

## Deliver Us From Evil Enhanced Edition Shaw And Katie James Book 2

Spiritual affliction, oppression and torment are manifestly evil and an unwelcome reality suffered by Christians and non-Christians alike. This book is developed for those who desire to understand the biblical principles underpinning deliverance, with specific relevance and application to the context of the Gospel. It explore the role of evil in creating victims of spiritual conflicts, while addressing the art of locating with the view to engaging and dislocating the works of evil; in accordance with the mandate of the Gospel of the LORD Jesus Christ.

Catholicism has grown from a suppressed and persecuted outsiders' religion in the American colonies to become the nation's single largest denomination. James Fisher surveys more than four centuries of Catholics' involvement in American history, starting his narrative with one of the first Spanish expeditions to Florida, in 1528. He follows the transformation of Catholicism into one of America's most culturally and ethnically diverse religions, including the English Catholics' early settlement in Maryland, the Spanish missions to the Native Americans, the Irish and German poor who came in search of work and farmland, the proliferation of Polish and Italian communities, and the growing influx of Catholics from Latin America. The book discusses Catholic involvement in politics and conflict, from New York's Tammany Hall to the Vietnam War and abortion. Fisher highlights the critical role of women in American Catholicism—from St. Elizabeth Seton and Dorothy Day to Mother Cabrini, the first American citizen to be canonized a saint—and describes the influence of prominent American Catholics such as Cardinal John J. O'Connor, 1930s radio personality Father Charles Coughlin, President John F. Kennedy, pacifists Daniel and Philip Berrigan, activist Cesar Chavez, and author Flannery O'Connor. For this new edition, Fisher has brought the story up to date, including the latest struggles within the American church leadership.

Of all the books of the Bible few have had more resonance for modern readers than the Book of Job. For a world that has witnessed great horrors, Job's cries of despair and incomprehension are all too recognizable. The visionary psychotherapist Carl Gustav Jung understood this and responded with this remarkable book, in which he set himself face-to-face with "the unvarnished spectacle of divine savagery and ruthlessness." Jung perceived in the hidden recesses of the human psyche the cause of a crisis that plagues modern humanity and leaves the individual, like Job, isolated and bewildered in the face of impenetrable fortune. By correlating the transcendental with the unconscious, Jung, writing not as a biblical scholar but "as a layman and physician who has been privileged to see deeply into the psychic life of many people," offers a way for every reader to come to terms with the divine darkness which confronts each individual.

Experts in the intelligence community say that torture is ineffective. Yet much of the public appears unconvinced: surveys show that nearly half of Americans think that torture can be acceptable for counterterrorism purposes. Why do people persist in supporting torture—and can they be persuaded to change their minds? In Tortured Logic, Erin M. Kearns and Joseph K. Young draw upon a novel series of group experiments to understand how and why the average citizen might come to support the use of torture techniques. They find evidence that when torture is depicted as effective in the media, people are more likely to approve of it. Their analysis weighs variables such as the ethnicity of the interrogator and the suspect; the salience of one's own mortality; and framing by experts. Kearns and Young also examine who changes their opinions about torture and how, demonstrating that only some individuals have fixed views while others have more malleable beliefs. They argue that efforts to reduce support for torture should focus on convincing those with fluid views that torture is ineffective. The book features interviews with experienced interrogators and professionals working in the field to contextualize its findings. Bringing empirical rigor to a fraught topic, Tortured Logic has important implications for understanding public perceptions of counterterrorism strategy.

Interpreting the Redemption from the Power of Satan in New Testament Theology

A History of Catholics in America

Reflections on the Good Life After the Good War

In the Fullness of Time

God on the Big Screen

*"My initial goal was to write a book on the defeat of Satan in New Testament theology covering all the witnesses of the New Testament using a title suchas 'falling like lightning.' ... But it became evident that although the defeat of Satan is central to the exorcisms of the synoptic gospels, many authors of the New Testament simply do not speak explicitly about a 'defeat of Satan.'" For example, Paul, Ephesians and Colossians, if they explicitly speak of the devil (or allude to him), speak instead of being redeemed from the dominion of Satan. ... I therefore moved more in the direction of considering how the human being is redeemed from the effects of Satan."*--Pref.

