New York Times Bestseller In The New Bohemians, LA-based designer Justina Blakeney defines The New Bohemians as creative individuals who are boutique owners and bloggers, entrepreneurs and ex-pats, artists and urban farmers. They embrace free-spirited, no-rules lifestyles and apply that attitude to all areas of their existence, including their homes. With little distinction between work and play, the new boho home often includes an office, art gallery, showroom, photography studio, restaurant, or even a pop-up shop. The New Bohemians explores 20 homes located primarily on the East and West coasts. Exclusive interviews with the owners, 12 DIY projects created by Blakeney and inspired by objects found in the homes, and a "Plant-O-Pedia" offer insight into achieving this aesthetic. In addition, each home is accompanied by an Adopt-an-Idea section that offers general decor, styling, and shopping tips for easy duplication in your own home.

In this visual diary of life in the garden, The Land Gardeners share their beliefs on the importance of soil health, introduce you to their favourite blooms and inspire you to create your own cutting garden with expert knowledge on how to grow and what to gather by season. This is the story of The Land Gardeners, creators of productive gardens and stunning bundles of cut flowers. Based in the original walled garden at Wardington Manor, The Land Gardeners have revived the tradition of working with the land to produce abundant, seasonal flowers for clients' use in decoration, design and events. But for all the frivolous, bucolic beauty of the flowers, it is the productivity and health of the soil that truly underpins The Land Gardeners' philosophy. The book explores lively soil, the joy (and, arguably, necessity) of gathering from our gardens, and the imperative that we care for our soils and live among healthy, vital gardens. Chapters include: The Land Gardeners - how Bridget Elworthy (New Zealand) and Henrietta Courtauld (England) created The Land Gardeners in 2012, their background in growing and designing, their philosophy, A Floral History - how it all began in the walled garden at Wardington Manor, Oxfordshire, England. Creation of a Cutting Garden - the fundamental importance of soil health. The life in the soil: how we improve it, how we feed it, how we make compost. The importance of organic and biodynamic growing. The Flower Room - gathering, preparing, arranging and selling. A Year of Flowers - growing throughout the year: spring (narcissi, tulips, hesperis); summer (roses, peonies, delphiniums, scabious, ammi); autumn (cosmos, dahlias, gladiolus); winter (bulbs, aconites, snowdrops, berries, hips). Your Cut-Flower Garden - creating cut-flower borders; planting and growing; feeding the soil; growing under cover; tools; staking and supports. Growing Cut Flowers - The Land Gardeners' favourite flowers: roses, peonies, dahlias, bulbs, annuals, perennials, foliage, shrubs and trees. Resources - books; websites for information on cutting gardens; suppliers of plants; seed companies; tools and equipment.

A practical how-to guide from the author of Mad About the House, the bestselling book and UK s number 1 interiors blog. This dictionary of interior design answers all those questions you were afraid to ask. The book begins with the most important questions of all: Who? What? Where?

Where? Why? and How? The aim is to answer these before you start any decorating scheme and you will avoid the most common mistakes, save money and, most importantly, create a home that works for you and the people who live there. This

Design Ideas to Modernize Your Bathroom - THE LATEST TRENDS +50

An oasis within the home: Take A Bath offers the most innovative bathroom designs of today and provides inspiration for those who seek relaxation and rejuvenation.

This book examines over 1,000 bathrooms from around the world, each one designed by a notable architect and created especially for a specific residence. For each bathroom there is an image of the whole house (placing it in context and providing a flavor of the general design style), images of the bathroom, and a floor plan showing its relation to the other spaces. The photos that follow are entirely devoted to detailed drawings showing the arrangement and construction of the bathroom, in particular sections, elevations, and construction details of all the fitted units and joinery. These drawings are all made to a consistent style and to a set number of scales for easy comparison. Dimensions are also included with the drawings as well as details of fitted units (baths, showers, basins, etc.). The credits for the projects include contact details of suppliers so that the exact materials and fixtures can be sourced. The projects are arranged into chapters by type of dominant material: glass, steel and stone. The book will be invaluable for all practicing architects as well as those considering commissioning a high-quality bathroom for their own house.
