~~How Buildings Learn~~

~~How Buildings Learn: What Happens After They're Built~~
~~is an illustrated book on the evolution of buildings and how buildings adapt to changing requirements over long periods. It was written by Stewart Brand and published by Viking Press in 1994. In 1997 it was turned into a 6-part TV series on the BBC.~~

How Buildings Learn - Wikipedia

The best version of the book The British edition of my HOW BUILDINGS LEARN is much the best, because it is so well printed, and the 250 photographs read very well. Critical remarks about buildings by Richard Rogers, however, were censored out of this edition, thanks to legal threats by Mr. Rogers. They are intact in the American editions.

How Buildings Learn: What Happens After They're Built ...

Buildings have often been studies whole in space, but never before have they been studied whole in time. How Buildings Learn is a masterful new synthesis that proposes that buildings adapt best when constantly refined and reshaped by their occupants, and that architects can mature from being artists of space to becoming artists of time.

How buildings learn (1994 edition) | Open Library

How Buildings Learn is a hymn to entropy, a witty, heterodox book dedicated to kicking the stuffing out of the proposition that architecture is permanent and that buildings cannot adapt."--Stephen Bayley, The Times (London) "The book's diagnosis is clear and to the poiny, and its illustrations of how buildings change are both fascinating and instructive. This is, in short, one of the rare ...
