Hoping to rediscover his deeper purpose, Rijumati, an English Buddhist teacher and businessman, embarked on a journey into the unknown: a round-the-world trip by land and sea that became a kind of pilgrimage. Months - and many crises - later he returned with new reverence for ordinary people and places, a sense of veneration for nature's wonders and a profound gratitude for being human. Part travel diary and part record of a spiritual journey, these pages evoke the sacred, remote places encountered in the outer world alongside the 'inner terrain' that unfolded along the way. If you have ever felt the call of the open road, longed to travel as a form of self-discovery, or just wanted to know how to stay sane whilst getting a visa stamp in Kazakhstan, then Pilgrimage to Anywhere is for you.

This text is a compilation of articles on different aspects of Spanish grammar in the areas of current theoretical syntax and semantics. Topics covered include: the syntax and semantics of clitics and clitic doubling; the structure of noun phrases, with special attention to adjectives; the position of subjects; tense and causation.

The approaches fall within generative grammar, broadly understood, with some contributions cast in the perspective of the minimalist program. Thus, the book attempts to offer a balanced picture of state of the art research in these areas.

This study of a northern Spanish community shows how the residents of Santa MarÁa del Monte have acted together at critical times to ensure the survival of their traditional forms of social organization. The survival of these forms has allowed the villagers, in turn, to weather demographic, political, and economic crises over the centuries. Originally published in 1991. From being a dirt farmer in South America to the heights of California Society, from a promiscuous lifestyle to the peace of Christian life, this is the story of the first thirty-four years of my life. While some sought money, fame, or education, or some other goal, I sought the experience of life, and to the best of my ability, I was a seeker of the Supreme Power in that experience. This story is factual according to the perceptions Ive encountered and remembered. In a phrase, my father, Howard Orville Caldwell, lived the Grapes of Wrath. He was born in Oklahoma, and during the Great Depression, when his fathers job at the local zinc smelter ended, the family moved to South California: Grandpa, Grandma and the three children.

That was in the thirties. Dad grew up, went to school, and worked in South California when Los Angeles had only a few hundred thousand people. There was a definite division between rich and poor. Marlon Brando, then Bud Brando, was in the same public speaking class as my father in junior high school. Marlon was one of the rich, Dad was of the poor. This story begins there.

The news media was driving everyone crazy. It started with Y2K, then the Bush/Gore presidential election controversy, the Clinton pardons, the September 11th attacks, and the anthrax letters. Wars subsequently ensued against Afghanistan, the Taliban, Al Qaeda, and Iraq, but not without fierce exchanges with the United Nations. Sex and financial scandals erupted involving the Catholic Church and Wall Street. Massive layoffs, soaring debt and skyrocketing college tuition added to these. The media never missed a beat. Was there no escaping them? The Nation's Capitol in commemorating last years September 11th attacks, was also preparing for an upcoming mayoral election. The current incumbent was expected to breeze toward reelection, but what followed seemed like a page out of William Shakespeare's Comedy of Errors. This prompted a virtual

unknown to launch a comedy contest to provide some comic relief for the city from this onslaught of negative news. Only four contestants remained to compete for the prize money. However, only Archie Harris, one of the four finalists showed up at the finale. More bad news? What will happen now? *In this richly detailed study, Kamala Nayar documents the social and cultural transformation of the Punjabi community in British Columbia. From their initial settlement in the rural Skeena region to the communities that later developed in larger urban centres, **The Punjabis in British Columbia** illustrates the complex and diverse experiences of an immigrant community that merits greater attention. Exploring themes of gender, employment, rural and urban migrant life, and the relationships between the Punjabis and surrounding First Nations and other immigrant groups, Nayar creates a portrait of a community in transition. Shedding light on the ways*

in which economic circumstances affect immigrant communities, Nayar presents findings from interviews conducted with over one hundred participants. She details the relocation of Punjabi populations from the Skeena region to British Columbia's lower mainland during the decline of the forestry and fishery industries, how their second migration changed their professional and personal lives, and how their history continues to shape the identities and experiences of Punjabis in Canada today. A nuanced look at the complexities of social and cultural adaptation, The Punjabis in British Columbia adds an essential perspective to what it means to be Canadian.
