The first spoonful always tastes the best, but Gearhardt said the more ice cream you eat, the more it leads to diminishing returns, and it gets to the point where " I don ' t even taste it. " (In 2013, researchers at Würzburg University in Germany published a study on how sadness can mask our ability to taste fat.) " It ' s not about the pleasure or joy or paying attention to the taste, " she said. " It ' s almost like, I ' m kind of zoned out and just shoveling it in my mouth. "
