„Jurnalul lui Radu Vancu este o aventură

intelectuală în sine. Mi s-a întâmplat rar să citesc notații atât de dense, atât de competente în zona culturală și atât de umane în cea emoțională. El confirmă un scriitor polivalent, unul dintre cei mai moderni și mai atotcuprinzători ai generației lui. Poet, universitar, activist cultural și civic, Radu Vancu pare unul dintre acei oameni cărora nimic din ce-i uman (și post-uman) nu le e străin." (MIRCEA CĂRTĂRESCU) „Dacă înainte de acest jurnal era doar credință, acum mi s-a transformat în convingere: poezia e un gen al biograficului – iar jurnalul e un gen al liricului. Tot ce e mai intens în noi intră aici. Iar această intensitate face, exact ca-n poezie, o dublă mișcare: pe de-o parte, ne falsifică viața, pe de alta, îi aduce adevărul decisiv. Din punctul acesta de vedere, mon semblable, mon frère, jurnalul acesta e doar un lung poem. Nici mai mult, nici mai puțin de atât.” (RADU VANCU)

Optimisation of Disaster Forecasting and Prevention Measures in the Context of Human and Social Dynamics addresses a wide range of disaster-management regimes. The principal themes (for a series of typical disaster scenarios) focus on how these disasters can affect both the human and natural environments. Accordingly, the articles in this book cover the following areas of concern: natural disasters such as earthquakes, landslides and floods; man-made disasters such as accidents at mining and tailings dams; nuclear/radiological facilities; transport accidents involving hazardous materials; fires; and environmental contamination. Monitoring and the assessment of health and environmental pollution risks, as well as the communication of these risks to the public, are also discussed. The scientific content thus focuses on risk assessment as part of national policies regarding protection of man and environment; the need for strong cooperation at international and national levels; using a costbenefit approach; information sharing and networking; and vulnerability as a moderating factor in risk assessment. The contributions are very useful, especially to those

Governments must work tirelessly to update their preparedness for dealing with natural and man-made disasters, as well as taking account of the increasingly present threat of terrorism. Efficient international cooperation is key to achieving safety and internationalizing security policy. This book presents the proceedings of the NATO Advanced Research Workshop (ARW) Engaging the Public to Fight the Consequences of Terrorism and Disasters, held in Tbilisi, Georgia, in June 2014. The purpose of the workshop was to analyze accumulated European theoretical knowledge and practical experience in the field of disaster prevention and the involvement of the public in preventing and fighting

the consequences of terrorism, as well as natural and man-made disasters. There was a particular focus on the perspective of the region, especially with a view to meeting European Union standards and setting uniform and independent standards for hazard and risk assessment methods. The protection of economically critical infrastructure, such as dams, pipelines and transport and storage facilities, was addressed as were the issues of managing water and non-renewable resources, the disposal of dangerous chemicals and radioactive waste, and defensible methods of transport for fuel supplies and key personnel. Contributions reflected the extensive experience of the participating NATO and partner countries, including Armenia, Austria, Bulgaria, Georgia, Germany, Italy, Moldova, the Netherlands, Romania, Turkey and Ukraine as well as international organizations such as UNECE and NATO.

De ce diminutivele? Pentru că sunt prezente în limba română actuală, dar au și o istorie tumultuoasă.

Diminutivele atrag, diminutivele apropie, diminutivele depărtează sau chiar dezgustă. Cuvinte folosite de mulți dintre vorbitorii limbii române, acestea au o mare capacitate de adaptare. Fiind o modalitate prin care oricine își poate exprima creativitatea sau emoțiile, diminutivarea este un procedeu bine reprezentat în limbă, de aceea merită o atenție aparte.
