face the coming disruptions and thrive--without fearing the future or retreating into denial. In this book you will find solid facts and grounded reasoning presented in a calm, positive, non-partisan manner. Our money system places impossible demands upon a finite world. Exponentially rising levels of debt, based on assumptions of future economic growth to fund repayment, will shudder to a halt and then reverse. Unfortunately, our financial system does not operate in reverse. The consequences of massive deleveraging will be

severe. Oil is essential for economic growth. The reality of dwindling oil supplies is now internationally recognized, yet virtually no developed nations have a Plan B. The economic risks to individuals, companies, and countries are varied and enormous. Best-case, living standards will drop steadily worldwide. Worst-case, systemic financial crises will toss the world into jarring chaos. This book is written for those who are motivated to learn about the root causes of our predicaments, protect themselves and their families,

mitigate risks as much as possible, and control what effects they can. With challenge comes opportunity, and The Crash Course offers a positive vision for how to reshape our lives to be more balanced, resilient, and sustainable.

Teresa de la Parra

The Gilded Age

Toussaint L'Ouverture was the leader of the Haitian Revolution in the late eighteenth century, in which slaves rebelled against their masters and

established the first black republic. In this collection of his writings and speeches, former Haitian politician Jean-Bertrand Aristide demonstrates L'Ouverture's profound contribution to the struggle for equality.

This book is the first comprehensive study of Teresa de la Parra for English-speaking readers. The volume includes a biographical chapter and analyses of de la Parra's two novels, *Iphigenia: the diary of a young lady who wrote because she was bored* and *Mama Blanca's Memoirs*. An annotated version of the *Three Colombian Lectures: Women's Influence in the Formation of the American Soul* reveals the importance of Latin American women's contributions in Latin American history and speaks to gender issues sparked by critical reactions to *Iphigenia*. Translations of de la Parra's selected letters, short stories,

and entries from the "Bellevue-Fuenfria-Madrid Diary" provide a more complete picture of the writer and help tie her works to her life. The book reviews literary criticism on de la Parra, providing an overview of what Venezuelan, Latin American and American critics and biographers have to say about the author and her works. De la Parra bridged the gap between Venezuelan and European traditions, and this book examines the author's contribution to Venezuelan and Latin American literary traditions while showcasing her as a model of Latin American women's writing whose influence is being rediscovered and reevaluated.

It's a sad truth that math has the reputation of being "difficult." Part of the problem is that many of us simply don't speak the language. To a mathematician, an equation is a compact, efficient way to put across a relationship that would be far less

comprehensible in words. But to many of us, the merest sign of an x, y, or symbol is an impenetrable mess that our eyes bounce off. This book provides an engaging overview of what math is and what it can do, without having to solve simultaneous equations or prove geometric theorems, far more of us might get the point of it. It is divided into four chapters, each covering a major developmental route in the topic, from Arithmetic & Numbers to Geometry and from Algebra & Calculus to Applied Mathematics. History standards are followed in all questions asked helping students tap into level 3 and 4 DOK (Depth of Knowledge) thinking skills surrounding events that have occurred throughout world history. Any student of world history wishing to pass both a high school AP world history class or a college level world history course would find this workbook useful. Crash Course World History II differs from Crash Course World History I as it focuses on the thematic relationship between events in world history throughout time. This book can be used in

concordance with both high school and college world history classes in order to improve test scores, content understanding, and essay structure in writing.

Draws on contemporary sources and first-hand accounts to reconstruct the history of the route through the personal experiences of these characters.

In *Revolutionary Iran*, Michael Axworthy guides us through recent Iranian history from shortly before the 1979 Islamic revolution through the summer of 2009, when Iranians poured into the streets of Tehran by

the hundreds of thousands, demanding free, democratic government. Axworthy explains how that outpouring of support for an end to tyranny in Iran paused and then moved on to other areas in the region like Egypt and Libya, leaving Iran's leadership unchanged. The Iranian Revolution of 1979 was a defining moment of the modern era. Its success unleashed a wave of Islamist fervor across the Middle East and signaled a sharp decline in the appeal of Western ideologies in the Islamic world. Axworthy takes readers through the major periods in

Iranian history over the last thirty years: the overthrow of the old regime and the creation of the new one; the Iran-Iraq war; the reconstruction era following the war; the reformist wave led by Mohammed Khatami; and the present day, in which reactionaries have re-established control.

Throughout, he emphasizes that the Iranian revolution was centrally important in modern history because it provided the world with a clear model of development that was not rooted in Western ideologies. Whereas the world's major revolutions of the previous two

centuries had been fuelled by Western, secular ideologies, the Iranian Revolution drew its inspiration from Islam.

Revolutionary Iran is both richly textured and from one of the leading authorities on the region; combining an expansive scope with the most accessible and definitive account of this epoch in all its humanity.