*A major contribution to our understanding of slavery in the early republic, Deliver Us from Evil illuminates the white South's twisted and tortured efforts to justify slavery, focusing on the period from the drafting of the federal constitution in 1787 through the age of Jackson. Drawing heavily on primary sources, including newspapers, government documents, legislative records, pamphlets, and speeches, Lucy K. Ford recaptures the varied and sometimes contradictory ideas and attitudes held by groups of white southerners as they tried to square slavery with their democratic ideals. He excels at conveying the political, intellectual, economic, and social thought of leading white southerners, vividly recreating the mental world of the varied actors and capturing the vigorous debates over slavery. He also shows that there was not one antebellum South but many, and not one southern white mindset but several, with the debates over slavery in the upper South quite different in substance from those in the deep South. In the upper South, where tobacco had fallen into comparative decline by 1800, debate often centered on how the area might reduce its dependence on slave labor and "whiten" itself, whether through gradual emancipation and colonization or the sale of slaves to the cotton South. During the same years, the lower South swirled into the vortex of the "cotton revolution," and that area's whites lost all interest in emancipation, no matter how gradual or fully compensated. An ambitious, thought-provoking, and highly insightful book, Deliver Us from Evil makes an important contribution to the history of slavery in the United States, shedding needed light on the white South's early struggle to reconcile slavery with its Revolutionary heritage.*

*This book was written for you to support your relationship with God. Full of concepts and values that have uplifted many people after reading and studying, I hope as you read this book, it does the same for you. May God bless you. This book has wonderful, sometimes humorous, advice for Christian Living. I love how each concept is followed by the values we should strive for. Then, the Bible reference with chapter and verse of several scriptures to back them up. You will find the Lord in this book, encouraging you, challenging you, and loving you. -- Jill Tustin Recently I had the privilege of reading "Concepts & Values of Christian Living". This book is written by Dennis Russell and contains his collection of Concepts and Values that are supported by scriptural solutions and explanations. I believe it is a tool that any church can use in their Sunday school books, and for new convert Discipleship programs. Refreshingly so, it is not filled with personal opinions it's biblical teachings to help seasoned teachers and young Christians. - Reverend Edward Ramsey, Evangelist, First Church of God Concepts and Values of Christian Living is a timely book filled with much good advice for anyone desiring to live a Godly life in this age. - Robert Bockey*

*Many Americans view the persecuted church as "third-world," needy, uneducated, and poor -- sorely lacking in much of what we assume the church needs to function well. Essentially, we see them as being in need of us. But the irony, say Carl Moeller and David Hegg, is that we're in much greater need of them. Through a combination of inspiring real-life stories, first-hand experiences, and exposition of key Scripture passages, Dr. Carl Moeller and Pastor David Hegg examine the quote;normal Christian life;quote; of Christ-followers currently suffering persecution around the world. In topical chapter after chapter, the authors conclude that the suffering church's vibrant, sacrificial, and communal faith is much closer to God's intent for His church and His children. The authors explore the areas of community, leadership, worship, prayer, and generosity, among others, revealing specific attitudes and actions of the suffering church that can renew the spiritual lives of Christians in the West. Each chapter ends with challenging questions and suggestions for personal and corporate application.*

Zacharias 2 in 1-Jesus Among Other Gods & Deliver Us From Evil

The Complete Guide to Traditional Vows, Music, Ceremonies, Blessings, and Interfaith Services

Rethinking Regionalism

A practical, easy-to-follow guide to diagnosing and treating teenage adolescent substance abusers. Packed with ideas, suggestions, and strategies, Ross details eight fundamental elements that make a treatment program successful. He presents a sound rationale for conceptualizing the problem of chemical dependency, includes an easy-to-follow framework for addressing it, and lists specifically defined goals and objectives for confronting the addiction. Fifteen treatment strategies for enhancing awareness, one full chapter that outlines a model treatment program that's ready to implement, nineteen questions for critiquing a group session, a set of 42 criteria for addressing the outcome of a program, suggestions for conducting a comprehensive evaluation with eight possible scenarios that could result from the evaluation, and ideas for helping parents respond emotionally and behaviorally to the situation. Clinical Psychologists . Social Workers and other professionals working with teenage substance abusers. A Longwood Professional Book.

