It is a rich collection of essays by an international array of scholars representing various theoretical perspectives, but all concerned with interactional aspects of humor. The contributors are scholars active both in the interdisciplinary area of humor studies and in adjacent disciplines such as linguistic pragmatics, sociolinguistics, discourse analysis, psycholinguistics, gender and translation studies.

Humor in Interaction | Edited by Neal R. Norrick and Delia ...
This study illuminates the interactional process through which participants collaboratively co-construct humorous food storytelling in talk-in-interaction, by elucidating how storytellers and story recipients co-experience incongruity between their predictions and reality, collaboratively (re-)discover humor in the event together, and achieve mutual understanding of the different social actions accomplished by humorous laughter.

Failed Humor in Interaction by Nancy Bell is a 184-page study of failed humor during interaction. The book is aimed at two primary audiences: people interested in the academic study of

Bell, Nancy. (2015). We are not amused: Failed humor in ...
Abstract. The compelling power of humor makes it a recurrent topic for research in many fields, including communication. Three theories of humor creation emerge in humor research: the relief theory, which focuses on physiological release of tension; the incongruity theory, singling out violations of a rationally learned pattern; and the superiority theory, involving a sense of victory or triumph.

Humor as a Double-Edged Sword: Four Functions of Humor in ...
Humor is an important but underutilized resource in nurse-patient interaction. The multidimensional value of humor in providing nursing care has recently begun to receive attention. The purpose of this phenomenological study was to describe the meaning of nurses' use of humor in their nursing practice.

Humor in nursing practice: a phenomenological study ...
• Humor has the potential to relieve stress in patients and medical professionals. • The area that has shown the most promise is the use of humor to moderate a patient's response to pain. Southern Medical Journal • Volume 96, Number 12, December 2003 1257

Humor in Medicine
Humor is important in its ability to help people to "think outside the box.". It aids in the conceptualization of ideas that are outside of the framework of accepted norms. In this sense, it is a similar skill to having intercultural understanding and communication. It can also assist in the understanding and deconstructing of social and cultural expectations.

Functions of Humor in Intercultural Communication and ...
This study is an examination of the interaction of humor and gender in moderating relationships among perceived stress, anxiety, and physical symptoms. Introductory psychology students (70 women, 61 men) completed self-report scales measuring perceived stress, humor, and symptomology. Multiple regression analyses revealed a moderating effect for humor between stress and anxiety, but only for men.
