High Expansion Foam Generators Buckeye HIGH EXPANSION FOAM GENERATORS - Buckeye Fire ... Jan 01, 2019 · foam for every one gallon of foam solution can be achieved depending on the generator selected, the solution flow rate and the water pressure However, the optimum expansion ratio is in the range of 500:1 up to 700:1 The standard Buckeye High ...

*High Expansion Foam Generators Buckeye Fire Equipment*

The selection includes bladder tanks, balanced pressure pump skid units, eductors, monitors, foam chambers, foam makers, high expansion foam generators, foam carts and handline nozzles. Many of the components can be customized to provide optimal protection for your unique situation.

*Foam Agents & Hardware – Buckeye Fire Equipment*

JET-X High-Expansion Foam Generators deliver large quantities of expanded foam by blowing air through a screen coated with a high-expansion foam solution. Because of its high expansion ratio (up to 1000:1), little water is required to generate large quantities of foam. This dramatically cuts the cost of these systems and has the additional benefit of reducing the system footprint.
