Homegrown Berries: TIMBER PRESS: Amazon.com.au: Books Growing blueberries in a pot woks well if you create the soil conditions they like best. Start with a pot that's at least 20 to 24 inches wide or larger. Planting tips: Choose a potting-mix soil for blueberries designed for acid-loving plants like rhododendrons, azaleas, or camellias. Look for a pH balance between 4.5 and 5.5.

How to Grow Berries in Containers | Better Homes & Gardens If you have never grown strawberries before then housing them in containers is a great way to start. It's an almost fool-proof option and the rewards are indescribably sweet! Plant, water, feed and pluck then fill your own mouth with the unbeatable aroma of home-grown strawberries. By Benedict Vanheems.

How to Grow Strawberries Successfully in Containers Growing your own orchard fruits in the backyard is extremely rewarding and gives you an empowering sense of resiliency. It reduces your carbon footprint (that luscious peach you're biting into was not just transported 500 miles) and your grocery bills. Homegrown fruit is far more delicious than what you find in a store, and you can rest assured that it is safe to eat.
