"Challenging, inspiring and practical." Bear Grylls "I can't think of anyone more qualified to write about the significance of knowing your purpose than my friend Ken Costa... His new book, Know Your Why, is absolutely foundational to living a purpose-driven life." Rick Warren "Among the crush and the rush of life, there's no better guide in the pursuit of getting it right than my friend Ken Costa... I highly recommend Know Your Why, and am confident you will see more clearly and live more purposefully after absorbing the wisdom in its pages." Louie Giglio, Pastor, Passion City Church, Passion Conferences "This is an important and timely book. In a world of seemingly endless options, discerning the voice of God can be an increasingly difficult task. Ken draws on decades of experience to help Christians cut through the confusion and distractions and live lives in tune with their calling." Andy Stanley, Senior Pastor, North Point Ministries "There are few people on this planet that I find more fascinating than Ken Costa. His capacity for business is only outweighed by his affection for the local church; and he has beautifully modeled for our generation what it means to live out your calling and build the Kingdom." Brian Houston, Global Founder and Senior Pastor, Hillsong Church Are you working for cash, a career, a cause—or a calling? "Why do you do what you do?" People work for a variety of reasons. For many, the primary purpose of their work is cash. Their principal motivation is the paycheck that covers their everyday needs. Their work is a means to an end. Others are motivated by ambitions for a career, to move up the professional ladder and expand their experience, becoming more skilled in a particular area. Still others work for a cause, believing in the wider purpose of their work, attempting to make a difference in the world—to leave a mark in some way. These are legitimate motivations. However, missing from all three is any sense of the value of work itself. The focus is on the output of the workplace, rather than valuing the input. What we need is calling. Those who see their work as a calling find a rich integration in their lives. They sense a purpose, a direction to their activities. Work has intrinsic meaning, rather than simply a means to an end. In many ways this is precisely what the Spirit of God does in our lives. When we are in the

Spirit, we are cooperating fully in our God-given callings. When people embrace their callings, they love their work, cope with inevitable tensions that arise, and are welcomed by their colleagues, who sense that there is something beyond the mere objectives. But how do we get there? Know Your Why is written with one objective: to help you find your life's calling so you can be more satisfied, fulfilled, and happier at work. "You did not choose me, but I chose you and appointed you so that you might go and bear fruit—fruit that will last." —John 15:16 NIV

Submissive women have needs just like anybody else. But how can a woman get her needs met when she's relinquished her power to a dominant partner? With warmth, wisdom and a down-to-earth approach, experienced submissive Kacie Cunningham analyzes the reality of the dominant-submissive lifestyle and suggests ways in which both partners can experience the greatest possible growth and pleasure. The heart of the book is an emotion Kacie has dubbed "Conquer Me" -- which she defines as "the submissive's internal demand for a show of strength." Without a clear understanding of "conquer me," both submissive and dominant may find themselves at odds -- either fighting unhappily, or watching the passion ebb from their relationship. This book explains this unique need and how to get it met -- essential knowledge for any submissive or couple who wants to get the most out of their D/s lifestyle.

5 Steps to Fulfilling Work That Fuels Your Passion, Suits Your Personality, and Fills Your Pockets

Find a fulfilling career that tackles the world's most pressing problems, using this guide based on five years of research alongside academics at Oxford. You have about 80,000 hours in your career: 40 hours a week, 50 weeks a year, for 40 years. This means your choice of career is one of the most important decisions you'll ever make. Make the right choices, and you can help solve some of the world's most pressing problems, as well as have a more rewarding, interesting life. For such an important decision, however, there's surprisingly little good advice out there. Most career advice focuses on things like how to write a CV, and much of the rest is just (misleading) platitudes like "follow your passion". Most people we speak to don't even use career advice - they just speak to friends and try to figure it out for themselves. When it comes to helping others with your career the advice usually assumes you need to work as

