Community Medicine: Practical Manual - E-book

The present edition is revised, updated and expanded. New clinical photographs, diagrams, tables and fl owcharts have been added to make the subject clear. A unique feature of this edition is white board lectures and videos, depicting through animations, the surgical procedures.

The textbook aims to serve primarily all the undergraduate and postgraduate medical and dental students, as well as postgraduate students of nursing, public health, health administration and public administration.

Comprehensive Ophthalmology is the latest edition of this extensive guide to ophthalmology, which includes a free supplementary copy of Review of Ophthalmology. The main text has been thoroughly revised and updated, reorganised into six sections for ease of reference. These sections cover anatomy and physiology of the eye, optics and refraction, diseases of the eye, ocular therapeutics, systemic and community ophthalmology, and practical ophthalmology. The book is divided into 26 chapters, each beginning with a brief overview of the topic followed by relevant anatomy and physiology. The supplementary book Review of Ophthalmology is also thoroughly revised and updated with recent advances, new concepts and principles of investigation, treatment, and surgical procedures developed since the previous edition. The second half of the book provides multiple choice questions corresponding to each of the twenty review chapters. With over 600 full colour images and illustrations and the opportunity for self-assessment in the additional review book, Comprehensive Ophthalmology is an ideal resource for undergraduates, residents and practising ophthalmologists.

Key Points Fully revised and updated edition of this comprehensive guide to ophthalmology Previous edition published 2014 (9781848290723) Reorganised into six sections for ease of reference 611 full colour images and illustrations Includes supplementary book: Review of Ophthalmology, with MCQs

Diseases of Ear, Nose & Throat

Clinical Methods in Ophthalmology: Practical Manual for Undergraduates

A Short Book of Public Health

with Head & Neck Surgery

Text Book of Preventive and Social Medicine

Authored by an eminent, highly qualified and greatly experienced teacher and examiner in the discipline, this book is to empower UG students to prepare for examination (as a revision book). With retained comprehensiveness of the content and interesting presentation, the aim is to strengthen both the aspects - (i) undergo the examination successfully and (ii) understand the basics of the subject. - Covers complete MBBS syllabus of the subject through 29 chapters, dividing each chapter into 4 sections: o 3-6 Long Questions, duly solved in a simple and lucid manner. o 10-15 Short Questions, duly solved in a simple and lucid manner. o 10-15 Multiple Choice Questions, duly solved in a simple and lucid manner. o 10-15 True/False Questions, duly solved in a simple and lucid manner.

Addresses various aspects of practical examination, in the form of epidemiological exercises, biostatistical exercises, medico-social case taking procedure, and entomology. - Presents chapters on Epidemiology and Biostatistics in a very elaborate and simplified manner to enable students to understand the concepts well.

Reflecting author's experience as a teacher, guide and examiner this book is primarily for the MBBS students to face the practical examination and viva; however, it is also useful for the students pursuing MD/DNB (Community Medicine), MPH, DPH and other relevant disciplines. The book is designed with many figures and tables for easy understanding. Practical part of the book includes spotters with coloured figures, exercises with solutions and clinicosocial case with details of specific cases. Additionally, chapters such as dietary assessment, family study procedure, and health education are also included.

Answers. This book is provided with online content which includes additional practical and viva questions, answers to practice exercises, links to health programmes and useful websites, and images in community medicine. Topics such as OSCE/OSPE, food adulteration and tips for PowerPoint presentation are also included in the online content.

This book fulfills the unmet need of quick review question answer book and at the same time cover the entire syllabus of Community Medicine, spread over 30 chapters. Each chapter has 1 or 2 solved long questions, 8 to 10 solved short notes, viva voce and MCQs related to that chapter. These long / short questions cover the complete syllabus laid down for that chapter by Medical Council of India / reputed medical universities, thus giving the student adequate and complete knowledge of the subject, besides enabling them to effectively undertake a quick revision.

containing all essential details. In this new edition digital assets are also included.
