Build me up: how architecture can affect emotions

Form follows function is a principle associated with modern architecture and industrial design in the 20th century. The principle is that the shape of a building or object should be primarily based upon its intended function or purpose.

*Modernism in architecture
Rejecting ornament and
embracing minimalism,
Modernism became the single
most important new style or
philosophy of architecture
and design of the 20th
century. It was associated
with an analytical approach
to the function of
buildings, a strictly
rational use of (often new)
materials, structural
innovation and the ...*

Modernism

The overstated notion that "form follows function" is not a plausible equation in adaptive reuse. In this case, function has to unquestionably follow form. Architects seem to be more eager to seek form rather than to merely serve programmatic function.

*Function Follows Form? -
BRAVE / Architecture*

It was the first form of contamination between the principles of architecture and the ones of video games, at least before the arrival of three-dimensional worlds in the mid-1990s. From that

Get Free Form Follows Feelings The Architecture Of Pramod Beri 1st Edition

moment on, the space was not only two-dimensional, but could be explored with less or more freedom. Creating a map meant to create a space to interact with.
