

Cut And Fold Paper Spaceships

An exciting interactive series of activity books for kids aged eight-12 providing hours of reading and practical fun. This book contains instructions for making 12 different types of flying craft, plus a further six pre-printed colourful designs which kids can simply cut out, fold and fly. The book also explains how planes fly and provides tips on the art of flying paper planes. The activities in this book should keep kids absorbed for hours.

A collection of easy-to-fold paper airplane designs and innovative theories of flight, including the author's Guinness World Record-breaking airplane. Will YOU be the next to break the WORLD RECORD? Anything is possible with The New World Champion Paper Airplane Book, the newest collection of designs and theories of flight from John M. Collins, the man behind the Guinness World Record-breaking distance plane. Featuring twenty-two unique airplane designs with step-by-step instructional photos, plus tear-out models printed on regulation-weight paper stock, this entertaining and informative guide promises hours of flying fun. Take your paper airplane-making to the next level with features such as:

- Instructions for folding "Suzanne," the plane that shattered the previous world record by flying an unprecedented 226 feet, 10 inches, and garnered more than three million views on YouTube
- Four "Follow Foil" aircraft that can stay aloft for minutes at a time
- A pioneering cambered-wing plane
- A primer on flight theory, and how it applies to paper airplanes
- Tips for improving the accuracy and distance of your throws
- The adjusting technique that helped break the record
- And more!

Star Wars Kirigami

Celebrated paper artist and designer Marc Hagan-Guirey has applied his genius to the Star Wars galaxy in this book of 15 unique kirigami (cut-and-fold) ships featured in the saga's films. Ranging in difficulty from beginner to expert, each beautifully detailed model features step-by-step instructions and a template printed on cardstock—all that's needed are a utility knife, a cutting mat, and a ruler. Clear tips and guidance through the tricky stages help readers craft their own X-wing, Imperial Star Destroyer, Millennium Falcon, and a dozen more ships and vehicles, each accompanied by colorful and inspiring photographs of the final model on display (or ready for a jump to Hyperspace).
