The Art Journal

The journals of young George Washington were written at the beginning of his military career. The books give us a marvelous insight of the atmosphere in the pre-revolution period in America. Apart from that significant value, these accounts reveal interesting details about Washington's daily life, military duties, his political opinions and personal thoughts on current events. Contents: Journal of My Journey Over the Mountains While Surveying for Lord Thomas Fairfax, Baron of Cameron, in the Northern Neck of Virginia, Beyond the Blue Ridge, in 1747-8 Journal of Major George Washington: Sent by the Hon. Robert Dinwiddie to the Commandant of the French Forces in Ohio, in 1753-4

This comprehensive study by leading scholars in an important new field-the history of letters and letter writing-is essential reading for anyone interested in nineteenth-century American politics, history or literature. Because of its mass literacy, population mobility, and extensive postal system, nineteenth-century America is a crucial site for the exploration of letters and their meanings, whether they be written by presidents and statesmen, scientists and philosophers, novelists and poets, feminists and reformers, immigrants, Native Americans, or African Americans. This book breaks new ground by mapping the voluminous correspondence of these figures and other important American writers and thinkers. Rather than treating the letter as a spontaneous private document, the contributors understand it as a self-conscious artefact, circulating between friends and strangers and across multiple genres in ways that both make and break social ties.

Put a wealth of information about Newbery award winners and honor books (1922-2001) at your fingertips. You'll find detailed plot summaries, booktalks, updated information about the winning titles and authors, suggestions for read-alikes, and ideas for introducing the books to young readers.

The Journals of George Washington

Pendulum, L-Rod, Y-Rod

In 1967, Jim Harmon published the first edition of *The Great Radio Heroes* to great acclaim. Thirty-three years later comes an illustrated, corrected, revised and greatly expanded new edition... Once there was a time--and it was not so long ago--when radio listening, especially to the dramas, was one of the most important events in many a young person's life. People developed a love affair with the radio, and though the old times are now gone forever, the love affair continues. The heroes and settings of radio drama spurred the imagination to supply its own and much better images than visual media provided. There were no padded shoulders on the Lone Ranger, Superman flew with no jiggly trick photography, and the Martians whom Orson Welles helped attack the Earth were more convincing than anything the movies can provide. For those who have been under the thrall of radio's alluring call, your new host Jim Harmon provides reminiscences of the heyday of radio programming, with insights on such radio dramas as *I Love a Mystery*, *Gangbusters*, *The Shadow*, *Inner Sanctum*, *Batman and Robin*, *Superman*, *Tom Mix*, *The Lone Ranger*, *The Green Hornet*, *Adventures by Morse* and a couple of dozen more. Photographs, a bibliography, and an index are included to enhance the reader's journey into a past time when radio was the favorite pastime.

With more than one thousand entries, this illustrated guide to the myths, legends, and traditional lore of the British Isles covers the gamut, from stone circles to Arthurian legends to ancient heroes and monsters.

Featuring articles on fictional characters, plot summaries, composers and artists, literary and artistic movements, critical terms, and theory, this updated sixth edition contains over 660 new entries and hundreds of new biographies. This major new edition is an indispensable volume for students of English literature.

The "Gest" is the earliest major writing about Robin Hood — although it tells a tale very different from that found in most modern retellings. This version attempts to produce a more accurate text of the long-lost original; it also provides a modernized parallel. To this is added an extensive historical introduction, line-by-line commentary, vocabulary study, and a selection of other texts which clarify the context of the "Gest." Dedicated to Patricia Rosenberg.

The 1930s marked a turning point for the world. Scientific and technological revolutions, economic and social upheavals, and the outbreak of war changed the course of history. The 1930s also marked a turning point for Robinson Jeffers, both in his career as a poet and in his private life. The letters collected in this second volume of annotated correspondence document Jeffers' rising fame as a poet, his controversial response to the turmoil of his time, his struggles as a writer, the growth and maturation of his twin sons, and the network of friends and acquaintances that surrounded him. The letters also provide an intimate portrait of Jeffers' relationship to his wife Una—including a full account of the 1938 crisis at Mabel Dodge Luhan's home in Taos, New Mexico that nearly destroyed their marriage.

The Ultimate Guide to Dowsing

Twelve selected adventures of Robin Hood and his outlaw band who stole from the rich to give to the poor.

The literary career of Anna Seward (1742-1809) had many frustrations. Erasmus Darwin once printed her poetry under his own name. Horace Walpole accused her of having 'no imagination'. And despite her evident talents, she was unable to find a patron willing to support a woman. Yet her letters reveal the breadth of her interests and the strength of her literary criticism. In addition to writing to newspapers and magazines, she counted many eminent figures among her correspondents, including James Boswell (who begged for a lock of her hair) and the young Walter Scott. This six-volume selection of her letters, edited by the publisher Archibald Constable (1774-1827), first appeared in 1811. Volume 3 covers the years 1791-4. Ranging from simple but meticulous acknowledgements of praise for her poetry through to her wary opinions of the recent French Revolution, her letters show an unwavering devotion to both her literary criticism and the people closest to her.

Renaissance writer Laura Cereta (1469-1499) presents feminist issues in a predominantly male venue—the humanist autobiography in the form of personal letters. Cereta's works circulated widely in Italy during the early modern era, but her complete letters have never before been published in English. In her public lectures and essays, Cereta explores the history of women's contributions to the intellectual and political life of Europe. She argues against the slavery of women in marriage and for the rights of women to higher education, the same issues that have occupied feminist thinkers of later centuries. Yet these letters also furnish a detailed portrait of an early modern woman's private experience, for Cereta addressed many letters to a close circle of family and friends, discussing highly personal concerns such as her difficult relationships with her mother and her husband. Taken together, these letters are a testament both to an individual woman and to enduring feminist concerns.

Every Christmas, unwanted round robin letters, stuffed with news of young Chloe's nauseating excellence at - well - everything, the announcement of Janet's cousin's husband's friend's divorce, or the details of Terry's colonoscopy, accumulate on doormats. One day, Simon Hoggart decided to do something about it. He mercilessly presented the most eye-popping examples of such letters in his bestseller, The Cat that Could Open the Fridge, and followed it up with The Hamster that Loved Puccini, hoping he had put a stop to them. And yet the letters, booklets and photo-montages kept on coming. So here, to drive home his message, The Round Robin Letters brings together his two collections in an anthology that will have everyone choking with laughter on their Christmas pudding.
