

Borderlands 2 Game Of The Year Edition Strategy

This book is part of the TREDITION CLASSICS series. The creators of this series are united by passion for literature and driven by the intention of making all public domain books available in printed format again - worldwide. At tredition we believe that a great book never goes out of style. Several mostly non-profit literature projects provide content to tredition. To support their good work, tredition donates a portion of the proceeds from each sold copy. As a reader of a TREDITION CLASSICS book, you support our mission to save many of the amazing works of world literature from oblivion.

The doctor’s going to be a mommy. When Dr. Nora Kendall meets handsome Officer Leo Franco at a wedding, sparks fly. After a wild night together, she discovers she’s pregnant. Recovering from a painful divorce, Nora dreams of a loving husband and a baby. But although Leo’s fascinated by the gorgeous doctor, he’s focused on earning a promotion to detective, not on starting a family. Nora’s willing to let Leo off the hook, until a crime at the counseling center where they both volunteer threatens her reputation and his promotion. They have to team up to investigate, but even with a baby-to-be claiming both their hearts, how long can this partnership last? Welcome to USA Today bestselling author Jacqueline Diamond’s Safe Harbor Medical romances. “Plenty of passion and a mystery to boot,” says Roundtablereviews of Officer Daddy. “This is a book to pick up even if you have not read the other books in the series. Be sure you have a few hours reading time because you might not want to put it down until you are done reading. I didn't.”–Michele Schram, We Really Dig Romance Novels As ruthless raiders, murderous hordes of goblins and orcs, and mysterious priests threaten the keep and the surrounding countryside, an inexperienced band of adventures journeys to the Caves of Chaos to stop the evil once and for all. Original.

A full-color, oversized, hardcover tome that faithfully adapts the original Japanese material, detailing the creation of the most recent entry in the Final Fantasy saga! Final Fantasy XV's world of Eos is filled with wondrous scenery, larger-than-life creatures, diverse cultures, and treacherous foes. Experience hundreds of pieces of detailed design work composed lovingly for fans of the unique sci-fi fantasy world. This volume collects complex lore, insightful commentary, comprehensive data, and dazzling concept art, all beautifully bound in this richly detailed hardcover! Square Enix and Dark Horse Books present a superbly curated collection of Final Fantasy XV content that any fan will cherish.

The shoot and loot FPS game has returned with a new entry, with more guns, more enemies, and more locations to explore. You play as one of four new Vault Hunters who get betrayed by Handsome Jack, the game's main antagonist, and are out for revenge for him leaving you for dead. Jack hired you to go after a new vault, but he tried to kill you because he doesn't want anyone going after the vault but himself. What is inside of this vault and why does Jack want it so bad? Read our comprehensive guide, which has been reworked from scratch and contains the following: - Detailed walkthrough of every story mission in the main game. - The location of every hard-to-find Skin and Head customization in the game. - How to acquire most weapons and other equipment. - Every type of enemy listed and strategies on how to kill them. - How to get every single Trophy/Achievement in the main game. - All Borderlands 2 DLC's covered.

Audisee@ eBooks with Audio combine professional narration and sentence highlighting to engage reluctant readers! Have you ever wondered what video games would be like if they never changed? The first games were little more than bouncing dots on a plain screen. Modern games include astonishing action, realistic environments, and epic story lines. Take a look at how video games have evolved over the years, and learn about the kinds of games we might be playing in the future.

Culture is dependent upon intertextuality to fuel the consumption and production of new media. The notion of intertextuality has gone through many iterations, but what remains constant is its stalwart application to bring to light what audiences value through the marriages of disparate ideology and references. Videogames, in particular, have a longstanding tradition of weaving texts together in multimedia formats that interact directly with players. Contemporary Research on Intertextuality in Video Games brings together game scholars to analyze the impact of video games through the lenses of transmediality, intermediality, hypertextuality, architextuality, and paratextuality. Unique in its endeavor, this publication discusses the vast web of interconnected texts that feed into digital games and their players. This book is essential reading for game theorists, designers, sociologists, and researchers in the fields of communication sciences, literature, and media studies.

