form has, in the last two decades, produced a substantial amount of valuable research. Authored by leading academic authorities in the study of magazines, the chapters in The Routledge Handbook of Magazine Research not only create an architecture to organize and archive the developing field of magazine research, but also suggest new avenues of future investigation. Each of 33 chapters surveys the last 20 years of scholarship in its subject area, identifying the major research themes, theoretical developments and interpretive breakthroughs. Exploration of the digital challenges and opportunities which currently face the magazine world are woven throughout, offering readers a deeper understanding of the magazine form, as well as of the sociocultural realities it both mirrors and influences. The book includes six sections: -Methodologies and structures presents theories and models for magazine research in an evolving, global context. -Magazine publishing: the people and the work introduces the roles and practices of those involved in the editorial and business sides of magazine publishing. -Magazines as textual communication surveys the field of contemporary magazines across a range of theoretical perspectives, subjects, genre and format questions. -Magazines as visual communication explores cover design, photography, illustrations and interactivity. -Pedagogical and curricular perspectives offers insights on undergraduate and graduate teaching topics in magazine research. -The future of the magazine form speculates on the changing nature of magazine research via its environmental effects, audience, and transforming platforms.

Few American historians of his generation have had as much influence in both the academic and popular realms as Alan Brinkley. His debut work, the National Book Award-winning *Voices of Protest*, launched a storied career that considered the full spectrum of American political life. His books give serious and original treatments of populist dissent, the role of mass media, the struggles of liberalism and conservatism, and the powers and limits of the presidency. A longtime professor at Harvard University and Columbia University, Brinkley has shaped the field of U.S. history for generations of students through his textbooks and his mentorship of some of today's foremost historians. *Alan Brinkley: A Life in History* brings together essays on his major works and ideas, as well as personal reminiscences from leading historians and thinkers beyond the academy whom Brinkley collaborated with, befriended, and influenced. Among the luminaries in this volume are the critic Frank Rich, the journalists Jonathan Alter and Nicholas Lemann, the biographer A. Scott Berg, and the historians Eric Foner and Lizabeth Cohen. Together, the seventeen essays that form this book chronicle the life and thought of a working historian, the development of historical scholarship in our time, and the role that history plays in our public life. At a moment when Americans are pondering the plight of their democracy, this volume offers a timely overview of a consummate student—and teacher—of the American political tradition.

Study Guide with Map Exercises to Accompany American History: A Survey

A Survey Volume 1: to 1877

A fascinating chronicle of how the character of American society revealed itself under the duress of World War II The Second World War exists in the American historical imagination as a time of unity and optimism. In 1942, however, after a series of defeats in the Pacific and the European front, America seemed to be on the brink of defeat and was beginning to splinter from within. Exploring this precarious moment, Tracy Campbell paints a portrait of the deep social, economic, and political fault lines that pitted factions of citizens against each other in a nation mobilized, government-aided industrial infrastructure blossomed, and parents sent their sons off to war. This captivating look at how American society responded to the greatest stress experienced since the Civil War reveals the various ways, both good and bad, that their relationship with democracy in ways that continue to affect us today.

Brinkley's American History, a comprehensive U.S. History program, transforms the learning experience through proven, adaptive technology helping students better grasp the issues of the past while providing instructors greater insight on student performance. Known for its clear narrative voice and effective, Brinkley asks students to think historically about the many forces shaping and re-shaping our dynamic history. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

The notion of an American Century has fallen out of favor in recent years--historians prefer to focus on the United States as part of a transatlantic community. The contributors to this volume edited by R. Laurence Moore and Maurizio Vaudagna seek to understand how the ex ways shaped and limited by the historic ties of the United States to Europe. They evaluate the impact of the "American Century" (as publisher Henry R. Luce named it in 1941) from Woodrow Wilson's dream of a new world order, to Cold War economic policies, to more recent American-led globalization.The American Century in Europe gathers an international group of scholars who explore the ways twentieth-century American power (diplomatic, cultural, and economic) has been felt across the Atlantic. The authors demonstrate less by American hegemony than by reciprocal influence between the United States and Europe. The scale of American wealth certainly guaranteed influence abroad, but as the essays demonstrate, the American thirst for trade just as surely opened America's borders to cultures and ideas from around the world.

Highly respected for its impeccable scholarship and elegant writing style, Alan Brinkley's "American History" provides students and instructors with a reliable, comprehensive account of the American past in which no single approach or theme predominates. From its first edition, this text has included a scrupulous account of American political and diplomatic history. Today, the book explores areas of history such as social, cultural, urban, racial and ethnic history, the history of the West and South, environmental history, the history of women and gender, and American history in a global context. The twelfth edition of this text includes the McGraw-Hill's hit Primary Source Investigator (PSI) cd-rom, with hundreds of sources and a program that walks students through how to write a paper using those sources as evidence.

This book asks how the moral messages of the Holocaust can best be transmitted. It deals not with historical events, but with possible ways of learning about these events and their significance. The underlying purpose is to expose the reader to sometimes antithetical, and at other times complementary, views concerning the teaching of the subject.

Known for its clear narrative voice and impeccable scholarship, Alan Brinkley's best-selling program for the U.S. survey course invites students to think critically about the many forces that continually create the Unfinished Nation that is the United States. In a concise but wide-ranging narrative, Brinkley shows the diversity and complexity of the nation and our understanding of its history--one that continues to evolve both in the events of the present and in our reexamination of new evidence and perspectives on the past. This edition features a series of Patterns of Popular Culture essays, as well as expanded coverage of pre-Columbian America, new America in the World essays, and updated coverage of recent events and developments that demonstrates how a new generation continues to shape the American story. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.
