The experiment was conducted in  
a laboratory indoors. 1.

Construction of the pendulum.

We constructed the pendulum by  
attaching a inextensible string to  
a stand on one end and to a mass  
on the other end. The mass,  
string and stand were attached  
together with knots. We adjusted  
the knots so that the length of  
the pendulum was  
 $\pm 0.0005$  ...
