" The Battle Rages Higher tells, for the first time, the story of the Fifteenth Kentucky Infantry, a hard-fighting Union regiment raised largely from Louisville and the Knob Creek valley Lincoln lived as a child. Although recruited in a slave state where Lincoln received only 0.9 percent of the 1860 presidential vote, the men of the Fifteenth Kentucky fought and died for three years, participating in all the battles of the Atlanta campaign, as well as the battles of Perryville, Stones River and Chickamauga. Using primary research, including soldiers' letters, hundreds of contemporary newspaper reports, official army records, and postwar memoirs, Kirk C. Jenkins vividly brings the Fifteenth Kentucky Infantry to life. The book also includes a biographical roster summarizing the service record of each soldier in the thousand-member unit. Kirk C. Jenkins, a descendant of the Fifteenth Kentucky's Captain Smith Bayne, is a law firm. Click here for Kirk Jenkins' website and more information about the 15th Kentucky Infantry.

Naráyana's best-seller gives its reader much more than "Friendly Advice." In one handy collection—closely related to the world-famous Pañcatantra or Five Discourses on Worldly Wisdom—animal fables are interwoven with human stories, all designed to instruct wayward princes. Tales of canny procuresses compete with those of cunning crows and tigers. An intruder is punished by his master, but the meddlesome monkey ends up with his testicles crushed. One prince manages to enjoy himself with a merchant's wife with her husband's consent, while another escapes paradise by a painted image. This volume also contains the compact version of King Vikrama's Adventures, thirty-two popular tales about a generous emperor, told by thirty-two students to the throne. Co-published by New York University Press and the JJC Foundation For more on this title and other titles in the Clay Sanskrit series, please visit <http://www.claysanskritlib.org>

L.A. Rebellion: Creating a New Black Cinema is the first book dedicated to the films and filmmakers of the L.A. Rebellion, a group of African, Caribbean, and African American independent film and video artists that formed at the University of California, Los Angeles, in the 1970s and 1980s. The group—including Charles Burnett, Julie Dash, Haile Gerima, Billy Woodberry, Jamaa Fanaka, and Zeinabu irene Davis—shared a desire to create alternatives to the dominant modes of narrative, style,

and practice in American cinema, works that reflected the full complexity of Black experiences. This landmark collection of essays and oral histories examines the creative output of the L.A. Rebellion, contextualizing the group's film practices and offering sustained analyses of the wide range of works, with particular attention to newly discovered films and lesser-known filmmakers. Based on extensive archival work and preservation, this collection includes a complete filmography of the movement, over 100 illustrations (most of which are previously unpublished), and a bibliography of primary and secondary materials. This is an indispensable sourcebook for scholars and enthusiasts, establishing the key role played by the L.A. Rebellion within the histories of cinema, Black visual culture, and postwar art in Los Angeles.

It is a troubling time to be a therapist. Despite decades of powerful evidence that psychotherapy works, and tremendous advances in both policy and technology making therapy available to more of those who need it, the number of people actually going to therapy is flat or even declining. While training to be a therapist continues to get more expensive, therapists' salaries aren't even keeping up with inflation. Saving Psychotherapy addresses some of the troubling realities behind these truths. There is strong data to suggest:- The field avoids claiming meaningful values, leaving clients uncertain about the kind of guidance and support - if any - they will receive- The modern training process for therapists rewards wealth much more than merit- Many therapists express an open hostility to science and knowledge, even when it supports our work- There is little accountability for therapists to ever prove that they know what they're doing- Therapists are generally uninvolved in public debate, freely giving up their roles as society's experts on mental health and positive changePsychotherapy deserves a brighter future than the one we're on track for. And the first step toward getting that brighter future is for individual therapists at all career levels to take personal responsibility for it. In this data-driven, unflinching, and relentlessly optimistic look at the state of psychotherapy today, you will learn simple steps any therapist can take to make your practice more reputable and successful -- while improving the health and reputation of the entire field.

Libya's Muammar Qaddafi is known to have "hit squads" in the major cities of Europe--trained assassins assigned to keep young Libyans in line and eliminate defectors. Despite being seriously threatened by pro-Qaddafi Arabs, an American couple vacationing in France attempts to help a young Libyan escape to the U.S. When Ben and Jo Caldwell develop a friendship with the young Libyan aircraft technician in Paris, they are warned that he could have possible connections with the notorious "Carlos group," entangling them in an international conflict. Other mysterious warnings send them to the Cote d'Azur, where Jo is kidnapped and held briefly as a hostage. Later, having reached the States with the Caldwells' help, their friend Ahmad is wounded by a Qaddafi death squad, prompting Ben to pursue the would-be assassin throughout Europe to a final confrontation at Cap d'Antibes. With settings in Europe, North Africa, and the U.S., the story incorporates humor, romance, and intrigue against a frightening backdrop of modern terrorism.

African American Theater is a vibrant and unique entity enriched by ancient Egyptian rituals, West African folklore, and European theatrical practices. A continuum of African folk traditions, it combines storytelling, mythology, rituals, music, song, and dance with ancestor worship from ancient times to the present. It afforded black artists a cultural gold mine to celebrate what it was like to be an African American in The New World. The A to Z of African American Theater celebrates nearly 200 years of black theater in the United States, identifying representative African American theater-producing organizations and chronicling their contributions to the field from its birth in 1816 to the present. This is done through a chronology, an introductory essay, a bibliography, and over 500 cross-referenced dictionary entries on actors, directors, playwrights, plays, theater producing organizations, themes, locations, and theater movements and awards.

While he was still in his twenties, Horace Tapscott gave up a successful career in Lionel Hampton's band and returned to his home in Los Angeles to found the Pan Afrikan Peoples Arkestra, a community arts group that focused on providing affordable, community-oriented jazz and jazz training. Over the course of almost forty years, the Arkestra, together with the related Union of God's Musicians and Artists Ascension (UGMAA) Foundation, were at the forefront of the vital community-based arts movements in black Los Angeles. Some three hundred artists—musicians, vocalists, poets, playwrights, painters, sculptors, and graphic artists—passed through these organizations, many ultimately remaining within the community and others moving on to achieve international fame. Based primarily on one hundred in-depth interviews with current and former participants, *The Dark Tree* is the first history of the important and largely overlooked community arts movement of African American Los Angeles. Brought to life by the passionate voices of the men and women who worked to make the arts integral to everyday community life, this engrossing book completes the account began in the highly acclaimed *Central Avenue Sounds*, which documented the secular music history of the first half of the twentieth century and which the *San Francisco Examiner* called "one of the best jazz books ever compiled."

This book traces the history of African American theatre from its beginnings to the present.