Examines the cases of a minister accused of attempting to murder his wife; accused millionaire killer T. Cullen Davis; and Kenneth Miller, a fugitive hounded by a relentless lawman

Traces the evolution of Catholicism in America into a culturally and ethnically diverse religion as a result of the influx of Catholic Irish, Italians, and Latin Americans, and discusses its present character and influence.

A collection of Missouri biographies features the life stories of Count Basie, Walt Disney, Redd Fox, Betty Grable, Mark Twain, T.S. Eliot, Laura Ingalls Wilder, Langston Hughes, Daniel Boone, George Washington Carver, Harry S Truman, and other state luminaries.

Why Some Americans Support the Use of Torture in Counterterrorism

Nelson's Illustrated Bible Dictionary

Answer to Job

By James Brand ; with an Introduction by Francis E. Clark

Resistance, Occupation and Liberation

Understanding the Fundamental Elements

*Well-known for his articulation of the "shadow side" of human individuality and culture, C. G. Jung wrote a great deal about the question of evil throughout his life and in scattered places in his work. In this book his position is pieced together from many sources. In his early work on the unconscious, for instance, he considered the role of evil in his writings ranging from his Answer to Job to his travel piece on North Africa.*

*Film history meets church history through the ritual of prayers Moments of prayer have been represented in Hollywood movies since the silent era, appearing unexpectedly in films as diverse as Rebecca of Sunnybrook Farm, Frankenstein, Amistad, Easy Rider, Talladega Nights, and Alien 3, as well as in religiously inspired classics such as Ben-Hur and The Ten Commandments. Here, Terry Lindvall examines how films have reflected, and sometimes sought to prescribe, ideas about how one ought to pray. He surveys the landscape of those films that employ prayer in their narratives, beginning with the silent era and moving through the uplifting and inspirational movies of the Great Depression and World War II, the cynical, anti-establishment films of the 60s and 70s, and the sci-fi and fantasy blockbusters of today. Lindvall considers how the presentation of cinematic prayer varies across race, age, and gender, and places the use of prayer in film in historical context, shedding light on the religious currents at play during those time periods. God on the Big Screen demonstrates that the way prayer is presented in film during each historical period tells us a great deal about America's broader relationship with religion.*

*Tracing more than four centuries of Catholics in America, this concise study is a fascinating look at the history of the country's largest religious denomination. 15 photos.*

*Over the course of his distinguished career Richard Bauckham has made pioneering contributions to diverse areas of scholarship ranging from ethics and contemporary issues to hermeneutical problems and theology, often drawing together disciplines and fields of research all too commonly kept separate from one another. In this volume some of the most eminent figures in modern biblical and theological scholarship present essays honoring Bauckham. Addressing a variety of subjects related to Christology, creation, and eschatology, the contributors develop elements of Bauckham's biblical and theological work further, present fresh research of their own to complement his work, and raise critical questions. --from dust jacket.*

Alternative Futures for Worship

Catholics in America

Deliver Me From Evil

Tortured Logic

France and the Second World War

These volumes provide creative and provocative analysis of each of the Church's seven sacraments.

