2008 Chevy Trailblazer Fuel Tanks & Components at CARiD.com

Lowering the gas tank on a Chevy Malibu is necessary in order to replace the gas tank, of course, but it's also required if you want to replace the fuel pump or repair the fuel gauge sending unit. The tank itself is not very heavy once you empty out the gasoline, but it is bulky. The tank is designed to hold up to 16 gallons of fuel plus a reserve of 2 gallons. You must remove two straps, fuel lines and a wiring harness on the Malibu before you can drop the gas tank.
