The guidelines were developed to present the University's preferences and criteria for the design and construction of campus facilities and landscape. The goal of the design guidelines is to improve the overall aesthetic character and visual unity of the Amherst campus as a whole. They represent the University's commitment for future buildings to create a more cohesive, attractive, productive and sustainable campus environment.

[Design Guidelines - UMass Amherst](#)

The Campus Development Guidelines were prepared to present the University's preferences and criteria for the design and construction of campus facilities and landscape. The goal of the design guidelines is to improve the overall aesthetic character and visual unity of the Amherst campus as a whole. They represent the University's commitment to future development that reinforce the University's Mission, and support a more cohesive, attractive, productive and sustainable campus environment.

1. Each IDF in the building should have a voice riser, count TBD, from this location to its own patch panel located in the first passive equipment rack. 2. The BET/MDF should also get a voice riser, count TBD, from this same location to its own patch panel located in the first passive equipment rack in the same room.

The purpose of this guideline is to ensure that the laboratory design process will include adequate facilities for storage or consumption of food and other personal tasks that should be performed outside of areas where chemical, biological, or radiological materials are handled or stored. This policy will outline best practices with respect to separation of non-laboratory activities to reduce the risk of exposure or cross contamination from laboratory operations.

Site Considerations Garden centers, retail greenhouses and farm stands are a popular way of marketing plants. Most operate year-round but some are open only on a seasonal basis, limiting sales to the spring bedding plant season and major holidays. In recent years, most of the major chain stores have installed garden centers to market to their large customer base.