a teacher, doctor, charity worker, and so on, even though these paths might not be a good fit for you, and were not what the highest-impact people in history did. This guide is based on five years of research conducted alongside academics at the University of Oxford. It aims to help you find a career you enjoy, you're good at, and that tackles the world's most pressing problems. It covers topics like: 1. What makes for a dream job, and why "follow your passion" can be misleading. 2. Why the most effective ways to make a difference aren't always the obvious ones like working at a charity, or becoming a doctor. 3. How to compare global problems, like climate change and education, in terms of their scale and urgency. 4. How to discover and develop your strengths. It's also full of practical tips and tools. You'll come away with a plan to use your 80,000 hours in a way that's fulfilling and high impact. What people are saying "Based on evidence and good sense, not platitudes" - Steven Pinker, New York Times bestselling author Johnstone Family Professor of Psychology at Harvard University. "This incredible group is helping people have a greater social impact with their careers." - Sue Desmond-Hellmann, CEO of the Bill and Melinda Gates Foundation. "Every college grad should read this" - Tim Urban, creator of Wait But Why. A blueprint for how parents can stop worrying about their children's future and start helping them prepare for it, from the cofounder and CEO of one of America's most innovative public-school networks "A treasure trove of deeply practical wisdom that accords with everything I know about how children thrive."—Angela Duckworth, *New York Times* bestselling author of *Grit* In

2003, Diane Tavenner cofounded the first school in what would become Summit Public Schools, which has since won national recognition for its exceptional outcomes: 99 percent of students are accepted to a four-year college, and its students graduate college at twice the national average. But in a radical departure from the environments created by the college admissions arms race, Summit students aren't focused on competing with their classmates for rankings or test scores. Instead, students spend their days solving real-world problems and developing the skills of self-direction, collaboration, and reflection, all of which prepare them to succeed in college, thrive in today's workplace, and lead a secure and fulfilled life. Through personal stories and hard-earned lessons from Summit's exceptional team of educators and diverse students, Tavenner shares the learning philosophies underlying the Summit model and offers a blueprint for any parent who wants to stop worrying about their children's future—and start helping them prepare for it. At a time when many students are struggling to regain educational and developmental ground lost to the disruptions of the pandemic, Prepared is more urgent and necessary than ever.

This is a book about how to take working life in new directions - how to negotiate the labyrinth of choices, how to think about personal ambitions and motivations, and ultimately how to take concrete steps to finding a fulfilling career. It is a self-help book with a difference. Standard career guides are filled with pop psychology and bullet-point advice for writing CVs and making action plans, but 'How to Find Fulfilling Work' casts its net wider. While not ignoring the insights of psychology or the need for practical planning, it reveals wisdom about work found in sociology, history, literature, film and philosophy. It may be a false illusion that there is some perfect dream job out there for us, an ideal calling or vocation. But this book is premised on the idea that it

is possible to find work that is life-enhancing.

Find life-enhancing work and realise your potential with this enlightening read Describes how to unleash the individuality and uniqueness that God has bestowed, revealing how to tap into the mysteries of our makeup and potential, which will lead to a path of purpose, freedom, confidence, and fulfillment.

A practical 12-week guide offering help and hope. Across the globe, millions of women are reaching their mid-forties without having had a child. Although some are child-free by choice, many others are childless by circumstance and are struggling in a life they didn't foresee. Most people think that women without children either 'couldn't' or 'didn't want to' be mothers. The truth is much more complex. Jody Day would have liked to have had children, but it didn't work out that way. At the age of forty-four she realized that her quest to be a mother was at an end. She presumed that she was through the toughest part, but over the next couple of years she was hit by waves of grief, despair and isolation. Eventually she found her way and created the Gateway Women Network, helping many thousands of women worldwide. In Living the Life Unexpected, Jody Day addresses the taboo of childlessness and provides a powerful, practical 12-week guide to help women come to terms with their grief, and to move on to live creative, happy, meaningful, and fulfilling lives without children. Previously titled Rocking the Life Unexpected, this inspiring and practical guide to a life without children has been extensively revised and updated, and includes significant additional content including extracts from the stories of 24 women and 2 men from around the world.

Know Your Why

Finding Fulfilling Work

Based on a program originally developed for young people seeking purpose and direction in their lives, Dr. John

Demartini's Inspired Destiny has deep meaning for readers of all ages. Whether you're a young adult or simply young at heart, it will awaken you to your inspired destiny. Do the simple exercises in each chapter and apply what you learn here, and you will come away from this book with an immense vision of yourself, understanding the real difference between being a leader or follower, and see how to set an example for others by doing what you love. You'll set in motion a far-reaching "ripple effect," beginning the journey of mastering and living a meaningful and inspiring life.

