U.S. leadership will be a strong factor in the persistence of Spanish in its midst as a living language will be a powerful factor in the strengthening of the language on the international stage. In this volume, a number of specialists, all professors of Latino origins currently working in U.S. universities, analyze a variety of factors, from different perspectives, that play a role in the present and future vitality of Spanish as a second language in the U.S. The result is a rich and complex work surrounding a crucial issue that will influence the future of Spanish as an international language.

(abridged and revised) This reference grammar offers intermediate and advanced students a reasonably comprehensive guide to the morphology and syntax of educated speech and plain prose in Spain and Latin America at the end of the twentieth century. Spanish is the main, usually the sole official language of twenty-one countries,} and it is set fair to overtake English by the year 2000 in numbers 2 of native speakers. This vast geographical and political diversity ensures that Spanish is a good deal less unified than French, German or even English, the latter more or less internationally standardized according to either American or British norms. Until the 1960s, the criteria of internationally correct Spanish were dictated by the Real Academia Espanola, but the prestige of this institution has now sunk so low that its most solemn decrees are hardly taken seriously - witness the fate of the spelling reforms listed in the Nuevas normas de prosodia y ortografia, which were supposed to come into force in all Spanish-speaking countries in 1959 and, nearly forty years later, are still selectively ignored by publishers and literate persons everywhere. The fact is that in Spanish 'correctness' is nowadays decided, as it is in all living languages, by the consensus of native speakers; but consensus about linguistic usage is obviously difficult to achieve between more than twenty independent, widely scattered and sometimes mutually hostile countries. Peninsular Spanish is itself in flux.

A full picture of English as used in 2001, this comprehensive guide to written and spoken English has been updated with a new words section and colour headwords.

A state-of-the-art, in-depth survey of the topics, approaches and theories in Spanish linguistics today. The language is researched from a number of different perspectives. This Handbook surveys the major advances and findings, with a special focus on recent accomplishments in the field. It provides an accurate and complete overview of research, as well as facilitating future directions. It encourages the reader to make connections between chapters and units, and promotes cross-theoretical dialogue. The contributions are by a wide range of specialists, writing on topics including corpus linguistics, phonology and phonetics, morphosyntax, pragmatics, the role of the speaker and speech context, language acquisition and grammaticalization. This is a must-have volume for researchers looking to contextualize their own research and for students seeking a one-stop resource on Spanish linguistics.

Introducción a la lingüística de corpus en español es la primera obra concebida desde la óptica del español para investigar los corpus textuales existentes en la actualidad.

Destinada a conjugar armónicamente la exposición de cuestiones teóricas y metodológicas, proporciona información detallada sobre las tareas necesarias en el diseño, construcción y explotación de un corpus a partir de numerosos ejemplos de obtención de datos sobre diferentes cuestiones léxicas y gramaticales. Características principales: • Exposición de cuestiones teóricas y metodológicas combinada con el tratamiento de casos prácticos de extracción y análisis de datos procedentes de corpus textuales de español; • Análisis de fenómenos léxicos y gramaticales del español desde diferentes perspectivas y con atención a la variabilidad diacrónica, diatópica y diastrática; • Indicación detallada del modo de obtener los datos necesarios para la investigación en diferentes corpus del español; • Inclusión de un resumen inicial, actividades de investigación en cada capítulo y lecturas complementarias recomendadas; • Presentación de un capítulo final con herramientas informáticas útiles para el análisis de textos no incluidos en corpus textuales; • Recopilación de los principales términos usados en la lingüística de corpus en un glosario bilingüe (español e inglés). Introducción a la lingüística de corpus en español es una obra con un enfoque marcadamente didáctico, y dirigida fundamentalmente a estudiantes avanzados de grado y posgrado, profesores que necesiten hacer uso de corpus en sus clases, investigadores que precisen un conocimiento más profundo de la lingüística de corpus o expertos en otras disciplinas que deseen familiarizarse con una perspectiva técnica de los fenómenos lingüísticos.

