(Motivation)

The first mention of Christian Latin hymns by a known author occurs in the writings of St. Jerome who states that Hilary, Bishop of Poitiers (c. 310-366), a noted author of commentaries and theological works, wrote a Liber Hymnorum. This collection has never been recovered in its entirety. Hilary's priority as a hymn writer is attested by Isidore of Seville (d. 636) who says: Hilary, however, Bishop of Poitiers in Gaul, a man of unusual eloquence, was the first prominent hymn writer. More important than his prior claim is the motive which actuated him, the defense of the Trinitarian doctrine, to which he was aroused by his controversy with the Arians. A period of four years as an exile in Phrygia for which his theological opponents were responsible, made him familiar with the use of hymns in the oriental church to promote the Arian heresy. Hilary wrested a sword, so to speak, from his adversaries and carried to the west the hymn, now a weapon of the orthodox. His authentic extant hymns, three in number, must have been a part of the Liber Hymnorum. Ante saecula qui manens, "O Thou who dost exist before time," is a hymn of seventy verses in honor of the Trinity; Fefellit saevam verbum factum te, caro, "The Incarnate Word hath deceived thee (Death)" is an Easter hymn; and Adae carnis gloriosae, "In the person of the Heavenly Adam" is a hymn on the theme of the temptation of Jesus. They are ponderous in style and expression and perhaps too lengthy for congregational use since they were destined to be superseded. In addition to these the hymn Hymnum dicat turba fratrum, "Let your hymn be sung, ye faithful," has been most persistently associated with Hilary's name. The earliest text occurs in a seventh century manuscript. It is a metrical version of the life of Jesus in seventy-four lines, written in the same meter as that of Adae carnis gloriosae.

Music in the California missions was a pluralistic combination of voices and instruments, of liturgy and spectacle, of styles and functions - and even of cultures - in a new blend that was non-existent before the Franciscan friars' arrival in 1769. This book explores aesthetic, stylistic, historical, cultural, theoretical, liturgical, and biographical aspects of this repertoire. It contains a "Catalogue of Mission Manuscripts," 150+ facsimiles, translations of primary documents, and performance-ready music reconstructions.

The Raccolta is a book, published from 1807 to 1950, that listed Roman Catholic prayers and other acts of piety, such as novenas, for which specific indulgences were granted by Popes. In 1968 it was replaced by the Enchiridion Indulgentiarum, listing fewer specific prayers but including new general grants that apply to a wide range of prayerful actions. The Raccolta (literally meaning "collection" in Italian) is an abbreviation of its full title: Raccolta delle orazioni e pie opere per le quali sono concedute dai Sommi Pontefici le SS. Indulgenze ("Collection of Prayers and Good Works for Which the Popes Have Granted Holy Indulgences"). The text was in Italian, with the prayers themselves given in Latin. The book was first published in 1807 by Telesforo Galli, in association with the Sacred

Congregation of Indulgences and Holy Relics, with successive editions in 1810, 1812, 1814, 1818, 1825, 1831, 1834, 1837, 1841, 1844 and 1849. Following official approval by a Decree of 15 December 1854, later editions were issued directly as publications of the Holy See by the Sacred Congregation of Indulgences and Holy Relics (which in the reform of the Roman Curia by Pope Pius X was united with the Sacred Congregation of Rites. A general revision was carried out in 1877, declaring that the revision alone was from then on authoritative. Later editions of this were produced in 1886 and 1898. Approval of the Roman Congregation was required for publishing a complete translation of the work.

A memoir and social history of small-town America in the early 1950s recalls the conflicting values that shaped the author's education but reveals how his progressive thinking family fostered his love for fiction and his desire to be unique.

"They must be taught that it is folly to attempt music beyond their powers, and that it is a mistake to despise all but difficult compositions. Some of the sublimest music ever written is simplicity itself. I need only mention Palestrina's Improperia and Mozart's Ave verum as instances of this." -Sir Richard Runciman Terry (d. 1938)

Sixty Years of California Song

Reproduction of the original: Sixty Years of California Song by Margaret Blake-Alverson

A sequel to *The Death of Christian Culture*, this spiritual treatise covers social, cultural, and political topics. It explores the importance of religious knowledge and faith to the health of a culture, provides a historical sketch of the change in cultural and educational standards over the last two centuries, and illustrates how literary and other visual arts either contribute to a culture or conspire to tear it down. Compared to a series of sermons, this analysis explains that there is a continuing extinction of the cultural patrimony of ancient Greece, Rome, medieval Europe, and the early modern period of Western civilization, owing to the pervasive bureaucratization, mechanization, and standardization of increasing materialism.

When it is taught today, metaphysics is often presented as a fragmented view of philosophy that ignores the fundamental issues of its classical precedents. Eschewing these postmodern approaches, W. Norris Clarke finds an integrated vision of reality in the wisdom of Aquinas and here offers a contemporary version of systematic metaphysics in the Thomistic tradition. *The One and the Many* presents metaphysics as an integrated whole which draws on Aquinas' themes, structure, and insight without attempting to summarize his work. Although its primary inspiration is the philosophy of St. Thomas himself, it also takes into account significant contributions not only of later philosophers but also of those developments in modern science that have philosophical bearing, from the Big Bang to evolution.
