Bridging The Gap To University

"Bridging the Gap to University Mathematics is intended to do exactly what the title suggests. Gould and Hurst were, at the time of writing, both students and one gets the feeling that their desire is to tell prospective students what they themselves wish someone had told them before they embarked on their own mathematical journey at university...The book covers a broad range of topics...Well written and easy to read, it divides the material into twenty chapters, which are broken down into ...

Bridging the Age Gap is an NIHR funded study that aims to optimize the management of older women and reduce the age-gap in cancer outcomes between older and younger women with breast cancer. We are doing this by: Developing a predictive tool to tailor treatment options for older women according to breast cancer factors and their fitness/frailty. Developing a Decision Support Instrument (DESI) to assist older women making informed decisions about their preferred treatment.