Jesus Among Other Gods: In his most important work to date, apologetics scholar and popular speaker Ravi Zacharias shows how the blueprint for life and death itself is found in a true understanding of Jesus. With a simple yet penetrating style, Zacharias uses rich illustrations to celebrate the power of Jesus Christ to transform lives.Jesus Among Other Godscontrasts the truth of Jesus with founders of Islam, Hinduism, and Buddhism, strengthening believers and compelling them to share their faith with our post-modern world. Deliver Us From Evil: With clarity and insight, Zacharias shows how many of today's most popular ideas, thoughts, and beliefs are vandalizing our culture. He shows how it is there, "in the depths of our innermost being. That the work of God changes what we want to do. This is not an ethical system calling us to civility. This is the transforming work of the grace of God, who calls us His children." He shows how: Secularization has led us to a loss of shame, generating evil even against those we love Pluralization has led us to a loss of reason, generating evil toward those we choose to hate Privatization has led us to loss of meaning, generating evil against ourselves

Deliver Us From Evil: Shaw and Katie James 2 (Enhanced Edition)Macmillan

This edited collection focuses on Annie Proulx's striking attention to geography, place, landscape, and local environments. Contributors consider Proulx's particular landscapes, particularly those of Wyoming, New England, Texas, and Newfoundland, and the issues surrounding the significance of these regions and regionalism in contemporary culture and literature.

Deliverance

The Privilege of Persecution (Enhanced Version)

**France and the Second World War is a concise introduction to a crucial and controversial period of French history - world war and occupation. During World War Two, France had the dramatic experience of occupation by the Germans and the legacy of this traumatic time has lived on until today, to the enduring fascination of historians and students. France and the Second World War provides a fresh and balanced insight into the events of this era of conflict, exploring the key themes of: \* Occupation as a social, economic and political phenomenon \* the Vichy regime and the politics of collaboration \* the 'resistance', resisters and its ideology \* the liberation \* the legacy of the wartime period.**

**The focus of this book is on the reality of evil for medieval and Renaissance dramatists and their audiences. What propels the work beyond similar critiques is the author's insistence that evil is not an outmoded feature of past societies, but an active ingredient of contemporary life. Davidson fast forwards from distant times once described as calamitous to a century of far more violence and atrocity - our own twentieth and its overflow. drama through Marlowe and Shakespeare, Davidson refers to contemporary events that scream for an adjective for which there is no better - evil. In passing, he faults the Nietzsche-Foucault line for contributing to the trivializing of evil in postmodern times. In a survey that ranges from Greek drama and the Church Fathers through De Sade, Dostoyevsky, Beckett, and Ingmar Bergman, Davidson drives to his conclusion that an important function of drama has always been to bring a realization of evil into our consciousness and indeed, through giving symbolic form to it, to make us feel its power as a demonic force in human lives.**

**Deliver Us from Evil is the sweeping saga of one man's struggle to find his place in an ever-changing world. From its origins in London and ranging throughout the globe, Deliver Us from Evil tells a story from the past that was never more relevant than it is today. Born in Poland to Jewish and Muslim parents, father Josafat Konrad and his mother are imprisoned by Nazis on his eighth birthday. Omar's Jewish father is summarily executed. As the grandson of an Arab prince, Omar has value as a hostage and survives the Holocaust. Faced with such evil, Omar questions how God can exist in this world. Omar wrestles with the conflict between his desire to rid the world of evil and the desire to be a good man. Having a quick mind and facility with languages, Omar finds himself at the newly formed United Nations. His royal grandfather and his United Nations position provide access to world leaders-and tough choices. Omar faces the hardest question of his life: How far will he go to make the world a better place? Both epic novel and geopolitical thriller, Deliver Us from Evil is one man's journey through life and his struggle with the questions that we must all answer about our existence.**

**Locked in a battle of nerve and wits, a mysterious intelligence operative and a vigilante agent race against time to take down a greedy businessman bent on destroying millions of lives in this #1 New York Times bestselling thriller. Evan Waller is a monster . . . He has built a fortune from his willingness to buy and sell anything . . . and anyone. In search of new opportunities, Waller has just begun a new business venture: one that could lead to millions of deaths all over the globe. On his trail is Shaw, the mysterious operative from The Whole Truth, who has tracked Waller to Provence and must prevent him from closing his latest deal. But someone else is pursuing Waller: Reggie Campton, an agent for a secret vigilante group headquartered in a musty old English estate—and she has an agenda of her own. Hunting the same man and unaware of each other's mission, Shaw and Reggie will be caught in a deadly duel of nerves and wits. Hitchcockian in its intimate buildup of suspense and filled with the remarkable characters, breathtaking plot turns, and blockbuster finale that are David Baldacci's hallmarks, Deliver Us From Evil is one of the most gripping thrillers you'll read this year.**

