The problem of mass blindness today stems largely from cataract which accounts for a total of 40 million cataract victims in the world – and it will worsen with the ageing population. Fortunately, this problem can be resolved with cost effective extracapsular cataract extraction (ECCE) and posterior chamber implantation (PCI). This book highlights how the use of ECCE and PCI can restore normal vision to cataract victims around the world. A successful approach is to establish training centres. The success of the International Intraocular Implant Training Centre (IIITC) in the Peoples' Republic of China is cited to show that implant surgery for cataracts can be successfully performed in communities in developing nations in Asia with appropriate training and supervision. The centre has since yielded excellent results with cost effective ECCE and PCI. The book challenges eye surgeons around the world to unite to address a global need to contain world cataract blindness. In this thorough investigation of Calvinist doctrine, John Leith defines the Reformer's teaching on Christian life in the context of his theology. He begins with a discussion of what it means to say that the purpose of Christian life is the glory of God. He then discusses Christian life in relation to four aspects of Calvinist thought: justification by faith alone; providence and predestination; history and the transhistorical church and society. Leith's concluding statement summarizes the importance of this book. "Calvin's doctrine of the Christian life represents a magnificent effort to give expression to what it means to have to do with the living God every moment of one's life. No interpretation of the sola gloria Dei ["only God's glory"] has been more vivid and dynamic than Calvin's. For this reason he speaks to the needs of this generation, which, at least until recently, has been more frequently concerned about the glory of humankind than that of God and which has fallen victim to many false gods and vicious ideologies. Yet if Calvinism is to render its full service to our day, it must be interpreted in the context of the shared faith of the total Christian community. On the basis of Calvin's own principles, no human statement of Christian faith can ever be final and must be continually reformed by the Christian community's apprehension of the word of God as revealed in Jesus Christ."

In 1996 the Federal Accounting Standards Advisory Board (FASAB) 1 enacted Standard Number 6, Accounting for Property, Plant, and Equipment (PP&E), the first government-wide initiative requiring federal agencies to report dollar amounts of deferred maintenance annually. The FASAB has identified four overall objectives in federal financial reporting: budgetary integrity, operating performance, stewardship, and systems and control. FASAB Standard Number 6, as amended, focuses on operating performance and stewardship. The FFC Standing Committee on Operations and Maintenance has prepared this report to identify potential issues that should be considered in any future amendments to the standard and to suggest approaches for resolving them. The committee's intent is to assist the CFO Council, federal agencies, the FASAB, and others as they consider how best to meet the objectives of federal financial reporting for facilities.
