Building Regulations 4 Plans Construction Detail Drawings
Detail drawings provide a detailed description of the geometric form of a part of an object such as a building, bridge, tunnel, machine, plant, and so on. They tend to be large- scale drawings that show in detail parts that may be included in less detail on general arrangement drawings . Detail drawings may be used to demonstrate compliance with regulations and other requirements, to provide information about assembly and the junctions between components, to show construction details ...
