Welcome to Datsun Spares. Datsun Spares was born from the need to source new old stock, quality reproduction and used spare parts in an effort to restore my 1964 Datsun N320. I rapidly figured out that NOS parts were rare as hens' teeth and some of the existing reproduction spare parts were not particularly good quality. Having restored many cars in my life I set out to get the spare parts I could not source from existing suppliers re-manufactured to the best quality obtainable.