From bestselling writer David Graeber—"a master of opening up thought and stimulating debate" (Slate)—a powerful argument against the rise of meaningless, unfulfilling jobs...and their consequences. Does your job make a meaningful contribution to the world? In the spring of 2013, David Graeber asked this question in a playful, provocative essay titled "On the Phenomenon of Bullshit Jobs." It went viral. After one million online views in seventeen different languages, people all over the world are still debating the answer. There are hordes of people—HR consultants, communication coordinators, telemarketing researchers, corporate lawyers—whose jobs are useless, and, tragically, they know it. These people are caught in bullshit jobs. Graeber explores one of society's most vexing and deeply felt concerns, indicting among other villains a particular strain of finance capitalism that betrays ideals shared by thinkers ranging from Keynes to Lincoln. "Clever and charismatic" (The New Yorker), Bullshit Jobs gives individuals, corporations, and societies permission to undergo a shift in values, placing creative and caring work at the center of our culture. This book is for everyone who wants to turn their vocation back into an avocation and "a thought-provoking examination of our working lives" (Financial Times).

Based on his landmark research and teachings, Dr. John Demartini has discovered the key to fulfillment in all aspects of life. What is the most important step you can take to achieve the life you've always dreamed of? You might think the answer is something like, start saving money, get a better job, find my soul mate, or improve my marriage. Solutions like these might offer temporary satisfaction, but none of them can provide true, lasting fulfillment or help you achieve your unique purpose in life. The Values Factor shows you how to create a life in which every minute can be inspiring and fulfilling. The first step is to identify what you find most meaningful—the values in life that are most important to you. Once you understand your own unique values and align your life accordingly, you can achieve fulfillment in every aspect of your life: deepening your loving relationships, creating an inspiring career, establishing financial freedom, and tapping into a rich spiritual life. Dr. Demartini's provocative thirteen-part questionnaire will reveal to you what you value most. The answers may surprise you!

Then, each chapter of this book explains how to align every aspect of your life with your true values, so that you can finally achieve the success that you were capable of all along.

Are you a entrepreneur? Are you in a slump right now? Do you feel like you can never get ahead? Well you are in for a perfect treat. Create your OWN destiny my friend. Why does the story of Dorothy, the Scarecrow, the Tin Man, and the Cowardly Lion touch us? Like all great entertainment, their journey resonates. We see ourselves in the characters and likewise wish we possessed the power, the brains, the heart, and the courage to make our own dreams come true. So what are your dreams? What do you want? Is it a promotion? Improving a relationship? Rescuing a child? Finding a new job? Saving a marriage? Getting a degree? Finding the love of your life? Making a difference in your community? This book will help you get whatever you consider worthwhile in life. Simply put, when you unleash the power of personal accountability it will energize you in lifealtering ways, giving you a concrete boost that enhances your ability to think, to withstand adversity, to generate confidence, and to increase your own natural emotional, mental, and intellectual strength. Roger Connors and Tom Smith know this because they've seen it work in their own lives and witnessed it in the lives of some of the most successful and influential people in the world. The authors first introduced this powerful accountability philosophy in the New York Times bestseller *The Oz Principle*. Since then, millions have come to know them as "The Oz Guys" and they have gone on to help leaders all over the world teach and apply the principles you're about to learn. Principles that have generated billions of dollars of wealth—along with a host of even more important results. Devotees of *The Oz Principle* have brought lifesaving medications to market, created better education in community colleges, greatly surpassed charity fund-raising goals, and improved medical practices in battlefield hospitals. In *The Wisdom of Oz*, Connors and Smith present the practical and powerful principles of personal accountability in simple, down-to-earth terms that you can apply in your homes, schools, communities, churches, and volunteer groups. The

book will help you strengthen family relationships, improve friendships, motivate children, increase value on the job, improve health and financial well-being, or achieve whatever it is you most desire. Drawing on engaging stories about those who have overcome great odds—including South African president Nelson Mandela, Polish WWII hero Irena Sendler, and everyday men and women—Connors and Smith demonstrate that by taking personal ownership of your goals and accepting responsibility for your performance, you also take control of your success. You will read stories about people just like you who learned to beat their struggles, like the New York area fisherman who fell off his lobster boat and was adrift at sea for twelve hours in the chilly Atlantic . . . but survived. You will learn the traits that allowed a college senior who landed flat on her face in a 600-meter race to jump up and win. Or a thirteen-year-old soccer player who moved from the bench to the starting lineup. You will discover that while no one will ever wave a wizard's wand and magically solve all your problems, there is a way to experience the near magical impact of personal accountability.
