

## Dr Grant C Richison 1 Peter Grace Notes

The new edition includes more than 4,800 resources available at more than 10,000 Internet sites that provide information on a range of biblical study topics including Bible translations in English and other languages, audio translations of the Bible in English and other languages, commentaries, dictionaries, and other resource materials including ones in Greek, Hebrew and other ancient languages. The author also has adopted a new method of referencing and cataloging the most widely used web pages to facilitate a major expansion of resources without increasing the physical length of the book itself. In cases when ten or more resources are listed on a single web page, the author has assigned the web page a three-digit code. The code is used to identify this web page as a major resource within the main text, while any needed instructions for use of the site are cross-referenced separately in the final chapter. In adopting this concise method, the author was able to add hundreds of additional or updated web resources, a surprising number of which can be downloaded onto a hard drive for immediate and continued use.

Volume 3 of the Bible Exposition Commentary 6-volume set

Witnessing used to involve laying out the truth and guiding a person to understand and accept it. But the awareness of basic Christian principles has changed and so have the needs of pre-believers. With a passion for people, authors David and Norman Geisler share an engaging, conversational approach to evangelism as they address: What makes old models of witnessing ineffective in today's culture Why evangelism must start with relational pre-evangelism How to ask questions, listen attentively, and understand what someone believes Ways to identify the real barriers to belief in order to build a bridge to truth How to keep dialogue going with different personality types This refreshing, practical resource is ideal for churches and individuals. Readers will discover how God uses their everyday encounters for great things when they switch from trying to witness effectively to effectively being a witness through communication and compassion.

Covers the years 28 to 5 BC; includes Dio's discussion of the constitutional settlement of 27 BC and the imperial system it inaugurated.

Should women teach men? Should they exercise authority over men? What about ordaining women? Even those who agree that Scripture must determine our answers do not agree on what it teaches. And too often differing sides have not been willing to listen to one another. Here in one volume are the views of four deeply committed evangelicals that focus the discussion on the issues. Robert Culver argues for what might be called the traditional view that women should not exercise authority over or teach men. Susan Foh suggests a modified view which would allow for women to teach but not to hold positions of authority. Walter Liefeld presents a case for plural ministry that questions ordination as a means of conferring authority. Alvera Mickelsen defends the full equality of men and women in the church. What makes this book especially helpful is that the writers all respond to the other essays, pointing out weaknesses and hidden assumptions.

***The Past Casts a Long Shadow. Especially When It Points to a Woman's First Love. Her name was Mary Grace until she fell in love with the French exchange student visiting her family's Nebraska farm. Francis renamed her "Aglaia"-after one of the beautiful Three Graces of Greek mythology-and set the seventeen-year-old girl longing for something more than her parents' simplistic life and faith. Now, fifteen years later, Aglaia works as a costume designer in Denver. Her budding success in the city's posh arts scene convinces her that she's left the naive farm girl far behind. But "Mary Grace" has deep roots, as Aglaia learns during a business trip to Paris. Her discovery of sensual notes that Francis jotted into a Bible during that long-ago fling, a silly errand imposed by her mother, and the scheming of her sophisticated mentor all conspire to create a thirst in her soul that professional success can't quench. "The Third Grace" takes you on a dual journey across oceans and time-in the footsteps of a woman torn between her rural upbringing and her search for self.***

***The original eight volumes now complete and unabridged in four! "Though scholarly in the true sense of the word, this work can also be read and understood by those not formally trained in theology." --Charles C. Ryrie***  
***How exactly does one become wise? Pastor and teacher Ray Ortlund points out that the wisdom of God does not stand aloof, as if it were unattainable. Instead, he shows that wisdom graciously moves toward us, into our real world where we live and struggle day by day. Wisdom offers us her very best, if only we will listen. After all, "Wisdom cries aloud in the street, in the markets she raises her voice," and, if wisdom troubles herself to yell, there must be a reason to listen and a means to hear. Ortlund unpacks the book of Proverbs in twenty-one straightforward sermons, providing a biblical worldview that opens up the higher meaning of money, sex, and power, as well as that of the daily routines of an average life. Drawing relevant parallels from ancient culture to present day, he helps the reader understand how the book of Proverbs is practical help for normal people going through everyday life. Most importantly, Ortlund shows how the Proverbs point to Jesus and his counsel for the perplexed, his strength for the defeated, his warning to the proud, his mercy for the broken. With careful treatment of the Scriptures and uncomplicated language, Proverbs: Wisdom that Works fills the vacuum between the layman's experience and the exegetical depth of many commentaries. Grab a cup of coffee and join Pastor Mike as he offers insights into apostle John's teachings of living a sin-free life filled with love, hope, and peace. Many people are dissatisfied with their looks: where this mushrooms into clinical obsession ("e;Body Dysmorphic Disorder"e;), this can have wide-ranging life consequences which require diagnosis and treatment. Using a combination of verse, prose and illustration, the author conveys her feelings and conclusions about her decades-long journey of healing from a mental disorder. The Biblical image of the olive tree and its grafts is her inspiration, as she follows a two-phase journey of healing: 1) The faith step: following her father into a mental hospital she finds the key to survival, so closing the door on suicide. 2) The step of insight: working with her therapist through partial diagnoses to uncover the core disorder and receive healing through a symbol of grace.

