

Cats By Breed Tica

Cat and man: a love story that began over 10.000 years ago and still continues today! The domestic cat is the most popular pet of the modern Western hemisphere. There are countless millions of cats that are adored by cat lovers all over the world - and constantly new breeds are added. The problem: because of the inconsistent registration of the clubs and breeders, some cats are listed differently or even not at all, which makes the exact overview difficult. This book offers cat lovers and interested readers for the first time a COMPLETE OVERVIEW OF ALL OFFICIALLY RECOGNIZED SPECIES OF THE WORLD! Get to know 136 four-legged personalities who can hardly wait to be discovered and painted by YOU! ATELIER KAYMAKS CREATIVE & STUDY BOOKS for young and old: good things to mold and made of gold!

Discusses the history, development, habits, and care of the Ocicat, a domestic cat breed known for its wild appearance and pleasant personality. Includes photo diagram and general facts about cats.

The numerous cat breeds are both varied and mysterious. Most have tails, some do not. Some have curled ears, some have huge ears. Some have long hair, some have short, and some have no hair at all. Some have hair, but it's really no more than a little peach fuzz. But there are more just than just physical differences between the breeds. Their personalities are just as vibrant, and each breed is not quite like the others. Some are chatty and friendly, others are aloof and circumspect. Some spend their days climbing door frames, others would rather lie about in the sun. These differences are fascinating to behold and helpful to all those interested in sharing their home with a cat. Found here are more than sixty of the most common breeds and hybrids from around the world.

Discusses the history, development, habits and care of Sphynx cats. Includes photo diagram and general facts about cats.

Our Cats and All about Them - Their Varieties, Habits, and Management and for Show, the Standard of Excellence and beauty - By Harrison Weir.Originally published in 1889 this rare book has long been considered a classic among cat books. It is now very hard to find in its first edition. Read Country Books have republished it, using the original text and illustrations as part of their History of the Cat series. The author spent over fifty years carefully researching the history, and observing the nature of the cat in preparation for writing this important work. He noted their habits, watched their ways and found lasting pleasure in their companionship. The book abounds with Harrison Weir's beautiful engravings of cat varieties and associated subjects. Two hundred and sixty pages contain many comprehensive chapters on the ways of the cat, its habits, instincts, peculiarities, usefulness, colours, markings, forms, etc. Other chapters deal with the folk and other lore, including superstitions and proverbs, both ancient and modern, connected with the cat. Of much interest to the serious cat enthusiast will be the notes and descriptions on the various varieties of cat: Long Haired Cats The Angora, The Persian Cat, The Russian Long Haired Cat, The Tortoiseshell Cat, Tabby Cats, The Abyssinian, White Cats, Black Cats, Manx Cats, and Various Others. Also included is information on breeding, mating, diseases, showing, points etc. This is a fascinating and well illustrated read for any cat lover or historian of the breeds, but also contains much information that is still useful and practical today. Many of the earliest cat books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. Read Country Books are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

As big as a telephone book, impressive graphic design in black and white, surprisingly unusual in appearance and content." Ortrun Wagner, Katzen-Echo 3/2020; Deutsche Edelkatze e.V. (Cat Echo; German noble cat registered association) Author to the title "As a long-time can opener and passionate cat fan, I took exceptional pleasure in working on this book, so much so that you may, I very much hope, see this clearly on every single page, in every sentence, and in every illustration. Although I have, as I think, a relatively large general knowledge - there was for me yet very much new from the world of pedigree cats and cats in general to discover, which gave me besides the great knowledge gain also entertaining moments. I wish the readers a lot of fun and amusing time with the manual. " -Nuesret Kaymak- Product description PAPERS Actually it quite anachronistic in the age of e-books and apps to publish printed coloring books - but we are now enthusiastic fans of easily affordable phonebook-sized activity books: be it the lush coloring book with its full-page, free-form illustrations and rudimentary information, or the PAPERS books - the slightly more sophisticated and more in-depth study books with lots of information. Both creative books are based on an amazingly simple, didactic basic concept: · Increase concentration and learning ability by coupling what is read and seen with physical movement. · Increase of the concentration ability by contemplative occupation · Effective relaxation through conscious renunciation of the otherwise omnipresent information noise. Thus it is not surprising that we permit it to the private reader and completely particularly educational facilities and charitable mechanisms expressly the cat motives from the painting book to copy and for arbitrary projects in the non-commercial framework to use. For example, to paint them, cut them out and use them for handicrafts. To create collages, picture wallpapers, posters and wrapping papers or to use them as templates for great iron-on motifs by thermal transfer printing on T-shirts, bags etc. There are no limits to your imagination. And that's the real point: away from passive screen staring to active do-it-yourself! With the positive side effect of learning something that stays in your memory for a long time. In any case, we have a lot of fun working on all these interesting PAPERS topics and hope that our readers will feel the same way and enjoy them! :-)