Borderlands 2 - Strategy Guide

HCI in Games

This book deals with the 19th century Anglo-Russian Great Game played out on the territorial chessboard of eastern and north-eastern parts of the waning Persian empire. The Great Game itself has been written about extensively, but never from a Persian angle and from the point of view of the local players in that game. Looking at the territorial consequences of the Great Game for the local players is a unique approach, which deserves a special place in the studies of history, geography, politics and geopolitics of the age of modernity.

Roland, a former mercenary, becomes a guide and bodyguard to Zac Finn and his family on a dangerous planet in the Borderlands, and must protect them from aliens and bandits while Zac searches for alien treasure.

This book constitutes the refereed proceedings of the Second International Conference on HCI in Games, HCI-Games 2020, held in July 2020, as part of HCI International 2020 in Copenhagen, Denmark. HCII 2020 received a total of 6326 submissions, of which 1439 papers and 238 posters were accepted for publication after a careful reviewing process. The 38 papers presented in this volume are organized in topical sections named: designing games and gamified interactions; user engagement and game impact; and serious games. *The conference was held virtually due to the COVID-19 pandemic.*

Celebrating the iconic art of Borderlands - explore the world in styleThe Art of Borderlands 2 offers fans of the games a stunningly visual and in-depth look at the mysterious world of Pandora. This unique and dangerous world has captured the imaginations of millions of gamers, and here you can see it come to life on the page. Filled with hundreds of images, including close-ups of Pandora's environments, vehicles and one-of-a-kind weapons; you can also follow the creation of your favourite characters and creatures, from the first sketches to the finished product. Every section boasts extensive commentary by the artists and developers who brought the game to life, making The Art of Borderlands 2 a real collector's item for any fan of the series. Contemporary Research on Intertextuality in Video Games

Forty original contributions on games and gaming culture What does Pokémon Go tell us about globalization? What does Tetris teach us about rules? Is feminism boosted or bashed by Kim Kardashian: Hollywood? How does BioShock Infinite help us navigate world-building? From arcades to Atari, and phone apps to virtual reality headsets, video games have been at the epicenter of our ever-evolving technological reality. Unlike other media technologies, video games demand engagement like no other, which begs the question—what is the role that video games play in our lives, from our homes, to our phones, and on global culture writ large? How to Play Video Games brings together forty original essays from today’s leading scholars on video game culture, writing about the games they know best and what they mean in broader social and cultural contexts. Read about avatars in Grand Theft Auto V, or music in The Legend of Zelda: Ocarina of Time. See how Age of Empires taught a generation about postcolonialism, and how Borderlands exposes the seedy underbelly of capitalism. These essays suggest that understanding video games in a critical context provides a new way to engage in contemporary culture. They are a must read for fans and students of the medium.

A deep dive into the groundbreaking and bestselling video game series The critically acclaimed first-person shooter franchise Borderlands knows it’s ridiculous. It’s a badge of pride. After all, Borderlands 2 was promoted with the tagline “87 bazillion guns just got bazillionder.” These space-western games encourage you to shoot a lot of enemies and monsters, loot their corpses, and have a few chuckles while chasing down those bazillion guns. As Kaitlin Tremblay explores in Ain’t No Place for a Hero, the Borderlands video game series satirizes its own genre, exposing and addressing the ways first-person shooter video games have tended to exclude women, queer people, and people of colour, as well as contribute to a hostile playing environment. Tremblay also digs in to the way the Borderlands game franchise -- which has sold more than 26 million copies -- disrupts traditional notions of heroism, creating nuanced and compelling storytelling that highlights the strengths and possibilities of this relatively new narrative medium. The latest entry in the acclaimed Pop Classics series, Ain’t No Place for a Hero is a fascinating read for Borderlands devotees as well as the uninitiated.

