Este libro presenta un estudio sobre afrocolombianos intercalando innovadoras perspectivas te ó ricas sobre los negros libres en los asentamientos de Domingullo, Quinamay ó , San Antonio, Santa Mar í a, Arboleda y G é lima, con la rigurosa utilizaci ó n de las fuentes de archivos —Archivo General del Ecuador, Archivo General de la Rep ú blica de Colombia, Archivo de la Notar í a Única del municipio de Santander de Quilichao y el Instituto Geogr á fico Agust í n Codazzi— y con un significativo trabajo de campo a partir de la memoria de los mayores que a ú n viven en estos territorios. Con aguda e inteligente destreza anal í tica, Rigoberto Banguero da cuenta de la configuraci ó n de la construcci ó n de territorialidades desde los intereses de los libres y la reinveni ó n de una espacialidad en franca contradicci ó n con los hacendados esclavistas. A lo largo del libro se despliega la emergencia de los libres como sujetos sociales, as í como de una nueva identidad sociocultural. Las condiciones hist ó ricas, sociales, pol í ticas y simb ó licas dentro de las cuales se fue forjando la genealog í a de ese proceso, entre 1851-1930, constituyen el hilo conductor del an á lisis guiado por una muy definida metodolog í a que le permite armar el inmenso material consultado, logrando un texto de compleja y bien estructurada factura argumentativa, textual y te ó rica. Imbricaci ó n que se destaca como el punto m á s alto de esta investigaci ó n y en la cual reside el aporte de esta genealog í a de los negros libres en su proceso de re-existencia una vez alcanzada la libertad. Al valerse de la categor í a de libre epist é mico, el autor redimensiona la perspectiva interpretativa apuntalada por las fuentes documentales primarias, secundarias y etnogr á ficas consultadas que lo llevaron a la construcci ó n te ó rica de m ú ltiples identidades: libre so ñ ado, libre diasp ó rico, libre esclavizado, libre no propietario, libre propietario y libre campesino. Rei Cretariae Romanae Fautorum: Acta 46

En este librito, el lector que parta de cero en conocimiento agrícola encontrará no un texto sobre una ciencia y una práctica tan complejas, las más complejas al par de la Medicina, sino los conceptos básicos en los que se fundamenta tal ciencia y tal práctica: seres vivos, tierra, agua, aire... qué son variedades y razas y cómo hay que manejarlas, ¿tienen valor estratégico el agua dulce y la tierra laborable...?, ¿qué problemas del pasado vuelven a ser los del futuro...? Cuando lo termine, el lector podrá hablar con conocimiento de causa no sólo en la barra de un bar sino en los salones más selectos. Sandías y melones se cogen en árboles; los tomates no tienen genes; las plantas y animales que nos alimentan y visten han estado siempre ahí a nuestra disposición... Sesudos personajes afirman que parte de sus genes son de sus padres y parte “de ellos”... Esas y otras muchas cosas se oyen no sólo en la barra de un bar sino en los ambientes más selectos. Por otro lado, la palabra “agricultura” la esconden los políticos, y hasta la hacen desaparecer como hace poco en nuestro país, al darle nombre a los ministerios que justamente van a tratar de la agricultura. ¿Por qué esa ignorancia, por qué ese despegue cuando la Agricultura es la que nos da de comer, de beber y de vestir...? José Ignacio Cubero Salmerón es Profesor (emérito) de Genética y Mejora de Plantas y de Historia de la Agricultura de la Universidad de Córdoba (UCO). Doctor Ingeniero Agrónomo (1969) por la Universidad Politécnica de Madrid y Doctor en Biología (1973) por la Universidad Complutense (Madrid). Académico Correspondiente de la Real Academia de Ciencias Exactas, Físicas y Naturales y de la Real Academia de Córdoba. Director de la Escuela Técnica Superior de Ingenieros Agrónomos y de Montes, UCO (1987-1991). Director del Departamento de Genética (1974-1986 y 1995-2001). Presidente de la Sociedad Española de Genética (1999-2002). Presidente del Consejo de Administración del International Center for Agricultural Research in Dry Areas (1986-1989). Premio Nacional de Genética (2012). Presidente de diversos comités nacionales e internacionales. Director o codirector de 35 Tesis Doctorales. Autor o coautor de unas 430 publicaciones (libros, artículos científicos y de divulgación).

