Many practice problems are available in the textbooks for the economics section of the course.

Question 1 A small aerospace company is evaluating two alternatives: the purchase of an

Online Library Engineering Economics Example Problems

automatically fed machine or a manually fed machine. All projects in the company are expected to return at least 10% (before tax).

Practice questions - Engineering Economics and Problem ...

Online Library Engineering Economics Example Problems

*Engineering Economics 4-11d
Additional Examples Example 4
(FEIM): A loan of \$10,000 is made
today at an interest rate of 15%,
and the first payment of \$3000 is
made 4 years later. The amount
that is still due on the loan after*

Online Library Engineering Economics Example Problems

the first payment is most nearly
(A) \$7000 (B) \$8050 (C) \$8500 (D)
\$14,500 loan due =
(\$10k)(F/P, 15%, 4) - \$3000

*Lukman Hakim - Academia.edu
EGR2302-Engineering Economics
Al Akhawayn University 11 6.1
Example 6.1 continued • If one
assumes the cash flow patterns
remain the same for the 6 and 9
year projects then all one has to*

Online Library Engineering Economics Example Problems

*do is: 6 year Project 9 year Project
Find the AW of any 6 -year cycle
Find the annual worth of any
9-year cycle And then compare the
AW6/yr to AW9/yr*

Chapter 6: ANNUAL WORTH

Online Library Engineering Economics Example Problems

ANALYSIS

5.3 Example Problem with a 5-yr SP. • Assume a 5- year Study Period for both options: For a 5-year study period no cycle repeats are necessary. $PWA = -15,000 - 3500(P/A, 15\%, 5) +$

Online Library Engineering Economics Example Problems

$$1000(P/F, 15\%, 5) = \$-26,236$$

$$PWB = -18,000 - 3100(P/A, 15\%, 5) +$$

$$2000(P/F, 15\%, 5) = \$-27,397$$

Location A is now the better choice.

Chapter 5: PRESENT WORTH

Online Library Engineering Economics Example Problems

ANALYSIS

Engineering Economics Sample Problems Example: A project engineer has a budget of \$450,000 to overhaul a plant. Fixed output. There is a fixed task, or other output to be accomplished.
