The C language is often described as a middle level language, because it combines the best features of high level languages with the control and flexibility of assembly language. Features of C languages: 1. 'C' is general purpose structured programming language. 2. 'C' is powerful, efficient, compact and flexible. 3. 'C' is highly portable. 4. 'C' is a robust language whose rich set of function and operators can be used to write any program. 5.