This book constitutes the refereed proceedings of the Third International Conference on Computational and Corpus-Based Phraseology, Europhras 2019, held in Malaga, Spain, in September 2019. The 31 full papers presented in this book were carefully reviewed and selected from 116 submissions. The papers in this volume cover a number of topics including general corpus-based approaches to phraseology, phraseology in translation and cross-linguistic studies, phraseology in language teaching and learning, phraseology in specialized languages, phraseology in lexicography, cognitive approaches to phraseology, the computational treatment of multiword expressions, and the development, annotation, and exploitation of corpora for phraseological studies.

Este libro monolingüe en español-el único de su clase en el mercado español-entrena a los hispanohablantes de nivel intermedio (ya sea en el aula o para el auto-estudio) en la terminología jurídica y los contextos en los que se utiliza en América Latina y España. /The only book of its kind on the market, this monolingual Spanish textbook trains intermediate-level Spanish speakers (either in the classroom or for self-study) in legal terminology and the contexts in which it is used in Latin America and Spain

This book, first published in 2003, provides a comprehensive and structured vocabulary for all levels of undergraduate Spanish courses. It offers a broad coverage of the concrete and abstract vocabulary relating to the physical, cultural, social, commercial and political environment, as well as exposure to commonly encountered technical vocabulary. The accompanying exercises for private study and classroom use are designed to promote precision and awareness of nuance and register, develop good dictionary use, and encourage effective learning. The book includes both Iberian and Latin American vocabulary, and clearly identifies differences between the two varieties. • Consists of twenty units each treating a different area of human experience • Units are divided into three levels which allows core vocabulary in each area to be learned first, and more specialised or complex terms to be added at later stages • Vocabulary is presented in alphabetical order for ease of location.

A Spanish Learning Grammar

Lexicografía; Lexicography

Den Gegenstand des Handbuchs bildet die Lexikographie und die Wörterbuchforschung, und letztere präsentiert sich in den drei Teilbänden erstmals in ihren verschiedenen Ausprägungen mit einem großen Reichtum an Details, doch zugleich in einer zusammenhängenden und umfassenden Weise: 248 Autoren haben in den Sprachen Deutsch, Englisch und Französisch 349 Artikel geschrieben,

welche auf 38 Kapitel verteilt sind. Die Zielsetzung des Handbuches, die sich aus der Lage der Lexikographie und dem Forschungsstand der Wörterbuchforschung ergibt, ist es die Lexikographie aller Sprachkreise der Erde zu registrieren sowie die der größeren Sprachen, und hier besonders die der europäischen und die ihrer Varietäten, detailliert darzustellen, den Status und die Funktion von lexikographischen Nachschlagewerken, insonderheit die von Sprachwörterbüchern in ihren unterschiedlichen Typen innerhalb der Kultursysteme von Gesellschaften zu beschreiben, die Geschichte der Lexikographie an Beispielen größerer Kulturen zu entwerfen, auf der Grundlage der Kenntnis der gesellschaftlichen Funktionen von Wörterbüchern und der Buchgeschichte und unter Berücksichtigung von Theorien über den Aufbau des Lexikons und seine Stellung im Sprachganzen Ausschnitte zu einer Allgemeinen Theorie der Lexikographie zu liefern, die Methodik der Lexikographie für alle Phasen des lexikographischen Prozesses, von der äußeren Arbeitsorganisation der Wörterbuchkanzleien bis hin zu methodischen Einzelverfahren unter Berücksichtigung des Computereinsatzes darzustellen und weiterzuentwickeln, auf die Unterschiede zwischen den realistischen Möglichkeiten und der gegebenen Realität der lexikographischen Praxis hinzuweisen und aus der Kenntnis von lexikographischen Defiziten Möglichkeiten für qualitative Verbesserungen und aussichtsreiche Perspektiven für neue lexikographische Projekte und metalexikographische Forschungen aufzuzeigen, die primäre und sekundäre Literatur möglichst breit und zuverlässig zu dokumentieren und insgesamt nachhaltig dazu beizutragen, daß die moderne wissenschaftliche Lexikographie zu einer von Wissenschaftlern lehrbaren und von Studenten lernbaren praxisorientierten Disziplin entwickelt wird.