Cats

The only fully comprehensive guide to "all things feline," from the host of Cat Chat on Martha Stewart Living Radio. Finally, a definitive book that delivers many unknown facts about every aspect of caring for and sharing your life with a cat, ranging from proper nutrition and strange behavior to medical care and multi-cat households, to grooming and geriatrics. The Cat Bible explains the mysteries of feline behavior to owners who are devoted to their cats without being able to fully understand them. It offers straightforward solutions to the problems that cause people to give up their cats, many of which are preventable, including litter box avoidance, furniture scratching, and physical ailments. There are more than 90 million American households that count cats as family members, but they are a vastly underserved population, devoted to their kitties, yet bereft of all the public attention, programming, and print devoted to dogs. Now, bestselling author and investigative journalist Tracie Hotchner offers them The Cat Bible, with straightforward, fact-filled solutions to health and behavior problems, based on years of research into the real reasons behind these issues. In the same warm, straightforward style that attracts devoted listeners to her radio shows, Tracie tackles controversial topics such as the truth about commercial dry pet foods and their dangers, bringing readers the latest facts on every topic that affects a feline's well-being.

Cats have been domesticated since prehistoric times, perhaps for as long as 5,000 years. Throughout human history, they have been greatly valued as destroyers of vermin, as well as for their ornamental qualities. The domestic cat is related to lions, tigers, pumas and other wild cats and the similarity in looks and behaviour is immediately apparent. The Ultimate Guide to Cat Breeds has a lot of rich information about the most well known cat breeds in the world, such as Persian, Maine Coon, Siamese, Abyssinian, Russian Blue, Tonkinese, and Burmese. Cats, both wild and domestic, are presented in this beautiful full-color book featuring hundreds of facts about your favorite felines. It was probably the Ancient Egyptians, 5,000 years ago, who first recognized the value of cats - encouraging the animals into their homes and grain stores to keep rats and mice at bay. It did not take long for the rest of mankind to fall for the charms of the cat, and cats have been part of our lives almost continuously ever since. In addition to being quiet, clean and efficient hunters of vermin, cats have proved to be playful, intelligent and affectionate companions, too. The Ultimate Guide to Cat Breeds describes the origins and characteristics of the cat, its evolution from wild animal to perfect pet, and at the same time places it in its historical and cultural contexts. The book then goes on to provide valuable advice and guidance about all aspects of cat ownership and care, including choosing a cat and keeping it healthy. All major breeds recognized by the international cat fancies are featured, with information on temperament and special grooming requirements to help the would-be owner choose the ideal cat companion. The book is illustrated with over 400 color photographs. The Bengal is a domestic cat breed with exotic blood. Developed from the Asian Leopard Cat (Prionailurus bengalensis, formerly Felis benghalensis) and the domestic Felis catus, this breed can be as much as 1/8 Asian Leopard Cat. The Asian Leopard Cat (ALC) is found in India, eastward into China and down through the Malaysian Peninsula. ALCs were bred to Egyptian and Indian Maus, Burmese and Domestic shorthairs. As the breedings progressed, the offspring were bred back to the ALC. The first three generations of these cross breedings are considered Foundation Bengals. The fourth generation (those with an ALC as a great-great grandparent) is considered SBT (stud book tradition) and is eligible for competition in cat shows. 6 All male Foundation Bengals are sterile. The female hybrids are bred back to male domestic cats. Mrs. Jean Mill of Covina, California, first started breeding these cats in the early 1960s, but abandoned her first effort. She started again in the late 1970s with eight females, all first generation hybrids. Dr. Willard Centerwall, a pediatrician and geneticist at University of California at Davis, provided her with these eight females. With these cats and two domestic shorthaired males (one from Delhi, India), Mrs. Mill established the breed. It closely resembles the Asian Leopard Cat and has championship status in TICA and the ACFA as well as other international registries. TICA registration rules insist that all Bengals in the show ring be the products of at least three generations of Bengal to Bengal breedings.

