Take a Moment was created to bring joy and healing to others through words and photos that have continued to be uplifting, inspiring, and meaningful to me during my cancer recovery and healing. My husband, after my surgery eleven years ago, would craft a daily message for me to keep me focused on my healing. Each consisted of a picture, a quote, and a short affirmative summary upon which I started my day. I created binders of all his creations so I could occasionally go through them, several at a time, to feel his love and his positive affirming words. I also thought that someday I would do something with them. They became my inspiration for Take a Moment. Knowing how much I benefited from these daily reflections, I knew that others would too. So if you are

A cancer diagnosis results, understandably, in fear and uncertainty. Once the initial shock passes, the questions begin. Some are medical in nature: What are your treatment options? Some are intensely personal: How do you tell your children? Will your hair grow back after chemo? How will the disease affect your sex life and relationships? In **Cancer: What I Wish I Had Known When I Was First Diagnosed**, ten-year breast cancer survivor Michele Ryan answers these questions and more. Michele's common sense advice and practical tips provide a comprehensive road map to help navigate the basic challenges of life with cancer. She covers everything from how to evaluate your health insurance to what to pack for hospital stays, all carefully laid out in an easy-to-navigate format so readers can find answers to specific questions quickly. **Cancer: What I Wish I Had Known When I Was First Diagnosed** helps prepare you for cancer treatment, providing the facts you need to make informed choices. You are not on this journey alone. Let Michele's sensible, thoughtful advice be your guide.

Best practice to shift your beliefs, retrain your thinking and uplift your energy. These positive affirmation statements support you at every level to unleash inner peace, freedom and success, personally and professionally. We believe that positive affirmations are an amazing tool which can transform your life beyond all recognition. They are so simple that anyone can use them, even a child, they are easy to learn how to use (there isn't even really a best way to use them), and even if you don't know what that are yet, you could be using them within 5 minutes, feeling positive, warm, and happy inside too! What is affirmation and why it is so powerful? Affirmation is simply a process of thinking, listening, saying or writing a statement to yourself or other people repeatedly. For example, when you wake up every morning, you may affirm by saying aloud "Today is a great day!" It will have great impact to the rest of your day. Trust me! Before I explain to you the power of affirmation, I think it's important that you understand the power of belief. Perhaps one of the great truths in life is that your belief creates your reality. In other words, your reality is generally a reflection of the beliefs of your subconscious mind. By the way, what is a belief? A belief is simply a thought that is accepted by your subconscious mind. Actually not all thoughts are turned into realities. Only thoughts that are believed by the subconscious mind are turned into realities. The reason why belief turns into reality is because of the universal and natural Law of Attraction. Don't forget to leave a review. Positive reviews for this book will be highly appreciated.
