Installers of fire and smoke alarms, sprinklers and smoke and heat control systems. Inspectorate for certification and installation schemes. Those involved in emergency lighting. Standard Number. BS 9999:2017. Title. Fire safety in the design, management and use of buildings. Code of practice. Status.

BS 9999:2017 Fire safety in the design, management and use ...  
BS 9999 gives recommendations and guidance on the design, management and use of buildings to achieve reasonable standards of fire safety for all people in and around them. It also provides guidance on the on-going management of fire safety within a building throughout its entire life cycle, including guidance for designers to ensure that the overall design of a building assists and enhances the management of fire safety.

BS 9999:2017 - Tracked Changes Fire safety in the design ...  
Approved Document B (Fire Safety) provides guidance about how the building regulations can be satisfied in common building situations, but these are not always applicable to more complex, larger building. BS 9999 takes a more holistic view of fire safety, allowing for compensatory measures to offset, for example, travel distances or escape door widths.