Everyone already knows that. But the General of an army of Psycho Soldiers takes on this planetary hell headfirst, planning to enslave all of the Borderlands. And that General . . . is a Goddess. The General Goddess, Gynella, is a cunning maniac who uses the dark science of the vile Dr. Vialle to control a growing army of bandits and malcontents. Only four people stand in Gynella’s way. Roland. Mordecai. Brick. And . . . Daphne. Daphne? Better known as Kuller the Killer, she was once the galaxy’s most effective assassin for organized crime—until her forced retirement on this abandoned wasteland of a world. Roland is one of the toughest fighters in the Borderlands, and Mordecai is the best shot in four solar systems—all the two really want is to get to the Crystalisks, harvest some Eridium, get rich, and leave the planet for the nearest intergalactic party. But there are nightmarish creatures to deal with: Varkids and Skags and Threshers. Worse, Gynella is still in their way. Brick—a pile of walking muscle who lives to smash his enemies, could be their ally or their enemy . . . but you’d definitely rather have him on your side. As for Daphne Kuller? Don’t make her mad. Just . . . don’t. If you want to hear about the whole thing, take a ride on the bus to Fyrestone with Marcus. Because Marcus has a tale to tell you . . . an untold story of the Borderlands.

Complete, Unabridged Guide to Borderlands 2. Get the information you need--fast! This comprehensive guide offers a thorough view of key knowledge and detailed insight. It's all you need. Here's part of the content - you would like to know it all? Delve into this book today!..... : The mysterious Guardian Angel from the first game then contacts the player and explains that Handsome Jack must be killed, directing the player to rescue the four original vault hunters from Hyperion's clutches to accomplish this. ... The four player characters from the first game, Roland, Lilith, Brick, and Mordecai, all return in the form of NPCs that the new characters will encounter on Pandora, or in various missions. ... The character, who is named Gaige, a red-headed cyborg that can summon a D374-TP (Deathtrap - a hulking, floating machine made of scrap parts), is currently in concept stage and Randy Pitchford stated that they would begin to work on her some time after the main game is completed in a couple months. ... Following the unexpected success of the first Borderlands, which sold between three to four-and-a-half million copies since release, creative director Mike Neumann stated that there was a chance of a Borderlands 2 being created, adding that the decision seems like a no-brainer. There is absolutely nothing that isn't thoroughly covered in the book. It is straightforward, and does an excellent job of explaining all about Borderlands 2 in key topics and material. There is no reason to invest in any other materials to learn about Borderlands 2. You'll understand it all. Inside the Guide: Borderlands 2, Sonic Mayhem, Jesper Kyd, Gearbox Software, Borderlands (video game), 2K Games

An original novel set in the universe of the award-winning video game! The Borderlands cannot be conquered! Mordecai and Daphne have gotten themselves in a tough spot near the highly dangerous town of Gunsight, one of the most remote outposts on the planet Pandora, out in the boonies of the boonies of the Borderlands. Daphne has been taken prisoner by Jasper, a local warlord who controls the area around Gunsight . . . except for that other settlement, the former mining town Tumessa. There's some kind of big secret operation going on in Tumessa—another warlord, a particularly mutated Psycho named Reamus, is somehow making money. And he's been relentlessly raiding Gunsight and kidnapping Jasper's people. Jasper may be scum, but he needs those people for raids on other towns, so it all has to balance out. Mordecai needs to negotiate for Daphne's release, but now the only way he'll ever see her alive again is to kill his way into Tumessa, find out what's going on there, and report back to Jasper—only then will Mordecai get a paycheck and the girl. Mordecai doesn't want the job, but he is pretty devoted to Daphne . . . and somehow, he just might be able to turn this entire mess to his advantage. . .

Now in its eighth edition, Guinness World Records Gamer's Edition 2015 Ebook is the ultimate guide for videogame lovers, perfect for reading on smart devices on the go. Whether you're an avid fan of platformers, shooters, MMOs or racing games, there's something for everyone, including interviews with industry experts, handy in-game tips and, of course, hundreds of amazing new records. This book explores the efficacy of game-based learning to develop university students' skills and competencies. While writing on game-based learning has previously emphasised the use of games developed specifically for educational purposes, this book fills an important gap in the literature by focusing on commercial games such as World of Warcraft and Minecraft. Underpinned by robust empirical evidence, the author demonstrates that the current negative perception of video games is ill-informed, and in fact these games can be important tools to develop graduate skills related to employability. Speaking to very current concerns about the employability of higher education graduates and the skills that university is intended to develop, this book also explores the attitudes to game-based learning as expressed by instructors, students and game developers.
