

## ***Casanova Marinetti And The Art Of Seduction Escholarship***

Huelsenbeck's memoirs bring to life the concerns—intellectual, artistic, and political—of the individuals involved in the Dada movement and document the controversies within the movement and in response to it.

The "world of letters" has always seemed a matter more of metaphor than of global reality. In this book, Pascale Casanova shows us the state of world literature behind the stylistic refinements--a world of letters relatively independent from economic and political realms, and in which language systems, aesthetic orders, and genres struggle for dominance. Rejecting facile talk of globalization, with its suggestion of a happy literary "melting pot," Casanova exposes an emerging regime of inequality in the world of letters, where minor languages and literatures are subject to the invisible but implacable violence of their dominant counterparts. Inspired by the writings of Fernand Braudel and Pierre Bourdieu, this ambitious book develops the first systematic model for understanding the production, circulation, and valuing of literature worldwide. Casanova proposes a baseline from which we might measure the newness and modernity of the world of letters--the literary equivalent of the meridian at Greenwich. She argues for the importance of literary capital and its role in giving value and legitimacy to nations in their incessant struggle for international power. Within her overarching theory, Casanova locates three main periods in the genesis of world literature--Latin, French, and German--and closely examines three towering figures in the world republic of letters--Kafka, Joyce, and Faulkner. Her work provides a rich and surprising view of the political struggles of our modern world--one framed by sites of publication, circulation, translation, and efforts at literary annexation.

Martin Garrett explores the extraordinary history, art and architecture of Venice and the islands of the lagoon. Looking at the legacy of the city's Jewish, Greek, Slav and Armenian minorities, he recalls the exploits of such legendary figures as Casanova and Byron. He also assesses the successful struggle to preserve the city in the face of flood and corruption, and its important modern role as host of the Biennale and film festival. MARTIN GARRETT is the author of literary companions to Italy and Greece, and has written or edited a number of works on Renaissance and nineteenth-century writers, including Sidney, Byron and the Brownings

*The Encyclopedia of Italian Literary Studies is a two-volume reference book containing some 600 entries on all aspects of Italian literary culture. It includes analytical essays on authors and works, from the most important figures of Italian literature to little known authors and works that are influential to the field. The Encyclopedia is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics related to the overall subject of Italian literary studies. The Encyclopedia also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars.*

***Here is an inspiring, wide-ranging A-Z guide to one of the world's best-loved cuisines. Designed for cooks and consumers alike, The Oxford Companion to Italian Food covers all aspects of the history and culture of Italian gastronomy, from dishes, ingredients, and delicacies to cooking methods and implements, regional specialties, the universal appeal of Italian cuisine, influences from outside Italy, and much more. Following in the footsteps of princes and popes, vagabond artists and cunning peasants, austere scholars and generations of unknown, unremembered women who shaped pasta, moulded cheeses and lovingly tended their cooking pots, Gillian Riley celebrates a heritage of amazing richness and delight. She brings equal measures of enthusiasm and expertise to her***

**writing, and her entries read like mini-essays, laced with wit and gastronomical erudition, marked throughout by descriptive brilliance, and entirely free of the pompous tone that afflicts so much writing about food. The Companion is attentive to both tradition and innovation in Italian cooking, and covers an extraordinary range of information, from Anonimo Toscano, a medieval cookbook, to Bartolomeo Bimbi, a Florentine painter commissioned by Cosimo de Medici to paint portraits of vegetables, to Paglierina di Rifreddo, a young cheese made of unskimmed cows' milk, to zuppa inglese, a dessert invented by 19th century Neapolitan pastry chefs. Major topics receive extended treatment. The entry for Parmesan, for example, runs to more than 2,000 words and includes information on its remarkable nutritional value, the region where it is produced, the breed of cow used to produce it (the razza reggiana, or vacche rosse), the role of the cheese maker, the origin of its name, Molière's deathbed demand for it, its frequent and lustrous depiction in 16th and 17th century paintings, and the proper method of serving, where Riley admonishes: "One disdains the phallic peppermill, but must always appreciate the attentive grating, at the table, of parmesan over pasta or soup, as magical in its way as shavings of truffles." Such is the scope and flavor of The Oxford Companion to Italian Food. For anyone with a hunger to learn more about the history, culture and variety of Italian cuisine, The Oxford Companion to Italian Food offers endless satisfactions.**

*The third of three volumes devoted to the cultural history of the modernist magazine in Britain, North America, and Europe, this collection contains fifty-six original essays on the role of 'little magazines' and independent periodicals in Europe in the period 1880-1940. It demonstrates how these publications were instrumental in founding and advancing developments in European modernism and the avant-garde. Expert discussion of approaching 300 magazines, accompanied by an illuminating variety of cover images, from France, Italy, Germany, Spain and Portugal, Scandinavia, Central and Eastern Europe will significantly extend and strengthen the understanding of modernism and modernity. The chapters are organised into six main sections with contextual introductions specific to national, regional histories, and magazine cultures. Introductions and chapters combine to elucidate the part played by magazines in the broader formations associated with Symbolism, Expressionism, Futurism, Dada, Surrealism, and Constructivism in a period of fundamental social and geo-political change. Individual essays, situated in relation to metropolitan centres bring focussed attention to a range of celebrated and less well-known magazines, including Le Chat Noir, La Revue blanche, Le Festin d'Esopé, La Nouvelle Revue Française, La Revolution Surrealiste, Documents, De Stijl, Ultra, Lacerba, Energie Nouve, Klingen, Exlex, flamman, Der Blaue Reiter, Der Sturm, Der Dada, Ver Sacrum, Cabaret Voltaire, 391, ReD, Zenit, Ma, Contemporanul, Formisci, Zdroj, Lef, and Novy Lef. The magazines disclose a world where the material constraints of costs, internal rivalries, and anxieties over censorship ran alongside the excitement of new work, collaboration on a new manifesto and the birth of a new movement. This collection therefore confirms the value of magazine culture to the expanding field of modernist studies, providing a rich and hitherto under-examined resource which helps bring to life the dynamics out of which the modernist avant-garde evolved.*

Volume 10 examines how the innovative impulses that came from Italy were creatively merged with indigenous traditions and how many national variants of Futurism emerged from this fusion. Ten essays investigate various aspects of Italian Futurism and its links to Austria, Georgia, France, Hungary and Portugal and in fields such as Typography, Olfaction, Photography. Section 2 examines seven examples of caricatures and satires of Futurism in the contemporary press, followed by Section 3, reporting on the Archiv der Avantgarden (AdA) in Dresden. Section 4 communicates bibliographic details of 120 book publications on Futurism in the period 2017-2020, including exhibition catalogues, conference proceedings and editions.

Futurist Women broadens current debates on Futurism and literary studies by demonstrating the expanding global impact of women Futurist artists and writers in the period succeeding the First World War. This study initially focuses on the local: the making of the self in the work by the women who were affiliated with the journal L'Italia futurista during World War I in Florence. But then it broadens its field of inquiry to the global.

It compares the achievements of these women with those of key precursors and followers. It also conceives these women's work as an ongoing dialogue with contemporary political and scientific trends in Europe and North America, especially first wave feminism, eugenics, naturism and esotericism. Finally, it examines the vital importance and repercussions of these women's ideas in current debates on gender and the posthuman condition. This ground-breaking study will prove invaluable for all scholars and upper-level students of modern European literature, Futurism, and gender studies.
