Area of Shaded Region - Circles, Rectangles, Triangles ...

And that area is going to be equivalent to the area of one circle with a radius of 3. So what's the area of a circle with radius 3? Well, the formula for area of a circle is πr^2 , or $r^2 \pi$. So the radius is 3. So it's going to be 3 times 3, which is 9, times π -- 9π . So we have 100 minus 9π is the area of the shaded region.

Area of a shaded region (video) | Geometry | Khan Academy
