### **ELMO USA | Connecting Minds**

**Elmo projectors, or document projectors, use a video camera. The main purpose of this type of projector is to display documents and other objects that are not translucent — in other words, documents that are not made with transparencies. This requires a video camera, which is usually digital, and a projection lens in order to work properly.**

### **What is an Elmo& Projector? (with picture)**

**ELMO has been in the Business and Legal market since the introduction of the first overhead projector in 1969. Since then ELMO has come a long way with document cameras catered to this specific market, meeting consumer needs with smaller and much more portable cameras for people ready to present on the go.**
