The Quarterly Review of Distance Education is a rigorously refereed journal publishing articles, research briefs, reviews, and editorials dealing with the theories, research, and practices of distance education. The Quarterly Review publishes articles that utilize various methodologies that permit generalizable results which help guide the practice of the field of distance education in the public and private sectors. The Quarterly Review publishes full-length manuscripts as well as research briefs, editorials, reviews of programs and scholarly works, and columns. The Quarterly Review defines distance education

as institutionally-based formal education in which the learning group is separated and interactive technologies are used to unite the learning group.

Integrating current research with the experiences of people with cognitive disabilities, this volume examines how assistive and cognitive support technologies are being harnessed to provide assistance for thinking, remembering, and learning. The book vividly describes real-life situations in which cognitively impaired individuals use assistive supports and the advantages and limitations these individuals perceive from their use. It provides information on how cognitively impaired individuals and their families and caregivers can select the most appropriate technologies from a wide array of accommodations and resources, including individualized protocols of different forms of support to facilitate optimal functioning. The text offers practitioners a comprehensive and systematic process for ensuring their clients' effective application and utilization of this technology. This book will also provide insight for users of assistive technology and their families and caregivers to ensure optimal technology use. Key Features: Outlines an effective process for integrating assistive technologies into the activities and lifestyle of users with cognitive disabilities Explains how to match individuals with the most appropriate devices to enhance independent functioning Provides a detailed overview of neurological and physical characteristics of various cognitive disabilities present at birth or acquired through accident, illness, or aging Includes figures, checklists, assessment tools, and illustrations throughout the text for enhanced learning
