**The Deluxe Encyclopedia of Piano Chords is a thorough analysis of chords and how to use them as applied to the piano keyboard. Virtually every conceivable chord in all inversions is shown in bass and treble clef notation as well as in keyboard graphics. This study does not only list chord types; it also explains how each type of chord is constructed. In addition, the text provides information on usage, scales, and rhythm patterns. This valuable volume will enable the keyboardist to effectively use and apply the full diversity of chord possibilities in creating interesting, personal, and colorful musical styles.**

**Musicians of all ages, who study any instrument, will delight in the challenge of this theory book that is artistic in design. Colors are assigned to different intervals; the student identifies the intervals, colors them as indicated, and thus creates an interesting geometric design. This is an excellent way to reinforce interval reading, which in turn increases reading skills. It takes some concentration, another plus!**