And Other Things the Global Church Knows That We Don't

Communion of Immigrants

Safety, Acceptance, Belonging. These words come to mind when we hear about families. Having a mother, father, and twelve siblings living in a strong Christian faith should mean plenty of love, laughter and companionship. But what if, inexplicably, one's parents selectively manipulated and mistreated some of the children and not the others? How would you deal with being one of three children who constantly bore unprovoked wrath and abuse - while watching the others receive the love, affirmation and nurturing you so desperately needed and craved? Would you ask yourself if your life was worth anything to anyone at all? Would you feel that God had overlooked and abandoned you? Would you despair of God for being unresponsive when you cried out for relief? Ron Corcoran's frank and honest memoir courageously proclaims that no matter how wretched, broken or angry we may be, we can indeed be delivered, redeemed and transformed by the love of the living, eternal God....

Many engaged couples, no matter what their personal style, find themselves turning back to tradition for their wedding ceremony. Is there a way to follow tradition and still carve your own wedding path? Yes, there is - with this unique book in hand. Michael Foley presents meaningful wedding traditions so old that they're practically new again. Roman Catholic, Protestant, Orthodox, and Jewish wedding traditions fill this comprehensive guidebook, the only one of its kind. From music and flowers to vows and ceremonies to blessings, Foley's Wedding Rites contains a vast assortment of rich traditions very much alive in weddings today. Best of all, it's easy to reference and easy to use! Wedding Rites includes concrete suggestions for each facet of your wedding, from engagement to reception; guidelines for designing your own distinctive wedding program; practical advice for interfaith weddings; forgotten wedding customs - carecloths, loving cups, coin blessings, and others.

Features include: Cross-references to major translations More than 7,000 up-to-date entries More than 500 full-color photographs and maps Enlarged type size for easier reading Visual Survey of the Bible from The Open Bible, 1942-1975

Monsters are real...and that monster is me. I've surrendered. I have no other choice. With Babydoll gone, I'm going to do whatever it takes to find her. I will lie. Cheat. Murder...and I'll do so with a smile. I'll even sell my soul to the devil...because that's who my father, Sean Kelly, is. He won't stop until Belfast is his. He knows I'm at my breaking point. Just how far will he push until I lose myself to the darkness for good? But I'm prepared to give it all away. She's all that matters. However, this life isn't one to live with me yet. A startling secret threatens to destroy me, and a new player is introduced into the game. I don't know if he is a friend or foe. What I do know is that he has the power to change the world as I know it. He wants what is mine. My kingdom. My name. And my legacy. But I am Puck Kelly-and every monster is scared of somethin'...and that somethin' is me. No more hiding in the shadows because I'm huntin' youse, and this time, I won't lose. Run, wee monsters, run.

Bad Versus Better Faith in Mary Daly's Feminist Writings

Deliver Us From Evil

A Semiotic Study of His Aesthetic and Postmodernity

Anointing of the Sick

The Beasts of Ephesus

*A spirited argument disproving the value of dictatorships by using Mussolini, Hitler, and Stalin as examples of the fallacy. The question is presented with particular reference to the United States.*

