Doc Fizzix Mousetrap Racers: The Complete Builder's Manual...

Doc Fizzix's easy-wind, snag-free propulsion system The Barrel Racer can be assembled in less than 45 minutes for most first time builders and when finished can be set to travel and stop between 1-45 meters.

Mousetrap Car Kits | The Barrel Racer | Doc Fizzix

Description: The Speed-Trap Racer is the fastest mousetrap powered racer anywhere and was designed after Doc Fizzix's own record-setting mousetrap racer that traveled 5 meters in 1.2 seconds. The Speed-Trap Racer is geared to generate a tremendous amount of torque while maximizing the transfer of potential energy into kinetic energy over a 5-meter distance.

Mousetrap Car Kits | Speed-Trap Racer | Doc Fizzix

Description: From mousetrap vehicles, to rubber band racers, and to balloon powered projects the Essential Project Packet contains all the small parts that you need to get your project from the start to the finish. The Essential Project Packet includes all the hard to find parts that are included in each of our Doc Fizzix's mousetrap powered car and rubber band racer kits.

Mousetrap Racers | The Essential Project Packet | Doc Fizzix

The Essential Project Packet includes all the hard to find parts that are included in each of our Doc Fizzix's mousetrap powered car and rubber band racer kits. The Essential Project Pack includes DVD/CD wheel spacers, thrust bearings, axle hooks, and high-tech kevlar string. This is a 10-set of project packs, order as many sets as you need for your next large group activity.

Mousetrap Racers - Doc Fizzix

XL2 wheels are designed for Doc Fizzix Products and designed to help increase the transfer of potential energy into the forward acceleration of any racer. Application: These wheels are to be used with any type of vehicle project including mousetrap cars, rubber band dragsters, balloon racer, CO2 cars, or what every else you can dream up.

Mousetrap Racers | XL2 Front Wheel and Axle Set | Doc Fizzix

Doc Fizzix's easy-wind, snag-free propulsion system The Basic Kit can be assembled in less than 30 minutes for most first time builders and when finished it will travel from 30-45 meters. The Basic Kit comes with a 12-inch lever arm making it The Basic Kit a good long-distance vehicle without the need for adjusting the lever arm length once assembled.

Doc Fizzix Mousetrap Racers: The Complete Builder's Manual...

The down side to using a long lever arm is that long lever arms tend to bending under the large force of the mouse trap's spring causing the system to loose energy at the start. The Super-Long Lever Arm set will build a 36-inch super strong lever arm that is guaranteed not to bend at the start of the run so that your vehicle can maximize it's potential energy into maximum performance.

Mousetrap Racers | Super-Long Lever Arm Set | Doc Fizzix

Doc Fizzix Mousetrap Racers: The Complete Builder's Manual (Fox Chapel Publishing) Beginner-Friendly Instructions, Illustrations, and Designs for Racers that Kids & Parents Can Construct Together Paperback - Illustrated, September 1, 2008 by Alden Balmer (Author) 4.2 out of 5 stars 21 ratings See all formats and editions

Doc Fizzix Mousetrap Racers: The Complete Builder's Manual...

Description: The secret to Doc Fizzix's world record setting mousetrap distance racer that traveled over 182 meters was it's unique pulley system. This is the same pulley set-up that was used on Doc Fizzix's world record setting mousetrap distance car. This unique pulley system is designed to maximize the transfer of potential energy into a 400% greater pulling distance than conventional propulsion systems.

Mousetrap Racers | High-Tech Cassette Pulley Set | Doc Fizzix

This Ultra-Light Snap-Fit Frame Set can be used for any type of vehicle project from mousetrap powered cars, rubber band racers, balloon powered vehicles, and more. All you have to do is glue the frame set together, add your own accessories, and then you are ready fro racing.
