When you start up your iBook G4 in FireWire Target Disk Mode, your iBook G4 appears as a hard disk on the other computer and you can transfer files. For information about using FireWire to transfer files, see "Connecting Your iBook G4 to Another Computer Using FireWire" on page 35. • If you have a .Mac account, you use it to transfer files. A .Mac account gives you Internet access and iDisk, which provides storage space available over the Internet for sharing files.

Apple's iBook G4 replaced the previous iBook G3 in October 2003 and was the last Apple's computers to transition to the PowerPC G4 processor. The new model replaced the white plastic shell from the old design, but replaced the tray-loading optical drive with a slot-loading version. The iBook G3 was updated twice in 2004 to increase processor speed but kept the same model number (see ...