This expanded edition contains both of the very popular Lama Yeshe booklets, *Becoming Your Own Therapist* and *Make Your Mind an Ocean*. *Becoming Your Own Therapist* First published in 1998, this booklet contains three public talks by Lama Yeshe on the general topic of Buddhism. Each lecture is followed by a question and answer session. Lama and his audiences always enjoyed the give and take of these lively exchanges, and pretty much anything went. Although these talks were called lectures, Lama would have each of us use them as a mirror for our minds and look beyond the words, find ourselves, and become our own psychologist. *Make Your Mind an Ocean* The talks in this booklet are on the general topic of the mind. Two were lunchtime lectures at Melbourne and Latrobe Universities. One was an evening lecture given to the general public. Perhaps of greatest interest is the lecture entitled "A Buddhist Approach to Mental Illness." Lama presented this talk to a group of psychiatrists at Prince Henry's Hospital who were delighted to meet and question Lama, and this historic exchange underscores the difference between Western and Buddhist concepts of mental health.

INTERNATIONALLY BESTSELLING AUTHOR OF THE JAPANESE LOVER A captivating collection of short fiction by one of the most beloved writers of our time Eva Luna is a young woman whose powers as a storyteller bring her friendship and love. Lying in bed with her lover, European refugee and journalist Rolf Carlé, Eva answers his request for a story 'you have never told anyone before' with these twenty-three samples of her vibrant artistry. Interweaving the real and the magical, she explores love, vengeance, compassion and female power, depicting worlds that are at once poignantly

familiar and intriguingly new. Rendered in her sumptuously imagined, uniquely lyrical style, *The Stories of Eva Luna* is a cornerstone of Isabel Allende's work, and in her character Eva Luna she creates a modern-day Scheherazade. 'Eva Luna's stories are delicate, their images akin to poetry . . . Perfectly crafted and thematically rich' Barbara Kingsolver 'Vital and compelling' *The Times* 'Arresting and altogether distinctive, powerful and haunting; a collection to be read aloud and repeated for generations' *Los Angeles Times* 'Enchanting, magnificent. Absolute magic on every level' *Cosmopolitan*
It's the summer of 1962, middle of the Cold War, and the O'Brien family has moved off-grid to the Mojave Desert in Southern California. After all, the desert has to be a safer place to raise a family than the crime-ridden city, and there they can build a new future. But evil also stalks dusty desert roads, and eight-year-old Nonni finds herself harboring a terrible secret: Only she can identify the predator who has been terrorizing the community. And he knows where she lives.

Este libro hace un pormenorizado recorrido de los contactos bilaterales entre España y Vietnam desde la segunda mitad del siglo XVI hasta la actualidad. Utilizando Filipinas como base de lanzamiento, España fue un país occidental pionero en el establecimiento de vínculos comerciales, diplomáticos, religiosos, culturales y sociales con Vietnam. La primera parte de esta obra fija el marco histórico, geográfico y cultural de Vietnam. A continuación, se examina tanto la presencia española, institucional y ciudadana como la contribución económica y cultural que ha hecho en Vietnam. Se rescata del olvido un personaje, Pedro Ordóñez, cuyas crónicas no van a dejar en la indiferencia a los vietnamitas de hoy. La tercera parte aborda la presencia vietnamita en España con sus aportaciones a la mejora del nivel de vida de los españoles. Alfonso Ojeda ofrece la novedad de cruzar datos históricos facilitados por fuentes extranjeras (vietnamitas, francesas, portuguesas y británicas) con las españolas. El lector terminará concluyendo que los contactos hispanovietnamitas no son tan recientes ni tan superficiales como a simple vista aparentan.

The contributions gathered in this volume take a fresh look at the medieval history of women, revealing the many faces of female reality during an extremely dynamic period—while individuality was on the rise, new linguistic codes (vernacular languages) and innovative literary genres were emerging, and the political situation was undergoing deep changes. The book is structured in three interrelated sections: The first is dedicated to "Historical femininity" and documents the cultural and literary activities carried out by women from the nobility. The second is about "Authorial femininity" and explores the innovative work of both prominent and lesser-known female

writers. The last section deals with "Textual femininity" and analyses the female protagonists of lyric poetry and narrative literature. As a whole, the book shows how complex and diverse medieval discourses on and from women were.

