Constructs Concepts
Variables Research Questions
Etymologically speaking, a
variable is a quantity that can
vary (e.g., from low to high,
negative to positive, etc.), in

Access PDF Constructs

Concepts Variables Research

Questions

contrast to constants that do not vary (i.e., remain constant). However, in scientific research, a variable is a measurable representation of an abstract construct. As abstract entities, constructs

Access PDF Constructs Concepts Variables Research Questions

are not directly measurable,
and hence, we look for proxy
measures called variables.
