This first book in a series, English Structure, covers the different parts of speech and their roles in sentences. Students will learn how to diagram sentences, a task which graphically makes evident common errors such as writing sentence fragments, confusing the pronouns OIO and OmeO, and using adjectives when adverbs are appropriate. Not all students will need this volume. Those who have read widely and well, or who already achieved a good grasp of grammar, may prefer to proceed directly to the next volume. Usage Using a multiliteracies theoretical framework highlighting social diversity and multimodality as central in the process of meaning making, this book examines literacy teaching and learning as embedded in cultural, linguistic, racial, sexual, and gendered contexts and explores ways to foster learning and achievement for diverse students in various settings. Attending simultaneously to topics around two overarching and interrelated themes—languages and language variations, and cultures, ethnicities, and identities—the chapter authors examine the roles that multiliteracies play in students' lives in and out of classrooms. In Part I, readers are asked to examine beliefs and dispositions as related to different languages, language varieties, cultures, ethnicities, and identities. Part II engages readers in examining classroom and community practices related to different languages and language varieties, cultures, ethnicities, and identities.