This volume represents the first attempt to systematically compare organised crime concepts, as well as historical and contemporary patterns and control policies in thirteen European countries. These include seven 'old' EU Member States, two 'new' members, a candidate country, and three non-EU countries. Based on a standardised research protocol, thirty-three experts from different legal and social disciplines provide insight through detailed country reports. On this basis, the editors compare organised crime patterns and policies in Europe and assess EU initiatives against organised crime.

Christine Evans assesses the right to reparation for victims of armed conflict in international law and in national practice.

"Remarkable...Ekirch has emptied night's pockets, and laid the contents out before us." —Arthur Krystal, The New Yorker Bringing light to the shadows of history through a "rich weave of citation and archival evidence" (Publishers Weekly), scholar A. Roger Ekirch illuminates the aspects of life most often overlooked by other historians—those that unfold at night. In this "triumph of social history" (Mail on Sunday), Ekirch's "enthraling

anthropology" (Harper's) exposes the nightlife that spawned a distinct culture and a refuge from daily life. Fear of crime, of fire, and of the supernatural; the importance of moonlight; the increased incidence of sickness and death at night; evening gatherings to spin wool and stories; masqued balls; inns, taverns, and brothels; the strategies of thieves, assassins, and conspirators; the protective uses of incantations, meditations, and prayers; the nature of our predecessors' sleep and dreams—Ekirch reveals all these and more in his "monumental study" (The Nation) of sociocultural history, "maintaining throughout an infectious sense of wonder" (Booklist).

The Index involves a self-review of all aspects of a setting, drawing on additional help as needed. It encourages the involvement in inclusive development of all staff, volunteers, management committee/governors, children, young people and their parents/carers. Resources for, and barriers to, play, learning and participation are identified during the Index process. Actions to assist inclusion are prioritised, and a development plan is drawn up, implemented and reviewed. These changes are sustained in the setting as the process is repeated. Con ayuda de la historia y la arqueología subacuática, se intenta dilucidar el complejo significado de un barco con el propósito de sacar a la luz una gesta guardada en las hebras de

tinta de cientos de expedientes.

At Day's Close: Night in Times Past

Desde el umbral se mira el horizonte; y desde México puede atisbarse a lo lejos el acontecer de otras sociedades. De esa premisa, que acepta que el mundo es ancho pero no ajeno, parte Carlos Martínez Assad para examinar los encuentros y desencuentros entre Oriente y Occidente. A partir de la crítica a la visión orientalista, que se inventó un mundo árabe más cercano de la idealización romántica que de la realidad histórica, Cruzar el umbral al Medio Oriente ofrece una mirada a una pequeña región cuyas dimensiones no corresponden con lo grande de sus aportaciones. En sus páginas se ofrece un recorrido marcado por el testimonio de los grandes viajeros, por la simbiosis entre la lengua árabe y la religión islámica, y particularmente por las representaciones de los escritores de estos países, con sus formas de concebir propuestas culturales y sus posturas respecto a la compleja situación política de hoy. Galileo Galilei's *Sidereus Nuncius* is arguably the most dramatic scientific book ever published. It announced new and unexpected phenomena in the heavens, "unheard of through the ages," revealed by a mysterious new instrument. Galileo had ingeniously improved the rudimentary "spyglasses" that appeared in Europe in 1608, and in the autumn of 1609 he pointed his new instrument at the sky, revealing astonishing sights: mountains on the moon, fixed stars invisible to the naked eye, individual stars in the Milky Way, and four moons around the planet Jupiter. These discoveries changed the terms of the debate between geocentric and heliocentric cosmology and helped ensure the eventual acceptance of the Copernican planetary system. Albert Van Helden's beautifully rendered and eminently readable translation is based on the Venice 1610 edition's original Latin text. An introduction, conclusion, and copious notes place the book in its historical and intellectual context, and a new preface, written by Van Helden, highlights recent discoveries in the field, including the detection of a forged copy of *Sidereus Nuncius*, and new understandings about the political complexities of Galileo's work.