After her capture at the hands of Grandmother and the Second Empire, Karigan G'ladheon is making halting progress towards recovery. Karigan takes on increasingly dangerous missions, haunted by the specter of her torturer, Nyssa, and sinking ever further into the mire of her recollections of the past and the losses she's sustained. Meanwhile, the forces of the Second Empire are moving on Sacordia and their primary target is a vulnerable garrison that guards a crucial mountain pass. Faced with new fatherhood and a country on the verge of war, King Zachary sends a contingent of soldiers and Green Riders to the pass--but his own recovery from the events of the north is not yet complete either. Reunited with her fellow Riders at the pass, Karigan takes on a leadership role, but quickly finds that the Riders are not as she last left them. As tension mounts and war draws ever closer to the heart of Sacordia, Karigan must discover what it truly means to be a Rider and a hero of the realm--and what sacrifices must be made to truly heal from her past.

The Chartreux Cat

Beautiful Cats

CHARTREUX is the French name for a short-haired, blue-gray cat which was brought from the Middle East during the Crusades. This cat was known in America at the turn of the century by the name MALTESE & these cats developed through into the contemporary breed known as the RUSSIAN BLUE. Chartreux cats, however, have kept the form of their ancestors of centuries past. The author provides a detailed & fascinating history of these cats & includes many descriptions of great naturalists of the 16th-18th centuries: Aldrovandi, Buffon, Pennant, Linnaeus, etc. & descriptions by famous authors such as Colette. A chapter on the first fascinating years of the Persian Cat in Europe is also presented. For the cat lover the book abounds with the details & guidance on selective breeding of the Chartreux. To completely illustrate the beauty of the breed, 81 full color photogravure quality illustrations of European & American Chartreux are included along with paintings & sketches. THE CHARTREUX CAT will appeal to all those interested in the history of cats. To order contact: J.M. Auerbach, 823 Debra Street, Livermore, CA 94550. (510) 455-9493.

Our Cats and All about Them - Their Varieties, Habits, and Management

The Complete Cat Book

During the height of the civil rights movement in 1963, Raymond Reed, a philosophy professor at the University of Alabama, experiences at first hand that freedom is more than just an abstract concept meant for scholarly discourse - for some, it is a matter of life and death. Struggling to abandon the idea of the white man's supposed superiority, Reed increasingly reflects on the trials and tribulations of his fellow Americans while trying to cope with the difficulties that his personal microcosm presents. He needs to juggle his roles as the divorced father of an eight-year-old girl, the academic who suddenly questions his ability to make sound professional decisions, and the man eager to embark on a relationship with an African-American activist. Each role tests his integrity and challenges his apathetic, cynical attitude toward life. As he becomes embroiled in the movement, circumstances force him to face up to the stark reality that holding his ground could prove fatal.

Explores our complex relationships with pets.

Domestic cats and their breeds is the focus of this book. The book is also about their history. It is also a compilation of other facts about cats and how different breeds differ in many ways including the way they interact with people. It is a general introduction about different breeds of cats, where they originated and when, which may help many people learn about their cats and about cats in general. It is not a work for experts on the subject. But even those who specialize in cats may be able to learn a few things from the book.

Presents the anatomy, breeds, behavior, habitats, and other aspects of domestic cats through text and photographs.