Sex & Religion in the Lives of American Teenagers

12 Ways to Keep Yours Alive

The Immutability of God

HarperCollins Bible Commentary - Revised Edition

Yearbook of American and Canadian Churches

**Americans remain deeply ambivalent about teenage sexuality. Many presume that such uneasiness is rooted in religion. But how exactly does religion contribute to the formation of teenagers' sexual values and actions? What difference, if any, does religion make in adolescents' sexual attitudes and behaviors? Are abstinence pledges effective? What does it mean to be "emotionally ready" for sex? Who expresses regrets about their sexual activity and why? Tackling these and other questions, *Forbidden Fruit* tells the definitive story of the sexual values and practices of American teenagers, paying particular attention to how participating in organized religion shapes sexual decision-making. Merging analyses of three national surveys with stories drawn from interviews with over 250 teenagers across America, Mark Regnerus reviews how young people learn-and what they know-about sex from their parents, schools, peers and other sources. He examines what experiences teens profess to have had, and how they make sense of these experiences in light of their own identities as religious, moral, and responsible persons. Religion can and does matter, Regnerus finds, but religious claims are often swamped by other compelling sexual scripts. Particularly interesting is the emergence of what Regnerus calls a new middle class sexual morality which has little to do with a desire for virginity but nevertheless shuns intercourse in order to avoid risks associated with pregnancy and STDs. And strikingly, evangelical teens aren't less sexually active than their non-evangelical counterparts, they just tend to feel guiltier about it. In fact, Regnerus finds that few religious teens have internalized or are even able to articulate the sexual ethic taught by their denominations. The only-and largely ineffective-sexual message most religious teens are getting is, "Don't do it until you're married." Ultimately, Regnerus concludes, religion may influence adolescent sexual behavior, but it rarely motivates sexual decision making.**

**The inerrancy of God's Word has been attacked throughout church history. Today's assaults are unique since neo-evangelicals now surrender to post-modernistic ideas of history and historical-critical ideologies that assault this vital doctrine. They seek to redefine the orthodox meaning of inerrancy. Since the signing of the Chicago Statements, troubling signs have once again appeared in recent years among many who either did not fight the battles for the inerrancy of Scripture as did the International Council on Biblical Inerrancy, or who do not remember the troubling times that caused their development. The nature and definition of "inerrancy" are now being changed to include ideas of fallibility. History is forgotten. The need arises for sounding the alarm for *Vital Issues in Inerrancy*. Evangelical schools and churches that broke away earlier to defend inerrancy surrender now to academic prestige and scholarly fads instead of faithfulness to God's inerrant Word. The contributors pray that the Lord will raise up a new generation with the spiritual fervency of the International Council on Biblical Inerrancy to uphold the inerrancy of God's Word: Isaiah 40:8--"The grass withers, the flower fades, But the word of our God stands forever."**

**Presents twelve lessons on keeping a church alive, discussing the consistent themes the author found in dying churches.**

**W.H. Griffith Thomas, one of the founders of Dallas Theological Seminary, provides an invaluable resource for pastors, theologians and lay Christians seeking to deepen their study of God's Word. In a day when Bible literacy is on the decline, no tool could more relevant and useful. "The purpose of this little book," he writes, "is the simple though necessary one of directing fresh attention to the value and importance of the study of the Bible itself as distinct from, or at least prior to, the study of books about the Bible. It is only too possible to know a great deal about the Bible and yet to know very little of the contents of the Bible. These chapters are intended to suggest methods of mastering the subject-matter of the Word of God, its facts and doctrines." "It is hoped that Christian workers of our Churches may find herein some suggestions for a fuller knowledge of their handbook of service and for a more efficient use of their weapon of warfare, the English Bible."**

**Charles Haddon Spurgeon's, *The Immutability of God*, will inspire and challenge you. Listen to Spurgeon: I know nothing which can so comfort the soul, so calm the swelling billows of grief and sorrow-so speak peace to the winds of trial-as a devout musing upon the subject of the Godhead. It is to that subject that I invite you this morning. We shall present you with one view of it-that is the immutability of the glorious Jehovah. "I am," says my text, "Jehovah," (for so it should be translated) "I am Jehovah, I change not; therefore you sons of Jacob are not consumed."**

