What If God Designed Marriage to Make Us Holy More Than to Make Us Happy?

A transformative exploration of queer theology and the debate around same-sex marriage within the Church. Clare Herbert draws on her experience as a priest within the Church of England in a committed same-sex relationship and considers the questions that have shaped religious debate for many years. This book explores the concept of same-sex marriage in relation to the heteronormative definition of marriage, and its effect on past understandings of the sacrament. Interweaving stories from Christians struggling to reconcile their faith with their sexuality alongside wider queer theology and the theology of marriage, Herbert explores the unique understanding of God provided by the experience of committed same-sex love , and lays the groundwork for redefining the traditional definition of marriage. In this ground-breaking book, Dr. Cloud takes the reader step-by-step through the four basic tasks of becoming mature image bearers of God: Bonding to others - Separating from others - Sorting out good and bad in ourselves and others - Becoming an adult -- Dr. Cloud not only

explains and describes each task, he also identifies the problems that result when we fail to accomplish that task, and he shows us what changes to make in our lives in order to bring about healing.

The concept of boundaries has become a central theme in the study of journalism. In recent years, the decline of legacy news organizations and the rise of new interactive media tools have thrust such questions as "what is journalism" and "who is a journalist" into the limelight. Struggles over journalism are often struggles over boundaries. These symbolic contests for control over definition also mark a material struggle over resources. In short: boundaries have consequences. Yet there is a lack of conceptual cohesiveness in what scholars mean by the term "boundaries" or in how we should think about specific boundaries of journalism. This book addresses boundaries head-on by bringing together a global array of authors asking similar questions about boundaries and journalism from a diverse range of perspectives, methodologies, and theoretical backgrounds. *Boundaries of Journalism* assembles the most current research on this topic in one place, thus providing a touchstone for future research within communication, media and journalism studies on journalism and its boundaries.

"Most people today view marriage as a means of looking for love, happiness, and fulfillment. Make no mistake about it, those things are important. Those things are critical. They are just not the most

critical.” –Tony Evans *Marriage Matters* paints a picture of what it means to have a happy marriage—as God defines happiness. By examining the nature of the covenant and the purpose of marriage, Tony Evans gives steps to developing and maintaining a healthy relationship. In his approachable style, Dr. Evans explains the origins, order, and operation of marriage in its relation to Scripture. If the profound fruits of your marriage have turned into something mundane, or the validity of the covenant of marriage eludes you, then join Tony Evans in figuring out why *Marriage Matters*.

This book brings to life initiatives among scholars of the south and north to understand better the intelligences and pluralities of multilingualisms in southern communities and spaces of decoloniality. Chapters follow a *longue durée* perspective of human co-existence with communal presents, pasts, and futures; attachments to place; and insights into how multilingualisms emerge, circulate, and alter over time. Each chapter, informed by the authors' experiences living and working among southern communities, illustrates nuances in ideas of south and southern, tracing (dis-/inter-) connected discourses in vastly different geopolitical contexts. Authors reflect on the roots, routes and ecologies of

linguistic and epistemic heterogeneity while remembering the sociolinguistic knowledge and practices of those who have gone before. The book re-examines the appropriacy of how theories, policies, and methodologies 'for multilingual contexts' are transported across different settings and underscores the ethics of research practice and reversal of centre and periphery perspectives through careful listening and conversation.

Highlighting the potential of a southern sociolinguistics to articulate a new humanity and more ethical world in registers of care, hope, and love, this volume contributes to new directions in critical and decolonial studies of multilingualism, and to re-imagining sociolinguistics, cultural studies, and applied linguistics more broadly.

When to Say Yes, when to Say No to Help Your Children Gain Control of Their Lives

Sacred Marriage Participant's Guide

Having clear boundaries is essential to a healthy, balanced lifestyle. A boundary is a personal property line that marks those things for which we are responsible. In other words, boundaries define who we are and who we are not. Boundaries impact all areas of our lives: Physical boundaries help us determine who may touch us and under what circumstances -- Mental boundaries give us the freedom to have our own thoughts and opinions -- Emotional boundaries help us to deal

with our own emotions and disengage from the harmful, manipulative emotions of others -- Spiritual boundaries help us to distinguish God's will from our own and give us renewed awe for our Creator -- Often, Christians focus so much on being loving and unselfish that they forget their own limits and limitations. When confronted with their lack of boundaries, they ask: - Can I set limits and still be a loving person? - What are legitimate boundaries? - What if someone is upset or hurt by my boundaries? - How do I answer someone who wants my time, love, energy, or money? - Aren't boundaries selfish? - Why do I feel guilty or afraid when I consider setting boundaries? Dr. Henry Cloud and Dr. John Townsend offer biblically-based answers to these and other tough questions, showing us how to set healthy boundaries with our parents, spouses, children, friends, co-workers, and even ourselves.

Controlling national borders has once again become a key concern of contemporary states and a highly contentious issue in social and political life. But controlling borders is about much more than patrolling territorial boundaries at the edges of states: it now comprises a multitude of practices that take place at different levels,

some at the edges of states and some in the local contexts of everyday life - in workplaces, in hospitals, in schools - which, taken together, construct, reproduce and contest borders and the rights and obligations associated with belonging to a nation-state. This book is a systematic exploration of the practices and processes that now define state bordering and the role it plays in national and global governance. Based on original research, it goes well beyond traditional approaches to the study of migration and racism, showing how these processes affect all members of society, not just the marginalized others. The uncertainties arising from these processes mean that more and more people find themselves living in grey zones, excluded from any form of protection and often denied basic human rights.

*Lead small groups through astounding growth with principles from the best-selling books *How People Grow* and *Boundaries*. No matter what need brings a group of people together—from marriage enrichment to divorce recovery, from grief recovery to spiritual formation—members are part of a small group because they want to grow. This book by psychologists Henry Cloud and John Townsend provides small-group leaders with valuable guidance and information on how they can help their groups to grow spiritually, emotionally, and relationally. When groups embrace those elements, they find God's grace and forgiveness and learn how to handle their imperfections without shame as they model God's love and support to one another. In addition to describing what makes small groups work, *Leading Small Groups That Help People Grow* explains the roles and responsibilities of both leaders and group members. Employing tenets from the book *How People Grow*, this book equips leaders to understand the ins and outs of how to promote growth, and using principles from their best-selling book *Boundaries*, they show how to identify and find solutions for common problems such as boredom, noncompliance, passivity, aggression, narcissism, spiritualization, over-neediness, over-giving, and nonstop talking.*