*Reporting from war zones around the globe, acclaimed journalist William Shawcross gives us an unforgettable portrait of a dangerous world and of the brave men and women, ordinary and extraordinary, who risk their lives to make and keep the peace. The end of the Cold War was followed by a decade of regional and ethnic wars, massacres and forced exiles, and by constant calls for America to lead the international community as chief peace-keeper. The efforts of that community -- identified with the United Nations but often dominated by the world's wealthy nations -- have had mixed results. In Africa, the West is accused of indifference or too little, too late. In Cambodia, the UN presides over free elections, but the results are overridden. In Iraq, Saddam Hussein continues to defy the UN, and in Bosnia and Kosovo, the West acts hesitantly after terrible slaughter and ethnic cleansing. Shawcross, a veteran of many war zones, has had broad access to global policymakers, including UN secretary general Kofi Annan, high American diplomats, peacekeepers and humanitarian-aid professionals. He has traveled with them to some of the world's most horrifying killing fields. Deliver Us from Evil is his stark, on-the-ground report on the many crises faced by the international community and its servants as they struggle to respond around the world. He brings home the price many have paid attempting to restore peace and help alleviate terrible suffering. He illuminates the risks we face in a complex and dangerous world. Some critics have concluded that some interventions may prolong conflict and create further casualties. The lesson we learn from ruthless and vengeful warlords the world over is that goodwill without strength can make things worse. Shawcross argues that recent interventions -- in Kosovo and East Timor, for example -- provide reason for concern as well as hope. Still, the unmistakable message of the past decade is that we cannot intervene everywhere, that not every wrong can be righted merely because the international community desires it, or because we wish to remove images of suffering from our television screens. Nor can we necessarily rebuild failed states in our image. When we intervene, we must be certain of our objectives, sure of popular support and willing to expend the necessary resources -- even lives. If our interventions are to be effective and humane, they must last for more than the fifteen minutes of attention that the media accord to each succeeding crisis. That is a tall order. As Shawcross concludes, "In a more religious time it was only God whom we asked to deliver us from evil. Now we call upon our own man-made institutions for such deliverance. That is sometimes to ask for miracles."*

*In these essays, a combination of personal remembrance and broad-stroke cultural history, Philip Beidler addresses the culture and politics of post-WWII America: the national blindness toward the Holocaust and a rising China, the canker of McCarthyism, ascendant cultures of hard smoking and heavy drinking, the worship of cars and film idols, and the chronic fear of an always-possible nuclear apocalypse. In lively, driving prose, he recalls veiled episodes in the history of the Korean War, the civil rights movement, and the struggle for women's liberation. On these subjects and many others, Beidler draws from his own experience and a penetrating grasp of American social history, offering deep, pointed, and comprehensive perspectives on iconic moments in American history.*

*The present volume is the fourth in a five-volume study of church doctrine. The multivolume set covers the major parts of church doctrine: Canon, God, Creation, Reconciliation, and Redemption. The first volume begins with an introduction to the entire project on why doctrine matters, which stresses the ecumenical, global, and above all biblical horizons of church doctrine as a primary expression of Christian witness. The purpose of this fourth volume is to celebrate the gospel of Jesus Christ as the treasure of the church and the power of God for the reconciliation of the world. The gospel bears witness to the life, death, and resurrection of Jesus Christ, and calls for faith in him as the free gift of forgiveness and new life. The gospel is constantly in motion, tearing down every barrier of human bigotry and prejudice, not only forming a new society, but reforming the church itself. Church doctrine is not a luxury, but a necessity for the living community of faith, by which its witness in word and deed is tested against the one true measure of Christ the risen Lord.*

Jung on Evil

Deliver Us from Evil

A History of Hollywood Prayer from the Silent Era to Today

The Remarkable True Story of a Child's Abuse, Spiritual Deception, Deliverance and Ultimate Redemption.

International law's rich existence in the world can be illuminated by its objects. International law is often developed, conveyed, and authorized through its objects and/or their representation. From the symbolic (the regalia of the head of state and the symbols of sovereignty), to the mundane (a can of dolphin-safe tuna certified as complying with international trade standards), international legal authority can be found in the objects around us. Similarly, the practice of international law often relies on material objects or their image, both as evidence (shellfish images, bones of the victims of mass atrocities) and to found authority (for instance, maps and charts). This volume considers these questions: firstly what might the study of international law through objects reveal? What might objects, rather than texts, tell us about sources, recognition of states, construction of territory, law of the sea, or international human rights law? Secondly, what might this scholarly undertaking reveal about the objects-as aims or projects-of international law? How do objects reveal, or perhaps mask, these aims, and what does this tell us about the reasons some (physical or material) objects are foregrounded, and others hidden or ignored. Thirdly what objects, icons, and symbols preoccupy the profession and academy? The personal selection of these objects by leading and emerging scholars worldwide will illuminate the contemporary and historical fascinations of international lawyers. By considering international law in the context of its material culture the authors offer a new and exciting theoretical perspective on the subject. With an image of each object reproduced in full colour, the book will make an engaging and interesting read for scholars, practitioners, and students alike.

