Engineering Mathematics I | Makerere University Courses Course title: Engineering Mathematics I Course code: IEB 1011 Type of course: Lecture Level of course: Bachelor Year of study: First year ECTS Credits: 6 Semester: 1st Semester Name of the lecturer: Claudia Tack Course contents: - Functions of one and multiple variables

[Engineering Mathematics I Course Code Mat101](#)

This course is about the basic mathematics that is fundamental and essential component in all streams of undergraduate studies in sciences and engineering. The course consists of topics in differential calculus,integral calculus, linear algebra and differential equations with applications to various engineering problems.

[Engineering Mathematics - I - Course](#)

The first two years of this course provide a background in mathematical analysis, modelling and scientific computation and their application to engineering. These core topics underpin the advanced material that follows. As well as gaining first-hand exposure to pioneering research, after your first two years you will have a wide choice of options from across engineering and mathematics to fit ...