Oxford Essential Dictionary, New Edition

This is a state-of-the-art Guide to the fascinating world of the lexicon and its description in various types of dictionaries. A team of experts brings together a solid Introduction to Lexicography and leads you through decision-making processes step-by-step to compile and design dictionaries for general and specific purposes. The domains of lexicography are outlined and its specific terminology is explained in the Glossary. Each chapter provides ample suggestions for further reading. Naturally, electronic dictionaries, corpus analysis, and database management are central themes throughout the book. The book also "introduces" questions about the many types of definition, meaning, sense relations, and stylistics. And that is not all: those afraid to embark on a dictionary adventure will find out all about the pitfalls in the chapters on Design. A Practical Guide to Lexicography introduces and seduces you to learn about the achievements, unexpected possibilities, and challenges of modern-day lexicography.

The study has three main sections. The first gives an up-to-date outline of essential elements of a theory of bilingual dictionaries, examined and further elaborated with specific reference to the handling of grammar in bilingual lexicography. Part two analyzes five German/Spanish dictionaries with regard to the selection and presentation of grammatical information on Spanish. The third and final section proposes improvements to customary lexicographic practice in connection with the points discussed.

A bilingual dictionary containing more than 300,000 words covers basic vocabulary as well as slang, American English, and Latin American Spanish.

This white paper is part of a series that promotes knowledge about language technology and its potential. It addresses educators, journalists, politicians, language communities and others. The availability and use of language technology in Europe varies between languages. Consequently, the actions that are required to further support research and development of language technologies also differ for each language. The required actions depend on many factors, such as the complexity of a given language and the size of its community. META-NET, a Network of Excellence funded by the European Commission, has conducted an analysis of current language resources and technologies. This analysis focused on the 23 official European languages as well as other important national and regional languages in Europe. The results of this analysis suggest that there are many significant research gaps for each language. A more detailed expert analysis and assessment of the current situation will help maximise the impact of additional research

and minimize any risks. META-NET consists of 54 research centres from 33 countries that are working with stakeholders from commercial businesses, government agencies, industry, research organisations, software companies, technology providers and European universities. Together, they are creating a common technology vision while developing a strategic research agenda that shows how language technology applications can address any research gaps by 2020.

The Enciclopedia de Linguística Hispánica provides comprehensive coverage of the major and subsidiary fields of Spanish linguistics. Entries are extensively cross-referenced and arranged alphabetically within three main sections: Part 1 covers linguistic disciplines, approaches and methodologies. Part 2 brings together the grammar of Spanish, including subsections on phonology, morphology, syntax and semantics. Part 3 brings together the historical, social and geographical factors in the evolution of Spanish. Drawing on the expertise of a wide range of contributors from across the Spanish-speaking world the Enciclopedia de Linguística Hispánica is an indispensable reference for undergraduate and postgraduate students of Spanish, and for anyone with an academic or professional interest in the Spanish language/Spanish linguistics.

El Vocabulario de Puerto Rico se publicó por primera vez en 1917; se trató entonces de una pequeña tirada que desapareció de las librerías en poco más de un año. La segunda y última, de 1937, notablemente enriquecida, alcanzó un extraordinario éxito, no sólo en Puerto Rico sino en ámbitos académicos de todo el mundo hispánico. A partir de esta fecha la demanda del público patrocinó otras dos ediciones -1955 y 195, respectivamente- hechas en versión facsimilar por una editorial neoyorquina, hoy desaparecida. Aunque con posterioridad al diccionario de Malaret se han intentado otros ensayos lexicográficos sobre Puerto Rico, ninguno ha podido superar la calidad y el extraordinario acopio de datos del Vocabulario, que sigue siendo, por lo tanto, de consulta obligada por todos aquellos que se interesen por el español hablado en esa zona caribeña. Esta circunstancia hace del Vocabulario no sólo una obra que ayuda a iluminar una parcela pretérita del español de Puerto Rico, sino un volumen útil para adentrarnos en muchas de las peculiaridades léxicas actuales.