This book provides a comprehensive narrative history of U.S. involvement in Southeast Asia, from 1942 to 1975—with a concluding section that traces U.S.–Vietnam relations from the end of the war in 1975 to the present. Unlike most general histories of U.S. involvement in Vietnam—which are either conventional diplomatic or military histories—this volume synthesizes the perspectives to explore both dimensions of the struggle in greater depth, elucidating more of the complexities of the U.S.–Vietnam entanglement. It explains why Americans tried so hard for so long to stop the spread of Communism into Indochina, and why they failed. Key topics: The Fall of Saigon. The End as Prelude. Vietnam: A Place and A People. The Elephant and the Tiger. An Experiment in Nation Building. Raising the Stakes. Going to War. The Chain of Thunders. The Year of the Monkey. A War to End a War. The End of the Tunnel. Market: For anyone

curious to know about the long American involvement in Southeast Asia, 1942-1975. What would you do if the person you grew to trust and love after a horrible heartbreak turned out to be the worst kind of evil to have ever stalked you? Would you trust your instincts and be brave enough to fight for yourself and all that you care for? Would you have enough time to fix everything before your world collapsed, threatening everyone and everything you have held dear? This is the story of Jiaja, who, in hopes of healing from an ugly break-up, flees from her home town in India to New York, where her aunt lives. Hoping to find some respite in solitude, she decides to do some solo travelling in Upstate New York and surrounding areas before visiting her childhood friend Samara for Christmas. With little in her pocket to sustain herself, she takes shelter in a run-down motel for a night where, under bizarre circumstances, she is thrown in the company of the handsome, middle-aged Ned Faraday. Fate seems to have better plans for her as Ned is the perfect gentleman, her knight in shining armor who readily recognizes her plight and is very willing to help her reach her friend safely.Or so she thinks...Believing that Lady Luck would be kinder to her this time round, Jiaja let's herself falls for Ned's charms, if only partly. Ned's interest in her seems to be genuine but before Jiaa has the time to assess how she truly feels about Ned, she is bombarded by strange emotions and misplaced anger. To her utmost surprise, most of this anger is directed towards Ned, and Jiaa can hardly begin to fathom this in the well-meaning stranger has really been kind and helpful.However, as an emotion-ridden mortal, Jiaa can hardly see the entire picture. Ned dons a camouflage and lives entirely different lives... one as a glamorous candidate for Mayor and the other, an unimaginable contradiction. He, predictably, prepares to emesh the naive, heart-broken Jiaa but unexpected help arrives in the form of Sam. . . a disgruntled spirit of a young woman. Sam has a story of her own that changes everything Jiaa believes in and together with Angelo, a mysterious character claiming to be an angel, Sam rushes to foil Ned's plans and save Jiaja's world. . . a world she herself is no longer part of.

This is an enhanced ebook with bonus material including deleted scenes, video and audio interviews with David Baldacci, his manuscript edits and the original ending. Evan Waller is a monster. He has built a fortune from his willingness to buy and sell anything... and anyone. In search of new opportunities, Waller has just begun a new business venture, one that could lead to millions of deaths all over the globe. On Waller's trail is Shaw, the mysterious operative from The Whole Truth, who must prevent Waller from losing his latest deal. But someone else is pursuing Waller in Provence - Reggie Campton, an agent for a secret vigilante group headquartered in a musty old English estate - and she has an agenda of her own. Hunting the same man and unaware of each other's mission, Shaw and Reggie will be caught in a deadly duel of nerve and wits.