Acta 46 comprises 64 articles. Out of the 120 scheduled lectures and posters presented at the 31st Congress of the *Rei Cretariæ Romanæ Favtores*, 61 are included in the present volume, to which three further were added. Given the location of the conference in Romania it seems natural that there is a particular focus on the Balkans and Danube. Beyond the scope of the dispute settlement between the Philippines and China, the South China Sea arbitral award can be thought to significantly influence the development of international law and the law of the sea. Accordingly, this book seeks to examine the South China Sea arbitration from the perspective of the development of public international law and its limitations. Specifically it addresses the issues of jurisdiction of the Annex VII Arbitral Tribunal, the historic rights, the legal status of

maritime features, the lawfulness of various activities of China, and the role of the South China Sea arbitration in the international dispute settlement. In considering these issues, this book examines the South China Sea arbitration in three respects: (i) the clarification of relevant rules and obligations under the UN Convention on the Law of the Sea as well as international law, (ii) the protection of community interests at sea, and (iii) considerations of time elements in international law.

Este libro aborda el papel de la espiritualidad en la formación y consolación de los reinos ibéricos, especialmente en Castilla, Aragón y Portugal, y en menor grado, Navarra. Pone énfasis en factores comunes y sus peculiaridades diferenciales.

Metodológicamente, se basa en la historia comparada y la mirada interdisciplinar. Concede una atención preferente a tres cuestiones básicas: los territorios de frontera, concebidos como un espacio común, de encrucijada, en torno a instituciones monásticas o diocesanas; los argumentos propagandísticos de carácter religioso contra los extranjeros de los otros reinos o del occidente europeo, y la incidencia de la religiosidad y la devoción en la imagen del poder de las tres monarquías ibéricas más relevantes, durante la Edad Media.

Não tem dias em que tudo dá certo? E não tem dias em que parece que alguma força misteriosa conspira secretamente para atrapalhar cada um de nossos atos? Tem dias mágicos! E dias infernais! Tem dias em que acordamos dispostos, com a fé renovada, a inteligência afiada e produzimos com uma insaciável energia — e outros em que desistimos de começar. É o Efeito Lua.

Trends such as shifting dietary patterns and an increasingly sedentary lifestyle combined with smoking and alcohol consumption are major risk factors for noncommunicable chronic diseases such as obesity, diabetes, cardiovascular diseases such as hypertension and stroke, cancer, dental diseases and osteoporosis. This report reviews the scientific evidence on the effects of diet, nutrition and physical activity on chronic diseases and makes recommendations for public health policies and programmes. Issues considered include the macro-economic implications of public health on agriculture and the global supply and demand for fresh and processed foods.

Carl Schmitt's magnum opus, Constitutional Theory, was originally published in 1928 and has been in print in German ever since. This volume makes Schmitt's masterpiece of comparative constitutionalism available to English-language readers for the first time. Schmitt is considered by many to be one of the most original—and, because of his collaboration with the Nazi party, controversial—political thinkers of the twentieth century. In Constitutional Theory, Schmitt provides a highly distinctive and provocative interpretation of the Weimar Constitution. At the center of this interpretation lies his famous argument that the legitimacy of a constitution depends on a sovereign decision of the people. In addition to being subject to long-standing debate among legal and political theorists in Western Europe and the United States, this theory of constitution-making as decision has profoundly influenced constitutional theorists and designers in Asia, Latin America, and Eastern Europe. Constitutional Theory is a significant departure from Schmitt's more polemical Weimar-era works not just in terms of its moderate tone. Through a comparative history of constitutional government in Europe and the United States, Schmitt develops an understanding of liberal constitutionalism that makes room for a strong, independent state. This edition includes an introduction by Jeffrey Seitzer and Christopher Thornhill outlining the cultural, intellectual, and political contexts in which Schmitt wrote Constitutional Theory; they point out what is distinctive about the work, examine its reception in the postwar era, and consider its larger theoretical ramifications. This volume also contains extensive editorial notes and a translation of the Weimar Constitution.

Ahora más que nunca es necesario tanto plantear las preguntas adecuadas como evitar posibles respuestas basadas en ideas preconcebidas. Y ese es precisamente el objetivo de este libro, que intenta averiguar cuáles y cómo han sido los consensos básicos entre los españoles, cómo se han desarrollado los gobiernos que han guiado el país, de qué manera se han gestionado las crisis que se han sufrido o qué estrategias se han desplegado para cooperar o luchar, para integrar o separar poblaciones.