**Dr. Norman L. Geisler has been called the "father of evangelical Christian philosophy." He has written more than one hundred books and taught at universities and top seminaries for some fifty-six years. He was the first president of the Evangelical Philosophical Society and the founder and first president of the International Society of Christian Apologetics. He has spoken or debated in more than two dozen countries and held pastoral/pulpit ministries in four states. Many view him as a cross between Thomas Aquinas and Billy Graham. No one has done more to communicate the modern challenges of the Faith to the "average" Christian, to the church, and to the academy. This volume offers creative and constructive essays from twenty-three contributors, all notable in their own right, who preserve and propagate Dr. Geisler's ideas and express appreciation for his influence. Those who know him best say he is "true, faithful, and blessed by God!"**

**The Christian Apologetics Journal is not meant to record your sorry's; rather, it is a storage of your reasoned defense of your faith. Always be prepared to give reasoned answers should skeptics ask.**

Lewis Sperry Chafer's "True Evangelism" remains a classic work on the process of evangelism. In this relatively short, but scripture packed treatment, Chafer lays out the case for the work of God and man in this most sacred enterprise. While it was written in 1919, it remains at the top of modern reading lists on the subject. The six topics discussed in the book are as follows: I. FALSE FORCES IN EVANGELISM II. SALVATION, THE OBJECTIVE IN EVANGELISM III. THE CONVICTING OF THE SPIRIT IV. THE PRAYER OF INTERCESSION V. SUFFERING WITH CHRIST VI. THE CLEANSING OF THE PRIESTS

No one thinks more clearly than Grant Richison about matters of biblical authority, truth, and certainty. I commend this book to you to stretch your thinking and find a firm anchor for your faith.--Dr. Erwin W. Lutzer, Senior Pastor, The Moody Church.

According to the authors, the doctrine of inerrancy has been standard, accepted teaching for more than 1,000 years. In 1978, the famous "Chicago Statement" on inerrancy was adopted by the Evangelical Theological Society, and for decades it has been the accepted conservative evangelical doctrine of the Scriptures. However, in recent years, some prominent evangelical authors have challenged this statement in their writings. Now eminent apologist and bestselling author Norman L. Geisler, who was one of the original drafters of the "Chicago Statement," and his coauthor, William C. Roach, present a defense of the traditional understanding of inerrancy for a new generation of Christians who are being assaulted with challenges to the nature of God, truth, and language. Pastors, students, and armchair theologians will appreciate this clear, reasoned response to the current crisis.

The Angelic Conflict rages around us. This is not a world war. This is a war beyond the world—an invisible warfare between the forces of Satan and the forces of God. Ultimately God will win. Long before the advent of human history, Satan arrogantly rebelled against his Creator. He wanted to make himself "like the Most High" and recruited one-third of the angels to follow him. God justly condemned Satan and his fallen angels to spend eternity in the lake of fire. Satan appealed the sentence, claiming unfairness—questioning how a loving God could cast His creatures into hell. Planet Earth is now the battleground where Satan seeks to outmaneuver God, prove the judgment unfair, and foil the execution of his sentence. Satan will not suffer defeat without an intense struggle. God created man to resolve this angelic conflict. Human volition is the focal point of the firestorm. Will man choose God's grace plan of salvation or follow the arrogant system of Satan? Through the freewill decisions of mankind, God proves to Satan His perfect justice and love again and again. As believers, it is imperative we understand this spiritual warfare that surrounds us. Satan uses every ruse at his command to derail and discredit those who are in Christ. For our defense, God has provided an overwhelming advantage in a powerful suit of spiritual armor. With it we can withstand the "flaming missiles of the evil one" and become heroes in the invisible war. God is glorified as we lock shields and stand firm on His power and Word.

This eBook edition has been formatted to the highest digital standards and adjusted for readability on all devices. All of Grace is a theological study by Charles Spurgeon who is known as the "Prince of Preachers". Grace is the hallmark of Christianity which is often out of the focus of the Christian church. Spurgeon suggests that the grace is the central glue of faith, redemption, and repentance. He argues that through grace, repentance gets a meaning. A gospel centered study tells about the greatness of Jesus and the Lord's redemptive heart towards his own. Spurgeon deals with the sin that entangles us by showing us Jesus. He reminds us that the Lord knows very well that we can't change our heart, but he can, when we submit to him by faith in Jesus. And with faith comes repentance.

With contributions from leading scholars, this compelling volume offers fresh insights into literacy teaching and learning—and the changing nature of literacy itself—in today's K-12 classrooms. The focus is on varied technologies and literacies such as social networking sites, text messaging, and online communities. Cutting-edge approaches to integrating technology into traditional, print-centered reading and writing instruction are described. Also discussed are ways to teach the new skills and strategies that students need to engage effectively with digital texts. The book is unique in examining new literacies through multiple theoretical lenses, including behavioral, semiotic, cognitive, sociocultural, critical, and feminist perspectives.

What theologies are popular and formative of Christian thinking in the present day? How should they be assessed by those Christians who want to be "in the world" without being "of the world"? Theologies of the 21st Century begins with an overview of the historical roots from which current theological thinking has developed, and then moves on to a detailed evaluation of the chief doctrinal and practical emphases, taking an evangelical biblical perspective that seeks to be at once both critical and irenic.
