The engine turns over, but you can always hear the buzzing of the fuel pump, and now it is not making any noise. He called Southwest International, and they had him check the fuse, and it was good, and said it could be relay, but he's not mechanical, and can't figure out what the relay is. He's not very mechanical.

Where is the fuel pump relay on a 2005 cummins isx 450 HP

The new '09 model trucks we have a work will NOT start with that not running. if it's an older ISX, the relay and fuse for the transfer pump are right above the starter on the side of the block. If it's a almost new ISX (non-scr motor, I haven't seen one yet) then the fuse for the pump is right above the air compressor in the factory harness with a fuse cover.
